Powerful Pump for Player Piano.

Many perfect rolls are declared defective on account of obstructions caused by dirt and paper dust which sometimes accumulate in the mouthpiece of the player piano. Very valuable to piano tuners in locating defective notes. Made of very heavy construction having nickel plated brass cylinder. This pump has very powerful suction, also dust receiver to keep dust from going through pump. Length, about 9 inches; diameter, 1½ in. Shipping weight, 1 lb. 1 oz.

12N5294 ..... $1.90

Midget Exhaust Pump for Player Piano.

Body is made of aluminum, about 8 inches long by ⅞ inch in diameter. Rubber mouthpiece. Very powerful for a small pump. Shipping weight, 12 ounces.

VIOLIN OUTFITS

We earnestly solicit comparison of our violins with those offered by others, and believe we can give you a better looking, better constructed and better toned instrument and save you money besides. A fair trial is all we ask.

A beginner's outfit that is a bargain. The violin is made of seasoned materials, nicely finished and carefully put together. Maple back and sides. Spruce top. Outfit consists of:

One violin, as described.
One form fitting felt bag.
One good bow.
One piece rosin.
One instruction book.
One fingerboard chart.
One extra set of steel strings.
Shipping weight, 7 pounds.

12N119¼ **$5.95**

12N122¼—Same as above, but in three-quarter size, for children from 8 to 12 years of age..... **$5.95**

12N134¼ — Same but half size for children up to 8 years old..... **$5.95**

Vuillaume model violin, well constructed of seasoned wood. Maple back and sides, spruce top. The fingerboard, tailpiece and pegs are of ebonized hardwood. Inlaid purfling around edges. Finished in a reddish brown color, shaded to the natural color of the wood. A fine outfit for amateurs.

Outfit consists of:

One violin, as described.
One bow with hardwood stick.
One rubberized cloth bag (form fitting).
One piece rosin.
One "A" tuning pipe.
One extra set steel strings.
One fingerboard chart.
One Guckert's Instruction Book.
Shipping weight, 9 pounds.

12N123¼
$9.95

This splendid outfit is fully equipped to take care of the average player. Stradivarius model violin. Fully lined and blocked. Flamed maple back and sides and spruce top. The tailpiece, fingerboard and pegs are of ebony. The finish is a yellowish brown color, covered with fine varnish. Compare this with violins sold by others at $20.00 to $25.00. Outfit consists of: One violin, as described. One "Resisto" weather proof case, flannelette lined, nickel plated lock and clasps. One bow, fully lined with nickel silver. One piece rosin. One extra set Bell Brand steel strings. One four-pipe tuner. One fingerboard chart. One Guckert's Instruction Book. The Young Violinist's Favorite. Shipping weight, 12 pounds.

12N130¼ **$14.95**

This violin has two rows of inlaid purfling around both top and back edges. It is well constructed with back of two pieces of maple and sides of the same material. The top is made of seasoned spruce, and the tailpiece, fingerboard and pegs are made of ebony. Finished in a brilliant red color, shaded to the natural color of the wood. Outfit consists of:

One violin, as described.
One canvas covered case, flannelette lined.
One bow, with pearl eye in frog, full nickel silver lined.
One piece book form rosin.
One extra set of Bell Brand steel strings.
One fingerboard chart.
One four-pipe tuner.
One book Guckert's Self Instructor.
Shipping weight, 12 lbs.

12N126¼ $12.45

Stradivarius model with two-piece back of seasoned maple, nicely flamed. The sides are maple and the top is made of selected spruce. Maple neck and scroll, the back of scroll being hand carved. Ebony fingerboard, Nicely inlaid purfling around the edges. Finished in a rich color and covered with transparent varnish. The ebony tailpiece and pegs are inlaid with mother of pearl ornaments and flowers. Fancy carved chin rest. Outfit consists of:

One violin, as described.
One case covered with imitation alligator artificial leather, lined with flannelette. Nickel plated lock and catches.
One nickel silver lined bow. Frog inlaid with pearl flowers.
One set gut strings.
One Guckert's Instruction Book.
One piece rosin.
One fingerboard chart.
One four-pipe tuner.
One Drawing Room Collection. Shpg. wt., 12 lbs.

12N132¼ $17.45

Fine Stradivarius model with two-piece back, made of seasoned maple, nicely flamed. Top of selected spruce. Fully lined and blocked. The tailpiece, fingerboard and pegs are of ebony. Finish is a rich reddish brown color. Excellent tone. Outfit consists of:

One violin, as described.
One case, keratol (artificial leather) covered, flannelette lined, nickel plated lock and clasps.
One fine model bow, wide ebony frog, fully lined with nickel silver.
One chin rest.
One cake Bernadel rosin.
One set Acme professional gut strings.
One fingerboard chart.
One metal mute.
One four-pipe tuner.
One Wichtl's Instruction Book.
One Drawing Room Collection.
High grade in every respect.
Shipping weight, 12 pounds.

12N131¼ $19.95

Stradivarius model of accurate proportions. Back and sides of selected flamed maple and top of even grained spruce. Figured neck and scroll. Ebony fingerboard, tailpiece and pegs. Beautiful dark red color. The tone is mellow and even on all strings.

Outfit consists of:

One violin, as described.
One Pernambuco wood bow, full nickel silver trimmed.
One case, covered with keratol (artificial leather). Velveteen lined and nickel trimmed.
One piece Bernadel rosin.
One chin rest.
One fingerboard chart.
One Wichtl's Instructor.
One Drawing Room Collection.
One extra set of Acme professional gut strings.
One five-prong metal mute.
One four-pipe tuner.
Shipping weight, 12 pounds.

Fine Orchestra Violin.

You will be surprised at the quality of workmanship, beauty and finish of this instrument when you consider the price. It is a true Stradivarius model, very carefully constructed. Maple back and sides nicely flamed. Flamed maple scroll and neck. The fingerboard, tailpiece and pegs are made of ebony in dull finish, the tailpiece and pegs being richly hand engraved. You will note particularly the clean and excellent workmanship. It is finished in a reddish brown color, covered with a deep transparent varnish. The tone is especially suited to orchestral work. Shipping weight, 10 pounds.

12N146¼ $24.95

A Smooth and Mellow Tone.

This violin is made from the measurements of a famous Stradivarius and is carefully planned and worked out in every detail. The wood used is selected for its sonority as well as beauty. The back, sides, neck and scroll are made of finely flamed maple. Well matched spruce top of even grain. Ebony fingerboard, tailpiece and pegs. The body is finished in a deep red color and covered with a rich varnish which is semi-dull rubbed. The tone of this violin is mellow and smooth, even on all strings, and is suitable for either solo or orchestral playing. Shipping weight, 10 pounds.

12N165¼ $29.95

A Perfect Copy of an Old Stradivarius.

We have entered into an agreement with a famous maker who reproduces old violins perfectly, even to the marks caused by age and usage. For this instrument he used the measurements of an old Stradivarius that is worth thousands of dollars. These violins have been so carefully constructed that the tone is as mellow and even as though they had been in use a good many years. The maple back, sides and neck are of beautifully figured stock, which has been thoroughly seasoned. Well matched, even grained top made from old spruce. Needless to say, the fingerboard, tailpiece and pegs are of the finest ebony, beautifully finished. Shipping weight, 10 pounds.

12N166¼ $34.95

A Fine Violin With Hand Carved Trimmings.

12N170¼
$49.95

Made by a Famous Master.

12N172¼
$64.75

A Master's Best Effort.

Made by one of the foremost makers of Europe and is a perfect copy of a fine Stradivarius. Two-piece back, made of beautifully flamed maple. Top of the best spruce obtainable. Neck of fine curly maple and the scroll purely Stradivarius in style. Finish of rich golden amber, with edges brought to a natural color. The varnish used is of the finest quality, deep and transparent. It is fitted with an ebony tailpiece and chin rest, carved in beautiful and elaborate designs. The pegs are also of carved ebony and have solid gold tips. The fingerboard is of first quality ebony, dull in finish. Mellow tone of ampler volume and carrying power. Shipping weight, 10 pounds.

12N170¼ $49.95

A Violin for the Soloist.

A special contract forbids our using the maker's name in connection with the sale of this violin. This instrument, produced under his own name, is well known throughout the world as the best that money can buy, and sells for considerably more than what we ask. The very best of materials enter into its construction. Stradivarius model, two-piece back of beautifully flamed maple. Figured maple neck and scroll. Selected and matched spruce top. Finest ebony fingerboard, tailpiece and pegs. Medium red finish covered with a rich transparent varnish which brings out the beautiful high lights of the wood. Has a tone that will appeal to the most exacting soloist. Shpg. wt., 10 lbs.

12N172¼ $64.75

Violin Cases

All weights given on this page are approximate and may vary a trifle.

Rubberized Cloth Violin Bag.

12N1000—Violin shaped. Made of a lined rubberized cloth. Metal fasteners. Pocket for bow. Well sewed and snug fitting. For full size violin only. Shipping weight, 9 ounces..... **89c**

Canvas Violin Case.

12N1001—Strawboard, gray canvas covered. Opens at end. Bound edges, flannelette lined, leather handle. Shipping weight, 6 pounds..... **$1.45**

Keratol Covered Violin Case.

12N1010 Our Leader.

The bodies of our leather and keratol (artificial leather), covered cases are made of three-ply veneers, glued across the grain and firmly pressed into shape. We guarantee them not to split or warp. We do not handle the cheap covered cases which are made of one thickness of wood pressed into shape by steam and are easily affected by moisture or heat.

We cover our cases with KERATOL, which is a very durable artificial leather. There are many grades of artificial leather. We use an extra high grade which is almost as durable as leather.

LEATHER, which is a superior covering for violin cases. We use selected leather, handsome in appearance and of good weight, which will give years of service.

OUR "RESISTO" CASE.

Resists Weather and Wear.

12N1008—Made of a specially treated material which is unusually strong and which resists weather and hard usage. The case is made of two parts, top and bottom, each being molded from one piece of material, thus avoiding joints, seams, etc. It "can't crack," warp or get out of shape in any way. It is practically indestructible as far as ordinary use is concerned. It looks like a grained leather case. Flannelette lined. Has nickel plated trimmings. Pocket for strings, rosin, etc. Shipping weight, 8 pounds..... **$3.75**

Keratol Covered Violin Cases.

12N1010—Body covered with a good grade keratol (artificial leather) and lined with flannelette. Nickel plated lock, clasps and trimmings. Keratol covered steel valance. Two bow holders. Compartment for rosin, strings, etc. Keratol covered steel handle. Shipping weight, 8 pounds..... **$4.95**

12N1014—Same as 12N1010, but lined with velveteen..... **6.45**

12N1019—Same as 12N1010, but lined with silk plush. Has additional center compartment and silk bow ribbons..... **$9.45**

Leather Covered Violin Case.

12N1013—Body covered with seal grain leather and lined with fine velveteen. Brass nickel plated lock and clasps. Also brass nickel plated studs and end protector. Leather handle. End and center compartments for strings, rosin, etc. Black only. Shipping weight, 8 pounds.... **$11.25**

12N1015—Same as above, but lined with silk plush, and patent spring clasps..... **$13.45**

All weights given on this page are approximate and may vary a trifle.

Our Very Best Violin Case.

12N1017—Body covered with genuine cowhide, walrus grain, silk plush padded lining with removable bottom. Silk bow ribbons. Nickel plated brass lock and two spring opening clasps. Nickel plated brass studs and end protector. Hand sewed leather handle and valance. Compartments for strings, rosin, etc. Black only. A first class case. Shipping weight, 9 pounds..... **$18.**

VIOLIN BOWS

VIOLIN STRINGS

We have arranged with the manufacturers of our gut strings to make shipments periodically, and upon arrival at our plant the strings are stored in an ideally constructed humidor, which keeps them fresh and pliable. Every string is perfect from a musical standpoint and made of strictly high quality materials consistent with the price. All strings are carefully examined and packed in oiled paper envelopes, making them less susceptible to climatic influences. None are hard and brittle. We cannot guarantee strings against breaking, but they will last as long as can be expected of strings made from the finest materials. We ask you to buy these strings, and we know positively that we can save you money on every purchase. Our steel strings are nationally known and need no recommendation.

MEASUREMENTS OF VIOLIN GUT STRINGS.

The 4 -length strings are 66 to 68 inches long.
The 2½-length strings are 44 to 46 inches long.
Shipping weight, each, 1 ounce; per dozen, 4 ounces.

HAWAIIAN GUITARS

Steel bar, three picks, instruction book and fingerboard chart included.

The Hawaiian (sometimes called the steel) Guitar, with its beautiful quavering and sharp staccato tones, has done much to make the Hawaiian music so extremely popular. Owing to the fact that the strings when open or when barred form natural chords, it is comparatively easy to learn to play this instrument.

SUPERTONE MANDOLINS

TRADE MARK REG. U.S. PAT. OFF.

The mandolin is an easily learned instrument that is capable of producing very charming music. It is about the only instrument on which sustained full chords can be played. The mandolin, combined with the guitar, makes an ideal combination for dance, parlor and concert music. Also a splendid solo instrument.
Our mandolins are expertly made from selected well seasoned materials and are built to give satisfaction in tone, durability and playing qualities. Artistic and graceful in appearance. We include with each mandolin an instruction book, a pick and a fingerboard chart.

AMERICAN OR FLAT STYLE.

Tuned and Played Exactly Like the Regular Style.

The American or flat style of mandolin is preferred by many performers to the bowl or Neapolitan style. It is played in the same manner, but owing to the shape and method of construction there is more sweetness and power to the tone. Being flat it is very convenient to play and takes up very little space.

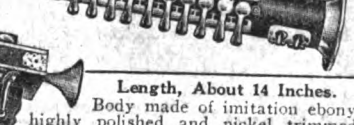
BLOW ACCORDIONS



Length, About 15 Inches.
neat little sical instru- Body cylin- haped, stained varnished. fancy metal ments. Ten keys, two s and twenty ent reeds. tuned. Ship- wt., 2 lbs.
2N6004
1.35

Length, About 14 Inches.
Ten keys, two basses and twenty reeds. Body of wood nicely painted. Has ornamental bell, turned mouthpiece and metal ornaments. An accurately tuned blow accordion. Shipping wt., 1⅝ lbs.
12N6000 ..... **98c**

The blow accordion is the "stepping stone" from the mouth organ to the accordion. If you learn to play this instrument you can easily play the accordion. These are good, reliable instruments, easy to learn, easy to play, beautiful in tone and well constructed.

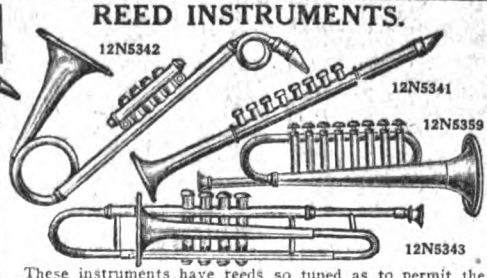
Note—As the tones pass through the holes in the body, the bells are merely for ornamental purposes.

Length, About 14 Inches.
Body made of imitation ebony, highly polished and nickel trimmed. Action is same as used on high grade accordions, each key being made in one piece. Twenty reeds controlled by ten nickel plated keys, two metal basses. Harmoniously tuned. Shpg. wt., 2 lbs. **$1.65**
12N6006

Hohner's Organette.

A blow accordion with a composition body cylindrical in shape. Body enameled black. Has nickel plated mouthpiece and bell. Has ten nickel plated keys and two basses. Also a nickel plated plate with numbers of keys stamped thereon. Length, 13 in. Shpg. wt., 1½ lbs.
12N6010
$1.98

HOHNER SAX.



$4.45

Very Easy to Learn and to Play.

A new Hohner creation which closely resembles the saxophone in shape. It is an instrument very easy to learn and to play, and both young and old folks will get much enjoyment from it. The body, bell and piece are highly polished solid brass. with ten keys which play twenty notes as two basses for the accompaniment. ets of treble reeds accurately tuned. The ver two octaves and many popular new and dies can be played on it. It measures 17 n length and the bell is 3⅞ inches in diam- The tone is very sweet and strong. Shipping 4½ pounds.
5013 ..... **$4.45**

REED INSTRUMENTS.

These instruments have reeds so tuned as to permit the playing of bugle calls, and on the larger with eight reeds, simple melodies. The valve effect makes the instrument look similar to a real horn. Made of a medium weight brass.

ACCORDIONS

Excepting the violin and piano, the accordion is probably the most popular of instruments. It is played the world over. It is generally played by ear and most people can learn to play a melody in half an hour or so. The accordion can also be played by note, which requires a little more time to learn. Instruction books included with all our accordions.

Milano Organetto—Italian Model.

The name Milano Organetto was given to these accordions because of their organlike tone. They are made for us by the manufacturers of our Beaver line and are correspondingly superior in construction and tone to most other accordions of similar style.

Beaver Brand—German Model.

Beaver Brand Accordions are made exclusively for us by one of the leading manufacturers of Germany. They are extra well made and finished, accurately tuned and have a strong and pleasing tone.

ITALIAN STYLE

Milano Organetto. 10 Keys, 4 Basses.

Body imitation rosewood, highly polished. Panels cut in fancy scrollwork, net lined. Cloth bound bellows of ten folds with metal corner protectors. Two sets of reeds. Ten keys, four basses, mother of pearl buttons. Fitted with new pattern lyre shape thumbscrew clasps, permitting the instant tightening of the frame to the bellows or removal for cleaning and repairs. Nickel plated trimmings. A very neat instrument with a strong tone. Size, 6x11 inches. Weight, boxed for shipment, 10 lbs. **$5.75**

12N631¼

Milano Organetto. 21 Keys, 8 Basses.

Same finish and construction as 12N631¼, but has 21 treble and 8 bass keys and four sets of reeds, mounted on removable reed blocks. Bellows of fourteen folds. The basses are arranged in both major and minor chords. A first class instrument in every respect and one of our most popular styles. Size, 6x11 inches. Shipping wt., 12 lbs. **$9.95**

12N633¼

Fancy Milano Organetto. 21 Keys, 12 Basses.

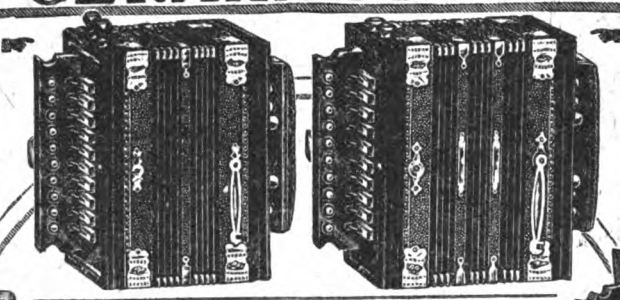
Frame, perfect imitation, of rosewood, inlaid on front and on keyboard with various colored woods. The eight corners of the frame are bound with nickel plated metal. Bellows of sixteen folds bound with imitation leather. Four sets of reeds, each two reeds mounted on a separate plate and the plates mounted on removable blocks. Twenty-one treble and twelve bass keys. Pearl buttons. Treble panel, imitation rosewood, cut in fancy scroll design. Nickel plated trimmings. Size, 6x11 in. Shipping weight, 14 pounds. **$14.95**

12N635¼

Milano Organetto. 31 Keys, 12 Basses.

This is our largest Milano Organetto and is exceptionally powerful in tone. Same construction and finish as 12N631¼, but is larger in size and has bellows with fourteen folds. Three rows of keys for the melody, thirty-one keys, twelve basses, six sets of reeds, mounted on removable reed blocks. Air valve almost the entire length of the panel. This accordion can be played in three different keys. Basses are tuned in both major and minor chords. Size, 6¾x11¾ inches. Shpg. wt., 16 lbs. **$19.95**

12N637¼



GERMAN STYLE

"Beaver Brand."

Two Stops, Two Basses.

Frame, ebony finish, with shaped moldings. Double bellows of eight folds with metal corner protectors. Two sets of reeds, ten keys with nickel plated buttons, two basses, nickel plated ornaments. Size, 5½x10¾ in. Shpg. wt., 7 lbs. **$3.45**

12N601¼

"Beaver Brand."

Two Stops, Triple Bellow

Frame, imitation ebony. Panels, colored. Bellows, triple pattern, folds with corner protectors. Tw of reeds, two stops, ten keys with buttons, two basses. Nickel plate ished trimmings. This instrum very durably made and reliable. 5½x10¾ inches. Shipping weig pounds. $

12N603¼

"Beaver Brand."

Three Stops—Large Size.

This is a large accordion and therefore powerful in tone. Frame, ebony finish, with shaped moldings. Panels, finished in very bright colors with embossed gilt ornaments. Bellows, triple style, with nine folds fully protected by metal corners. Three full sets of reeds. Three stops, ten nickel plated keys with metal buttons, nickel plated clasps and trimmings. Size, 6x12 inches. Shipping weight, 12 lbs. **$4.95**

12N606¼

CLARINETS, FLUTES, PICCOLOS, FIFES, ETC.

Our better grade of clarinets are carried in both wood and ebonite, as many professional players prefer ebonite (a composition made principally of hard rubber) because they do not check or split and trouble with keys sticking on account of expansion is minimized. The tone is mellow and sonorous and very responsive in blowing quality.

Our wood clarinets are made from thoroughly seasoned grenadilla wood and with proper care will not check or split.

As wood clarinets are susceptible to climatic conditions and sometimes require careful readjustment of the keys there may be a delay of two or three days in shipping.

Practically all organizations are now using low pitch, consequently we have discontinued handling high pitch clarinets.

Lafayette Clarinets.

Albert System. Grenadilla wood, dull finish. Bored and finished with care. Nickel silver keys, highly polished. These instruments are much better than our low price would indicate. They have always given satisfactory results. Mouthpiece cap and instruction book included. Shipping weight, 5 pounds.

12N800¼ — 13 keys, 2 rings, in the keys of A, B flat or C, low pitch. State pitch wanted..... **$14.95**

12N801¼ — 15 keys, 2 rings and 4 roller keys, in the keys of A, B flat or C, low pitch. State pitch wanted..... **$17.45**

12N802¼ — 15 keys, 4 rings and 4 roller keys, in the keys of A, B flat or C, low pitch. State pitch wanted..... **$19.95**

Supertone C Melody Clarinet.

With the C Melody Clarinet you can play all the popular songs written for the piano without transposing the music. Gives practically the same result as the C Melody Saxophone. It is essential for the modern syncopated or jazz music, and yet its tones are soft and mellow for ballads, love songs and music of similar nature.

12N806¼—Albert System. 15 keys, 4 rings, 4 rollers. Made of grenadilla wood in dull finish. Carefully adjusted. Polished nickel silver keys. Rich and powerful in tone. Mouthpiece cap and instruction book included. **Low pitch only.** Shipping weight, 5 pounds..... **$24.95**

12N814¼—Same as above, but made of ebonite..... **$24.95**

12N811¼—Same as 12N814¼, but Boehm System, 17 keys, 6 rings (like illustration below)..... **47.95**

Dupont Boehm System Clarinet.

It is the ambition of nearly all clarinet players to own a Boehm System clarinet, but a player of ordinary means is unwilling to pay $65.00 to $90.00, the price which a reliable instrument of this kind is usually sold for. Their desire can now be fulfilled because at our remarkably low price we offer an instrument that will meet all professional requirements. Fitted with nickel silver keys, ferrules and rings. Shipping weight, 5 pounds.

12N809¼—Grenadilla wood, dull finish. 17 keys, 6 rings, key of A or B flat, low pitch only. State key wanted. Mouthpiece cap and instruction book included..... **$47.95**

12N810¼—Same as above, but made of ebonite..... **$47.95**

Dupont Clarinets.

Albert System. Made of grenadilla wood, which has been oil treated. Dull finish. Keys and trimmings are of nickel silver, highly polished. The action of the keys is perfect, the intervals correct and the tone brilliantly rich. The keys are elegantly shaped and easy to manipulate. Mouthpiece cap and instruction book included. Shipping weight, 5 pounds. **State key wanted.**

Two Very Extraordinary Bargains
Compare Our Prices—Compare Our Quality

48 Pieces of Useful White Tableware

This Is a Most Unusual Bargain in First Quality Pure White, Embossed Edge, Semi-Porcelain Dinnerware. The Price Figures Only About 8½ Cents for Each Piece, Which Is Very Low.

This forty-eight piece assortment is just what every housewife needs. What are the pieces of china that are always breaking? What pieces of a dinner set do you use at every meal? What are the pieces of which you cannot have too many? **Why, dinner plates, cups and saucers and sauce dishes.** These are what we offer you here in this assortment. When you buy this **48-piece assortment** you get what you will use three times a day, namely:

12 Dinner Plates. | **12 Tea Cups.**
12 Sauce Dishes. | **12 Tea Saucers.**

These forty-eight pieces are made of first quality pure white semi-porcelain. They are prettily embossed around the edges as the illustration shows, and are full standard size. The price of this set—**$3.95**—is extremely low, and figures less than **8½ cents** for each piece.

35N9708—48-Piece Assortment of White, Semi-Porcelain Dinnerware. Weight packed for shipment, 35 pounds..... **$3.95**

48-Piece Blue Bird Dinner Set

Positively the Greatest Value Ever Offered in Decorated Dinnerware.

Think of it, forty-eight of the most useful dinnerware pieces richly decorated with flying bluebirds for only **$5.75**, or **12 cents** for each piece. Compare the price of this 48-piece set with the price asked for the same pieces by any other retail dealer and you will find that **you will save anywhere from $3.00 to $5.00,** which in these days is a lot of money.

12 Dinner Plates. | **12 Tea Cups.**
12 Sauce Dishes. | **12 Tea Saucers.**

This forty-eight piece set is made of first quality pure white semi-porcelain in a good looking plain edge shape. The decoration consists of flying bluebirds, "the emblem of peace and happiness," with pink apple blossoms and green foliage, all in colors that are soft and pleasing. Around the edge of each piece is a band of blue to match the coloring of the bluebirds. The handles are traced with blue. **The pieces are all standard,** being full size and well made, light in weight, strong and durable.

35N9722—48-Piece Bluebird Dinner Set. Weight, packed for shipment, 35 pounds..... **$5.75**

SNOWFLAKE WHITE DINNER SET

Made of fine quality of white semi-porcelain (semi-vitreous china). **The ware is pure white in color with a glossy glaze, and great care has been used in selection.** Every piece is carefully modeled with an attractive embossing around the edges. The ware is exceptionally light in weight for semi-porcelain, yet at the same time, on account of its quality it is strong and durable. Our Snowflake white dinnerware on account of its good quality and attractive shape with ornamental embossing is an especially desirable white semi-porcelain dinner set. Compare our prices for this fine white dinnerware and you will find they are below all others. At these low prices the Snowflake white dinnerware is very much cheaper in price than any other high grade white dinnerware.

decoration represents a new and popular style in dinnerware. Each piece is around the edge with a narrow band of bright blue which resembles enamel. of this narrow blue band are fancy blue medallions connected with a fine blue hair- The handles are decorated with blue tracings. The contrast between the dainty blue decoration and the pure white china is such that it sets it off in the most attractive m ner. While it is extensively used for cottage and bungalow, this dinner set makes very handsome and attractive dinner set for the home. It is neat, dainty and pleasi Made of pure white semi-porcelain in the plain edge Empress shape.

GOLD BAND DINNER SET

The decoration on this set consists of a wide band of bright gold around the edge of each piece with an additional gold band around the center of the covered dish, sugar bowl, cream pitcher, sauce boat and pitcher. The handles are also traced with bright gold. This set is made of pure white semi-porcelain, in a plain edge shape, which will appeal to people of refinement. The gold band is the full standard width, the same width and style as is used on the higher priced gold band sets. Compare our prices and you will find that they are very low. This is an unusual bargain in high grade gold band dinnerware, which continues its steadily growing popularity each year and remains a criterion of good taste. Our prices are below all competitors.

WHITE AND GOLD BRIGHT GOLD BAND AND GOLD LINE AND GOLD COVERED HANDLES DINNER SET

A most pleasing and dainty white and gold decoration consisting of a bright gold band and a bright gold hairline, with handles heavily covered with gold. The gold band and the gold hairline are separated, which gives a daintiness to the pattern. The gold band is put on the edge and the gold line on the shoulder of each piece. There is also a g line on the inside of each cup. It is unusual in sets of this price to have all th covered with gold. Made of pure white semi-porcelain in an attractive plain edg

FLYING BLUEBIRD DINNER SET

This Bluebird Decoration is greatly admired and is unusually chic and pretty. This decoration consists of Flying Bluebirds, "the emblem of peace and happiness," with a background of apple blossoms and green foliage in natural colors. The edge of each piece is trimmed with a blue band which harmonizes with the bluebirds in color. The handles are traced in blue to match. This attractive dinner set is made of pure white semi-porcelain in a popular plain edge shape. Please note carefully the bluebird decoration on this set. It is not the cheap, gaudily colored pattern often seen, but is a pattern of unusual daintiness and charm, with all its colors soft and pleasing. This rich and handsome bluebird decoration cannot fail to please you.

ROSE AND LATTICE BORDER DINNER SET

There is a great demand at present for dinner sets with rose borders in semi-conventional designs, a style of decoration made so popular by the Havilands. This very pretty pattern has a black and tan lattice border with panels of pink roses inserted here and there, which alternate with a large pink rose mounted in a medallion. Around the inside edge of the border is a narrow sepia colored band. On the outside of the border and around the edge of each piece there is a narrow bright gold band. The handles are also traced with gold. The set is made of pure white semi-porcelain in a good looking plain edge shape. This is our most popular high grade border pattern and the price is very low for so handsome a decoration.

Digitized by Google

An exceptionally dainty and pleasing high grade border pattern. The decoration consists of a border of small pink roses alternating with delicate yellow daisies which are connected together by green leaves and stems on a soft toned latticework background. Around the outside edge of this border is a bright gold band and on the inside edge of the border there is a bright gold hairline. This double gold treatment sets off the dainty most pleasingly. The handles are full gold traced. Made of fine quality pure white porcelain, in the plain edge Empress shape. For those who want a set that combines refinement and beauty in the decoration we recommend this pattern.

BLUE WILLOW DINNER SET

A splendid reproduction of the famous Blue Willow pattern by a high grade English pottery. The design on this set is supposed to tell the old, yet always popular, legend of the "Weeping Willow." It is executed in a rich blue color.

The Blue Willow pattern is probably the most famous design ever used on dinnerware, and there is something in the soft blue allover decoration which is most pleasing to the eye. The pattern is an ideal one for a breakfast, luncheon or dinner set. The decoration being put on under the glaze, it cannot wear off and this insures permanency of the attractive Willow design. The ware is made of high grade genuine English semi-vitreous porcelain in a fine old English shape.

35N304—Blue Willow Dinnerware.

YELLOW MATTE GOLD DINNER SET

Very elaborately gold decorated dinnerware. The decoration consists of yellow matte (warranted 18-karat) which is applied around the edge of each piece and over the ivy embossing in such a manner as to make it a most attractive gold decorated set. Handles are heavily covered with yellow matte gold. In addition to being covered with gold, the handles of the covered dishes, sugar bowl and butter dish with gold in ribbon bowknot design on the cover. The fancy shape is fast becoming one of the most popular shapes. It is a copy of one of the dinner sets. The set is made of fine quality pure white semi-porcelain.

ROSE GARLAND CLOVER MEDALLION BORDER DINNER SET

For those who want a border pattern dinner set a little out of the ordinary, we suggest this rose garland and clover design. The decoration consists of garlands of pink roses over the gold lines between green clover medallions in semi-conventionalized design. Around the inside of this decoration is a green band in leaf pattern and around the outside of the decoration on the edge of each piece is a band of bright gold. The handles are daintily traced with gold. The ware is made of pure white semi-porcelain, in a new plain edge shape.

YELLOW MATTE GOLD BAND DINNER SET

The decoration, which is very rich in appearance, consists of a band of yellow matte gold (guaranteed to be 18-karat) around the edge of each piece. In addition to this matte gold band on the edge, the covered dish, sugar bowl, creamer, pitcher and sauce boat have a gold band around the center. The handles of these pieces and of the cups are heavily covered with 18-karat yellow matte gold. Please bear in mind that the gold used on these sets is strictly first quality genuine gold, the same as is used on the fine French sets. Each piece is stamped "Warranted 18-karat gold." Made of fine quality semi-porcelain in a beautiful plain edge shape. A high grade dinner pattern. This good Gold Set is unusually dainty and attractive.

Cut Glass

The price of cut glass is determined by the amount of cutting. The quality and, therefore, the value of the glass itself in the low priced articles is the same as in similar articles of higher price, assuming, of course, that both are made out of lead glass. All articles on this page are made of lead glass, and the quality of the work (cutting) on all of the articles on this page is practically the same. This means that the difference in price in similar articles is accounted for by the quantity and elaborateness of the cutting and not by a difference in quality of material or workmanship.

11½-Inch Floral Celery Tray. Combination cutting in floral and miter design, in silver gray finish with bright polished centers. The bottom is cut with deep polished miters. Notched cut edge. Weight, 5 lbs.

Cut Glass

The cut glass illustrated on this page is made from thin blown and thin pressed crystal glass, which means a fine clear glass. The value of thin or light cut glassware therefore is determined both by quality of the glass used in the article or set and the amount of cutting placed upon it, although the cutting is by far the most important factor. The quality of the glass and the cutting are practically the same on all articles on this page. Unless otherwise stated, all articles shown on this page are full cut.

Thin Blown Crystal Glass Bell Shape Table Tumblers. Each tumbler is cut with three six-point polished stars with eighteen silver gray rays. Wt., packed, per ½ doz., 4 lbs.

35N164

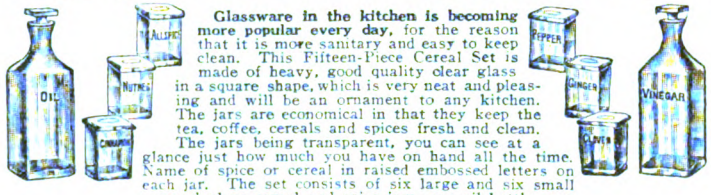
New Improved Butter Maker.

Simple, Easy Turning.
This Improved Butter Maker, which is the best Home style, is fitted with a **new perforated draining cap** which permits the buttermilk to be drained off and the butter thoroughly washed in the churn **without removing the top.** If you have ever churned butter you will appreciate the handy time saving feature of this new perforated cap.

The material and construction are the very best—extra heavy glass jar, the castings are substantial and accurately fitted, the dash rod is heavily tinned and fitted with a sturdy four-blade hardwood dasher. The cover is heavily nickel plated. **Full instructions accompany each churn.**



Sanitary, Quick Cleaning.
The Butter Maker is simple, economical, sanitary and very easy running. The handle is fitted with a wood grip, which makes churning very easy. The square glass jar, measuring 6x9 inches, is made of heavy clear crystal glass with rounded corners, making it easy to clean. There are no parts about the churn to make it insanitary or make the butter become rancid.

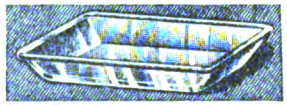
Even if you do not make your own butter, you should have one of these churns in your home, for it will combine 1 pound of common commercial butter with an equal weight of milk and make 2 pounds of fresh, healthful milk charged table butter. Weight, packed, 10 pounds.

35N530—New Improved Butter Maker **$1.98**

Fifteen-Piece Glass Cereal and Spice Set.

Glassware in the kitchen is becoming more popular every day, for the reason that it is more sanitary and easy to keep clean. This Fifteen-Piece Cereal Set is made of heavy, good quality clear glass in a square shape, which is very neat and pleasing and will be an ornament to any kitchen. The jars are economical in that they keep the tea, coffee, cereals and spices fresh and clean. The jars being transparent, you can see at a glance just how much you have on hand all the time. Name of spice or cereal in raised embossed letters on each jar. The set consists of six large and six small covered glass cereal and spice jars, one oil bottle, one vinegar bottle and one glass salt box with hinged wood top. Weight, packed, 40 pounds.

35N561—Fifteen-Piece Cereal or Spice Set. Per set **$4.25**



Cooking and Baking Glassware.

Clear glass dishes of high thermal endurance, comprising great strength with low expansion. Bake an even crust top and bottom. Clean and economical in service. In baking, oven heat is transmitted to the food uniformly on all sides, top and bottom.

This glass is clean and clear and most appropriate for serving on the dining table because of its neat appearance and transparency. It does not chip, as all edges are round. It has twice the strength and more than twice the thermal endurance (heat resistance) of common glass, and if handled with ordinary care it can be used continuously for years.

35N724 .....$1.75

NEW IMPROVED BURNER AND CHIMNEY

No Smoke. No Flicker. More Light.

The small feeble light from the old style burner and crimp top chimney.

The steady white light from the new burner and straight top chimney.

Exhaustive scientific experiments by the Standard Oil Company demonstrated the fact that the users of oil lamps fitted with the ordinary No. 2 Brass Burner and Crimp Top Chimney are not getting the maximum amount of light from this combination.

The Standard Oil Company working with the manufacturers of burners and chimneys have developed an all brass No. 2 burner and a lead glass chimney with straight top which increases the efficiency of the oil and produces a far greater volume of light than has ever been obtained before from a No. 2 brass burner; and this without increasing the consumption of the oil.

You cannot use satisfactorily the new Burner and the old Crimp Top Chimney, neither can you use an old Burner with a new approved Chimney. These combinations will not give the desired result. To obtain this bigger and better light, **it is necessary to use both the new improved No. 2 Brass Burner and the new approved Straight Top Chimney.**

OUR IMPROVED "EVER-BRITE" GASOLINE TABLE LAMP

LIGHTS WITH A MATCH.

Economical.
Convenient.
Simple.
Clean.
Safe.

High Candle Powe
No Flickerin
Smokeles
Odorles
Wickles

The "Ever-Brite" Lamp is all that the name implies. It produces a light of unusually high candle power. Its consumption of fuel is very small, being only 3 pints of gasoline in twenty-four hours' continuous burning. In other words, you can burn this lamp three hours a night for a month on about 1½ gallons of gasoline. It is fitted with two mantles, and for this reason it casts no shadows, which is a very great advantage, as users of ordinary kerosene lamps will quickly realize.

It lights almost instantly with an ordinary parlor match. Anyone can operate it. There are no complicated parts to get out of order.

The quality of light approaches sunlight, which makes it easy on the eyes. It is absolutely steady—no flicker or smoke—which makes reading under it a pleasure.

This lamp is fitted with a ribbed glass shade and is the ideal lamp for library, living room, dining room, bedroom and for general all around purposes.

There are no complicated parts get out of order. It requires filli only once a week, and a few strok with a small hand pump every t or three days to keep up the pressure.

Absolutely safe. The fuel has or one outlet—a tiny hole in the ge erator—**so there is absolutely danger. If filled by daylight, tha is no chance of accident.** It has wick to trim, no chimney to cle or break. It cannot leak or beco oily.

"Ever - Brite" Lamp, base a burner are made of heavy bra nickel plated. The standard is ma of brass covered with heavy bla wood. Height, 22 inches, and t diameter of the base, which contai the fount, is 8 inches. Capaci of fount, 3 pints.

This is an ide lamp, as it conce trates the light. is furnished co plete with two ext mantles, air pum wrench, cleanin pick, extra generat and extra tip.

Standard "Rochester" Parlor or Reading Lamp

Simple **Economical**

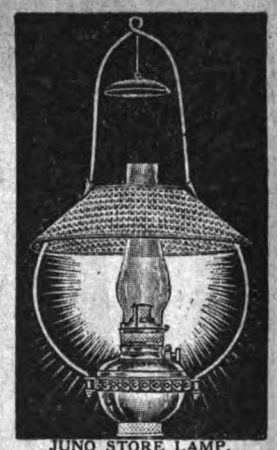
Odorless **Smokeless**

Perfect Combustion **High Candle Power**

The Old Reliable "Rochester" Lamp at an Exceptionally Low Price.

This lamp has been the standard reading and sewing lamp for forty years or more and is probably the best known lamp ever produced. Its main features are **simplicity, durability and fine strong light.**

Simplicity. The lamp is so constructed that there are no complicated parts to get out of order. To operate it after it is lit, all the user has to do is to turn the wick.



Durability. It is scientifically made of heavy gauge brass, nickel plated, and with proper care will last a lifetime.

Light. The lamp is fitted with a No. 2 center draft burner, No. 2 Rochester chimney and wick, which produces a clear, strong and steady tulip shape white flame, equal in brilliancy to more than forty candle power.

The lamp is an ideal one for reading or sewing; it is efficient and economical to maintain. The oil capacity is 1 quart. Height, 21 inches.

The price we ask—$3.75—for the lamp complete including chimney, wick, 10-inch tripod and 10-inch opal glass dome shade, is lower than any price we have heard of for years. It is probably about one-half the present retail price. Weight, packed, 10 lbs.

Each **$1.98**
Wt., packed, 5 lbs.

Angle Lamps

These lamps differ in construction from the ordinary lamp in which the burner is above the oil tank. The burner being on the side all the light comes directly down when it is wanted and there are no shadows. The flame of the lamp being in the bowl instead of a narrow chimney burns less oil and more oxygen. The bowl being below, the flame cannot smoke the chimney and cut off the light. The lamp is easy to fill, light and keep clean.

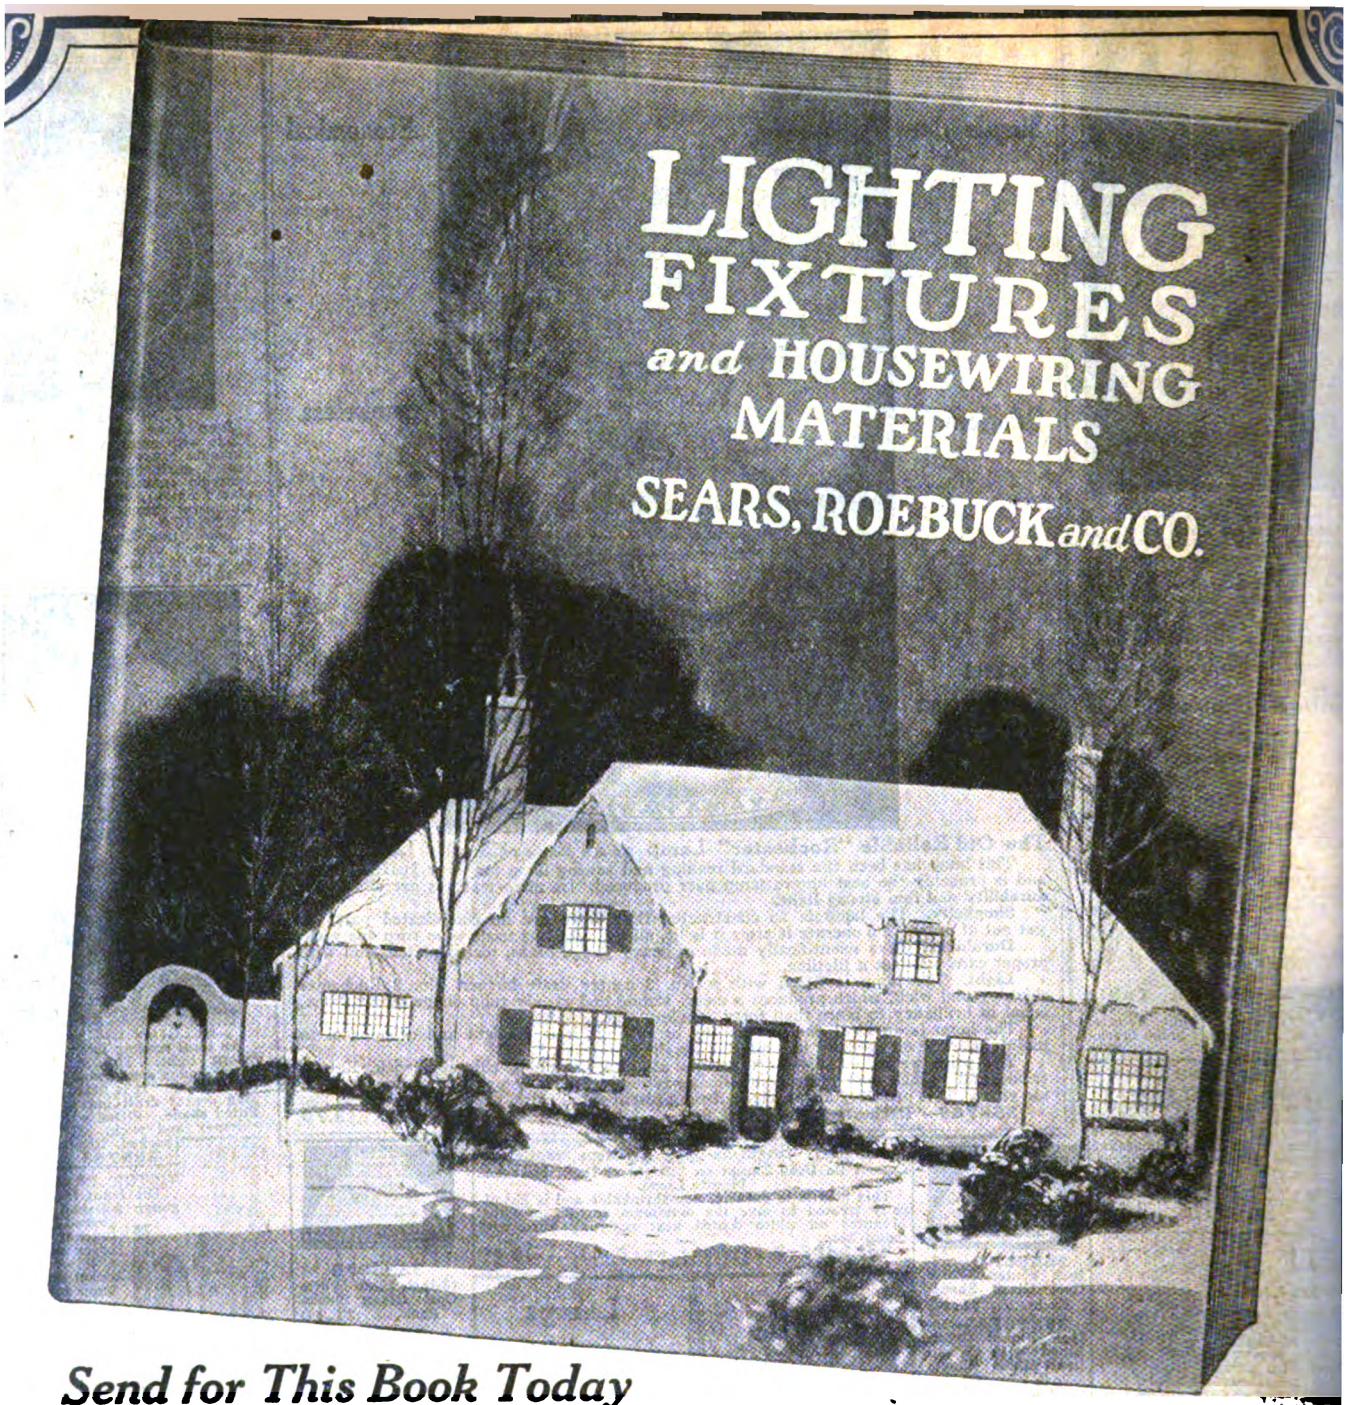
The soft yellow radiance cast by the Angle Lamp is fine for reading, working or sewing. No strain from brilliant white glare. No glare in the eyes. No shadows.

Single Burner Wall Lamp.

Holds 1 quart of oil. Embossed steel fount, richly nickel plated. Shipping weight, 11 pounds.
35N871 ..... **$5.65**

Double Burner Lamp.

Holds 3 quarts of oil. Embossed steel fount, richly nickel plated. Shipping weight, 18 pounds.
35N874 ..... **$8.95**



TOP AND BOTTOM GLOBES.

35N890—Plain White Opal Glass Top (chimney). Shipping weight, 5 pounds. Each **95c**
35N891—Clear Crystal Glass Bottom Globe. Shipping weight, 3½ pounds. Each **75c**

PANELED ART GLASS DOME HANGING LAMP

Large 22-Inch Eight-Panel Electric Style Crown Dome Shade. Made of curved, mottled green cathedral art glass mounted in a brass plated metal frame with 3-inch gold colored chenille fringe. Framework, ceiling canopy, chain, smoke bell, etc., all in brush (satin) brass finish. Removable brass oil fount fitted with No. 2 Royal center draft burner, No. 2 Rochester chimney and wick. Length to bottom of frame, 72 inches. A large, showy and very popular library or dining room lamp. Wt., packed, 65 lbs.
35N786 $19.75

Send for This Book Today

THE lighting is a most important feature of a well appointed home. Our new Lighting Fixture Catalog illustrates a comprehensive line of Lighting Fixtures, embodying the latest ideas in modern illumination. It also contains a complete selection of standard electrical house wiring materials, lighting glassware and portable lamps. It will pay you to send for this catalog. Quality should be considered when buying lighting fixtures. Quality is the foundation of our line, and our liberal guarantee protects you.

Our Lighting Fixture Catalog also lists:
Art Domes
Brackets
Chandeliers
Cleats
Clusters
Conduits
Desk Lamps
Domes
Drop Cords
Floor Lamps
Glassware

Have you been thinking of putting a new lighting fixture in your living room or dining room, something to replace the old one that's an eyesore to you? Or is the lighting of the bedroom bad, making it hard to see how to dress? Why not put that new fixture in right away?

Perhaps you have a house or an apartment to rent or sell. Why not make it more beautiful and valuable by installing attractive Lighting Fixtures? The increase in the rent or sale price will pay for the fixtures many times over.

Our electric fixtures are properly constructed and wired for use with either city current or any home lighting plant.

Our fixtures are shipped to you completely assembled, wired ready to hang, fitted with "NOTORCH" attachments, which enables you to install them without the use of a soldering torch or any tools other than a screwdriver.

Don't delay—write today for your copy of our new Lighting Fixture Catalog 416GCN. We will send it to you postpaid. Take advantage of our low prices and order your lighting fixtures at your earliest opportunity.

Our Lighting Fixture Catalog also lists:
Insulating Joints
Outlet Boxes
Plugs
Receptacles
Rubber Covered Wire
Shades
Sockets
Switches
Table Lamps
Tungsten Lamps

Our fixtures are approved by the Underwriters' Laboratories, Inc., under the direction of the National Board of Fire Underwriters, and each and every fixture bears their stamp of approval in the form of a serial numbered label.

School Furniture

THE MAJESTIC is our highest grade school desk. It embodies everything required in a desk of this type. It is properly designed, well constructed, and will give a lifetime of satisfactory service. Neither comfort nor beauty has been sacrificed to gain additional strength found in the Majestic. The correct shape of the back seat prompts the pupil to assume an erect, proper, yet comfortable position.

The Majestic Has Many Special Features

Wood Parts—Michigan hard maple. Back and seat curved as in illustration; top slightly sloped.

Castings—Semi-steel, finished in black enamel, baked on.

Finish—A durable varnish finish. Walnut brown color.

Seat Hinge—Simple in construction, noiseless in operation and designed to last as long as the desk.

End Panel—The beautiful pillar effect adds to the appearance and at the same time admits light and air into the book box.

Inkwells—Majestic Desks are equipped with inkwells of the latest, most approved type, with the exception of sizes 5 and 6, with which inkwells are not furnished. These two sizes are for the little tots in first, second and third grades, where no pen writing is done.

Sanitary Features—All corners rounded to eliminate dust pockets. Feet filled in to facilitate sweeping and prevent accumulation of dirt.

Shipped from factory in SOUTHERN MICHIGAN.

Our Guarantee

We guarantee Majestic Desks for a lifetime. We will replace free of charge and will pay all transportation charges on any parts which break in transit, or any parts which, through defect in material or construction, break after the desks have been installed in the schoolroom.

Every school official should have a copy of our School Furniture and Supplies Catalog 550GCN. It contains our complete line of school desks, including non-adjustable and adjustable. In addition, we quote maps, globes, blackboards, etc. School officials in every part of the country have found it to their advantage to purchase equipment from us because our quality standards are high and our prices are such that they can save considerable money on their yearly requirements.

These Fireproof Safes Will Protect Your Valuables

We put your name on safe without extra charge when so ordered. All lettering in addition to name will be charged for at 7½ cents per letter, extra.

A fireproof safe is a business necessity. You cannot afford to be without a safe and run the risk of losing papers and other valuables by fire or theft, when you can buy one of these fireproof safes at such a low price. These safes give you full protection at lower prices than you would have to pay elsewhere for standard safes of this size. Be sure to buy a safe large enough to hold all your valuables and allow for growing business.

Made of tough steel with double bottom for great strength. Walls are filled with fireproof filling that has stood many fire tests. Doors are made with interlocking groove construction that absolutely excludes heat, smoke and flames from all parts of safe in case of fire. Interlocking flange prevents door from being forced open, even if hinges are knocked off. Three-tumbler combination lock furnished on all sizes. Our best safes, 22N1881 and 22N1882 have Yale time combination lock. All other sizes have our own special combination lock. We recommend ordering safe with inner door, as it gives more privacy and greater security. Cabinet work is finished in imitation cherry with oak trimmings. Cash boxes and lock drawers have good quality locks with two keys.

Specially arranged cabinets can be made to your order. We cannot make any changes in measurements of safe bodies, but we can change cabinets to any arrangement you want, adding or leaving out drawers and pigeonholes. If a specially arranged cabinet is wanted, send a diagram with measurements and we will tell you the additional cost, if any.

Time required to make shipment from our factory in Newark, Ohio. We put on three coats of varnish, decorating and lettering after your order is received. This gives a high class fresh finish. Carefully wrapped and padded and packed in burlap for delivery in first class condition.

Measurements and Prices. **Arrangement of Cabinets**

Our best safe. Fireproof walls, 5½ inches thick. The 5½-inch wall will naturally withstand a fiercer prolonged fire than the lighter 4-inch walls of our other safes. Yale O. B. B. combination lock. Honor Bilt Furniture

Our Own Trade Name, Registered in the U. S. Patent Office.

THE NAME "Honor Bilt" is applied by us to articles of furniture of extraordinary value. Wherever the name is used it represents the recognized standard of quality for that particular grade of furniture. It is a guarantee that there is no better furniture of that grade made. The "Honor Bilt" brand of quality combined with our unequaled low prices give you the assurance of the biggest furniture values in the world. All of the articles illustrated on the opposite page and described on this page are "Honor Bilt."

TWO-TONE BROWN MAHOGANY DAVENPORT TABLE.

Superior in quality, exquisite in design, handsomely finished, this Davenport Table would be an appreciated addition to the furnishings of even the richest homes. Ordinarily sold in exclusive retail stores for at least $12.00 more than we ask. The table top is finished in a two-tone effect and has a decorative indented center design. The carving around the table edge and the massive yet graceful base are features of distinction. The top measures 20x54 inches. Made of hardwood, brown mahogany finish. Shipping weight, 90 pounds.

IN3499 ..... $29.85

Two-Tone Brown Mahogany Parlor Table. "Honor Bilt" and Priced Within Your Reach.

This handsomely carved octagon shape table, with 22-inch top and gracefully ornamented base and standard, will harmonize with the richest home furnishings. Made of select hardwood, two-tone brown mahogany finish. You would expect to pay at least $25.00 to $30.00 for this splendid table. Height, 29 inches. Shipping weight, 45 pounds.

IN3641 ..... $16.95

Davenport End Table—Genuine Mahogany or Genuine Walnut Veneered Top.

Style—two tone finish in either brown mahogany or American walnut. This beautifully finished end table in an adaptation of the Italian Renaissance design is one of the greatest furniture values ever offered. Quality and workmanship are fully in accord with our "Honor Bilt" standard. Top, 14x28 inches. Height, 24 inches. Shipping weight, 40 pounds.

IN3631

Mahogany $11.85
Walnut 11.95

Stylish Cane Back Bed Davenport Set

(With Extra Stationary Davenport.)

"Honor Bilt" Quality—Handsomely Upholstered and Finished—All the Convenience of an Additional Bedroom Without the Expense of Rent.

This beautiful Parlor Set has a big bed davenport as well as a handsome stationary davenport. The bed davenport makes an attractive davenport or a comfortable full size bed, as required. Besides the ordinary chair and rocker, there is also a very popular wing back chair. The upholstering is mulberry velour as illustrated, or blue velour or mohair in either blue or taupe colors. Be sure to state color. The select hardwood frames are finished in brown mahogany. The pillows, as illustrated, are furnished with the davenport.

All pieces, including the Easifold and Stationary Davenports, are made with spring edge seats and have full steel coil spring seat construction. The springs are covered with a good grade of filling, and the loose seat cushions contain small coil springs.

Shipping weights: Bed davenport, 255 pounds; stationary davenport, 180 pounds; chair, rocker, each, 70 pounds; wing back chair, 70 pounds. Shipped from factory near CHICAGO or factory in CENTRAL NEW YORK.

Bed Davenport Set.

All the convenience and comfort of extra beds without the expense of extra bedrooms. Choice of De Luxe (or short) Bed Davenport or Easifold (or long) Davenport. All pieces are full size, made of selected materials by a manufacturer whose product is recognized as "standard" for quality, design, finish and construction.

FULL STEEL COIL SPRING SEAT CONSTRUCTION. Spring edge seats. The upholstering is in artificial or genuine leather, brown Spanish grained, or genuine black leather, as noted in price list. Oak frame, veneered with quarter sawed oak, plain oak panels. Fumed or golden rubbed finish, or birch, mahogany finish. The bed davenports, opening easily, make wonderfully comfortable full size beds, being equipped with very high quality wire fabric springs. The interiors of the davenports allow ample space to conceal the bedding in the daytime. **Be sure to order a pad mattress for davenport.** **See page 805.**

De Luxe or Short Bed Davenport. Has **twenty-four** springs. Length over all, **80** inches. Length between arms, **52** inches. Height of back from seat, **13** inches. Height over all, **31** inches. Depth of seat, **28½** inches. Shipped knocked down. Shipping weight, 225 pounds.

ook at These Extraordinary Values

onor Bilt Furniture

Our Own Trade Name, Registered in U. S. Patent Office.

The name "Honor Bilt" is applied by us to those articles of furniture which represent extraordinary value. Wherever the name is used it signifies the recognized standard of quality for that particular grade of furniture. The Parlor Sets shown on this page and the opposite page are "Honor Bilt" in name and fact.

This Set Is Equipped With Removable Seat Cushions.

This latest style massive overstuffed Parlor Set, upholstered in velour or tapestry, is one of the most popular we have ever offered our customers. Sets of this design are found in the homes of the wealthy in our large cities. Furniture of this luxurious style makes a distinctive addition to the furnishings of the home. It is a mark of culture and refinement. You will find by comparison that our prices are so far below those of the average retail dealer that our quotations represent substantial money savings.

Seats and backs have full steel coil spring construction, thoroughly well padded. All pieces have removable seat cushions containing numerous small springs and spring edge seats. Upholstery is velour in Holland blue or mulberry, or tapestry in a floral design in harmonizing colors. **When ordering velour, state color wanted.**

DAVENPORT.

Special Features

Porcelain enameled sliding table top is reinforced with wood, proof against warping or bulging. Slides from under top section for larger working space.

Bread board slides into receptacle under shelf in the dustproof cupboard, easily removed without disturbing other contents.

Easily filled vermin proof 50-pound flour bin with leak proof patent sifter. Glass window shows level of flour.

Sanitary and moisture proof crystal glass containers for coffee, tea and spices.

Disappearing wood curtain door. Opens without disturbing contents of cupboard or removal of things from work table.

Crystal glass sugar jar with patent sifter dispenser swings conveniently in and out of cabinet, always at hand, never in the way.

Permanently attached rigid bracket for food chopper. No interference with sliding top or doors.

Removable metal trays for pots and pans, trays slide out for easy access and easy cleaning.

Scientifically aerated vermin proof metal bread and cake box, which effectively prevents mold. Easily cleaned.

Open sanitary base, high enough for easy cleaning and free circulation of air.

White Porcelain Enameled T

The special features of this cabinet will eliminate a great many of the unpleasant kitchen duties. It places everything necessary to prepare a meal within easy reach. It saves many steps.

Here is another striking example of our ability to offer our customers values. The genuine white porcelain enameled table top alone—in a this low price—makes this an outstanding bargain.

Material, Construction and Finish.

Made of oak, in light natural oak color, dull satin finish.
Made of oak, finished all over in white enamel.
Strong lock joint frame in type construction which resists the kitchen steam and heat.
Interior is white enameled, sanitary and easily cleaned.
The legs allow sufficient room for sweeping beneath.

Measurements.

Height over all, 72 inches. Height of table top, 33½ inches. Work base, closed, 25x42 inches; with extension pulled forward, 34x42 inches. Pan compartment in base, 22x22x16½ inches. Metal bread drawer, 13½x9x18½ inches. Capacity of flour bin, 50 pounds. Shipped from factory in INDIANA. Shipping weight, 250 pounds.

For Kitchen Cabinet Stool See Below.

These Cabinets Are Equipped With White Porcelain Enameled Table Tops.

Only those articles mentioned in description are included with Cabinet.

A Special Value—Practical and Economical.

This is easily a leading Kitchen Cabinet value. It has all the practical conveniences of the latest design cabinet, is thoroughly well built with the famous patent angle brace construction and presents a handsome appearance.

Furnished in oak, light natural oak color finish, or in white enamel finish over hardwood. The table top is either metal or white porcelain enamel, measuring **25x42** inches when closed and extends to **34x42** inches. Note particularly the full size of this Cabinet, **42** inches wide by **70** inches high.

The china cupboard and section below it are white enamel. The flour bin, of large capacity tilts forward for filling. Sanitary steel wire racks and shelves. Five-piece Colonial glassware set and suspended sugar bowl. Other features are the work board suspended beneath the wire shelf in the base compartment, moisture-proof cake and bread drawer with sliding perforated lid, refrigerator type catches on doors and sliding pan tray in base compartment section. We recommend the purchase of the porcelain enameled top cabinet, feeling sure that you will be better pleased with it for the small additional price. Shipped from factory in INDIANA. Shipping weight, 260 pounds.

Popular, Medium Priced Kitchen Cabinet.

This cabinet typifies to an unusual degree the excellent values we are able to give to our customers. Quality considered, our price on this kitchen cabinet is so low that it represents a saving to you of many dollars. It is solidly constructed of select oak, dull golden finish. The hard, durable and washable white enamel finish on the inside of the cupboard and space below it is an attractive, sanitary feature. Has a sliding curtain front. This attractive feature, the sliding front, enables you to "get at" things handily without moving articles which may be on the table top. It also adds to the appearance of the cabinet when closed. Equipment includes forward tilting flour bin with flour sifter attachment; crystal tea, coffee and spice jars; ample capacity crystal glass sugar container, with scoop, and mouse proof cake and bread drawer with sliding perforated cover. **Measurements—70** inches high, **42** inches wide and **25** inches deep with sliding top closed; the sliding extension table top increases the table surface to **38x42** inches. Furnished with either metal covered top or top of durable white porcelain enamel, highly polished and sanitary. We recommend the purchase of the porcelain enameled top as well worth the slight additional expense. Shipped from factory in INDIANA. Shipping weight, 250 pounds.

Adam Period Style Dining Room Set

GENUINE QUARTER SAWED OAK VENEER IN GOLDEN OR FUMED FINISH.

The dominant note of the Adam Period design is a combination of charm and dignity. This is particularly well carried out in this set. Added to this is a very substantial construction. Further noteworthy features are the artistic decorations, roomy drawer and cupboard space in the buffet, large dimensions of all pieces. A comparison of prices will quickly convince you that we are offering in this set one of the best furniture values of the year.

Made of oak in dull golden or brown fumed finish with base top and table top veneered with quarter sawed oak. **Be sure to specify finish desired.** Drawers and doors fitted with period style antique brass finish pulls and knobs. Chairs shipped from our store; all other pieces from factory in ROCKFORD, ILL.

A Very High Grade Steel Coil Spring

A bed is no more comfortable than its spring. The comfort giving qualities of this spring are so exceptional that you are assured of a perfect night's rest. Ordinarily sold for $15.00 or more at retail, our price makes this spring a bargain you cannot afford to miss. So flexible that it instantly adjusts itself to the curves of your figure. Supports buoyantly your entire body and quickly brings to you rest in a natural, healthy position. The small helical springs connecting the tops of the coils permit freedom of action to the long, resilient coils to which they are attached. That is why the unoccupied surface of the spring remains high and level, whether one or two persons occupy the bed. This spring is made up of 99 steel coil springs. They are fastened together at the top with 160 interlocking helical springs. A heavy steel brace running the entire width of the spring and securely fastened to the angle steel side rails supports each row of the steel coil springs. Finished in gray enamel. **State kind and size of bed for which spring is wanted.** Shipping weight, 85 pounds.

Furniture You Want—Priced Within Your Reac

Honor Bilt
FURNITURE

Trade Mark, Registered in the U. S. Patent Office.

"HONOR BILT" is applied by us to furniture of superior merit. It represents the recognized standard of quality for that particular grade of furniture and is a guarantee that there is no better furniture of that grade made. The "Honor Bilt" brand, combined with our unequaled low prices, give you the assurance of the biggest furniture values in the world. The Kitchen Cabinet and Dining Room Set illustrated on the opposite page and described below are truly "Honor Bilt" in every particular.

Genuine Walnut Veneer

Queen Anne Period Style Dining Room Set

HERE is a splendid reproduction of the Queen Anne Period design, faithfully carried out in every detail and at a price that positively cannot be duplicated. Period furniture is in great demand in the best homes of the big cities. We are able in this set to reproduce the expensive Period design at a price within the reach of all. Note some of the specially attractive features: The decorative ornamentation on buffet, china cabinet and serving table; the roomy drawer and cupboard space in the buffet; the shellacked finish interior of china cabinet and the silver finish drawer pulls. And remember—this set is in genuine walnut veneer, which insures durability and a finish that brings out all the beauty of the American walnut grain.

Made of selected hardwood with tops, fronts and ends genuine walnut veneer, dull satin American walnut finish. Inside of all drawers and china cabinet smoothly finished. Chairs shipped from our CHICAGO or PHILADELPHIA store; all other pieces from factory near CHICAGO.

BUFFET. Choice of two sizes noted in price list. Six compartments in top drawer, five for silverware. The top drawer has lock and key.

CHINA CABINET. Entire height, 65½ inches. Width, 40 inches. Depth, 15½ inches. Adjustable shelves. Nickel plated glass. Inside nicely finished in shellac.

SERVING TABLE—Entire height, 39½ inches. Base, 38x17¼ inches.

CHAIRS. Entire height, 41 inches. Height of back from seat, 24 inches. Seat, 15x17 inches. Removable slip seats, upholstered in genuine leather, brown Spanish grained. Attractive panel back.

TABLE. Your choice of two styles in sizes as listed. Legs are securely anchored to top. Two center legs support table when extended to any length.

The Greatest Kitchen Cabinet Value

White Porcelain Enameled Top—Very Latest Design With Top Drawers Extending Forward With Extension of Top.

WE ARE particularly proud of our ability to offer our customers this really remarkable Kitchen Cabinet value. No better cabinet is made in America at the price. Cabinets of similar size, style, equipment, construction and quality are generally sold for at least $15.00 to $20.00 more than we ask.

Note the full size, the white porcelain enameled table top, the large roomy shelves, all white enameled, in the upper section. All of the best labor saving devices and conveniences are included in this cabinet. The construction known as the improved angle brace lock joint, framed-in type, is the best known to the cabinet trade, as it is a positive insurance against warping or shrinkage from kitchen heat or moisture. The light natural oak color finish harmonizes nicely with other kitchen furnishings, or if you prefer the white enamel finish, you are assured of one of the handsomest cabinets ever made. We invite a most rigid comparison of this cabinet with any other cabinet on the market, as we are sure such a comparison will quickly convince you that in buying this cabinet you will effect a saving of many dollars.

Material, Construction and Finish.

Made of { Oak, light natural oak, dull rubbed satin finish. / Oak, finished all over in white enamel.

Strong lock joint framed-in type construction which resists the kitchen steam and heat.

Interior is all white enameled, sanitary and easily cleaned.

Porcelain enameled top is of especially high quality, smooth, clean and highly polished.

Some of the Special Features Are:

Easy filling flour bin, window front and patent sifter. Capacity, about 50 pounds.
Swinging glass sugar container.
Cutlery drawer.
Meal bin. Capacity, 20 pounds.
Sliding pan tray in bottom of cupboard in base section.
Bracket support for food chopper.

Louis XVI Period Design Genuine Walnut Veneer

THIS is a splendid offering of the most popular French Period style bedroom furniture, featuring bow end bed. Here is a combination of appealing attractiveness, excellent material and workmanship at a price that is within easy reach of the majority. The same exquisite beauty of design that gave Louis XVI furniture such distinctiveness among works of the master craftsmen of the old period is found in each piece of this set.

MATERIAL AND FINISH — The frames are of gumwood on all pieces. The fronts, ends and tops have five-ply genuine walnut veneer except the dressing table, which has solid gumwood ends and five-ply gumwood front. Handsomely finished in American walnut. Drawers of each piece are nicely finished inside with shellac. The antique brass finish drawer pulls contribute to the harmony that dominates this set. The mirrors are genuine plain plate. All cases are fitted with dustproof bottoms. Chifforette has three enclosed sliding trays and one drawer. The Vanity Dresser swinging mirrors are easily adjusted to many positions.

DRESSER—Base, 23x48 inches. Plain plate mirror, 28x34 inches. Shipping weight, 200 pounds.

CHIFFORETTE—Base, 21x36 inches. Shipping weight, 175 pounds.

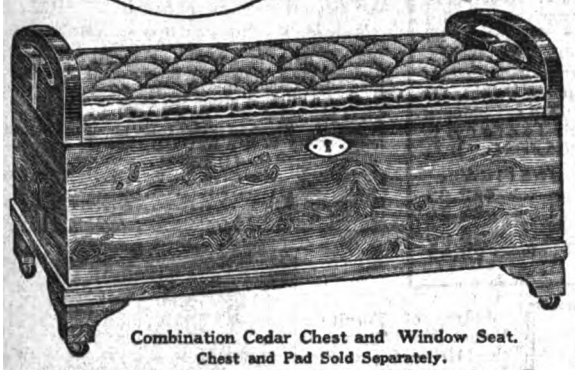
Genuine Red Cedar Chests

The United States Government says:



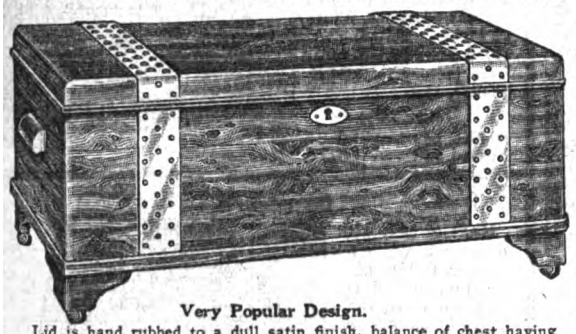
"Cedar Chests kill young larvae." The moth larvae which later become clothes devouring moths are actually killed by genuine red cedar. You surely cannot afford not to own one of these Genuine Red Cedar Chests. One of them will pay for itself many times over in the protection it will afford your clothes, linens, etc.

A Cedar Chest Pays for Itself

Unequaled Cedar Chest Values.

In quality, construction, design, finish and trimming we know that these values cannot be duplicated. Compare these chests and prices quoted with prices asked by others and convince yourself now, as others have done, that our Genuine Red Cedar Chests are conspicuously supreme bargains.

Combination Cedar Chest and Window Seat.
Chest and Pad Sold Separately.



An attractive combination Cedar Chest and Window Seat. Top, dull satin rubbed finish; sides and ends gloss finish. Plain design without copper trimming and preferred by many for that reason. One of our leading cedar chest values. Shipping weight, 100 pounds.

IN3766

Feathers and Pillows

GUARANTEED ALL NEW FEATHERS

INVEST IN RESTFUL SLEEP, which is essential to good health, by purchasing our Hygienically Treated Feathers and Feather Pillows. We unqualifiedly guarantee that all feathers used in the manufacture of our pillows or bulk grades of feathers are absolutely new, never used before. The original stock is carefully selected. Our modern machinery and exclusive processes treat these feathers in a thoroughly scientific manner, eliminating all dust, odor, quills and animal matter (which sticks to the stems of the feathers, if not properly treated), leaving the feathers fluffy and scrupulously clean. Every pillow and every sack of feathers bears our guarantee that the feathers are all new feathers, thoroughly sterilized, deodorized, and that they fully comply with the legislative and board of health requirements of states with sanitary bedding laws.

Our descriptions make it easy for you to select the grade you want.

We are the largest retailers of feathers and pillows in the world and are therefore able to give you the finest qualities at prices which, by careful comparison, cannot be duplicated elsewhere.

Our prices for feathers in muslin sacks are for net weight of feathers, put up in 1, 2, 3, 5 and 10-pound neatly stenciled muslin sacks. Each sack contains the exact weight of feathers purchased. You readily see what a big saving this means in purchasing feathers.

We unreservedly guarantee "Purity Brand" Feathers and Pillows to be unusual in their resiliency and buoyancy, extra fine quality and hygienically clean. Look for the "Purity Brand" silk label on every pillow; it stands for the best you can get and is the undisputed standard for pillows and feathers. "Purity Brand" means permanent pillow satisfaction.

BUY THE PURITY BRAND — PURITY BRAND PILLOWS EXTRA QUALITY — **FEATHERS AND PILLOWS**

Why Do We Sell More Mattresses than

We sell more mattresses than any other store in America. Of course, there's a reason. Simply and briefly it is this: We give our customers the biggest mattress values in the world. That is the secret—VALUE—the best mattress quality obtainable for the price asked, and the American housewives have been quick to see these values are unequaled and unbeatable. On this and the opposite page we show our famous Whitmore Mattresses, and at the top of opposite page we tell you what the Whitmore label means.

Roll Edges, Round Corners, Reinfo Side Stitching. All New Felted Co Stock. Complies With Bedding L

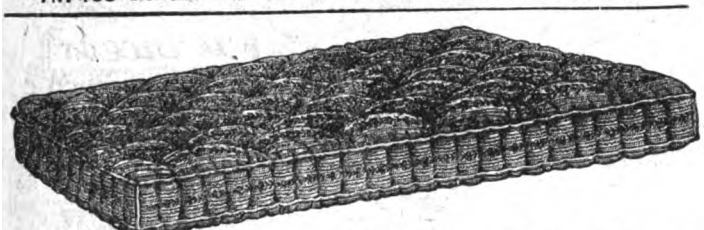
Combination MATTRESSES

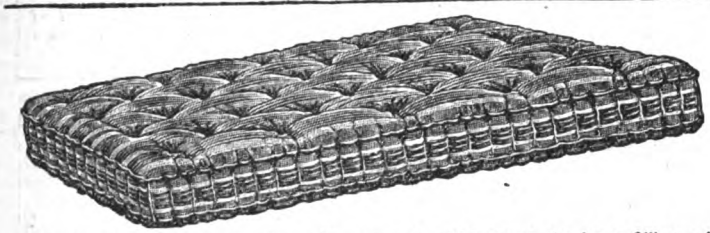
GUARANTEED QUALITY CLIMAX BRAND MATTRESSES

Climax Is Our Own Trade Name.



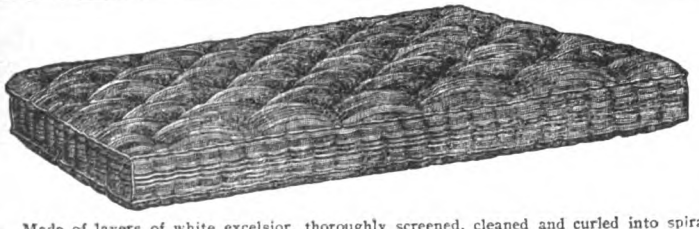
Climax Mattresses are built, not "stuffed," by the latest improved filling machinery, which spreads each layer of filling in a perfectly uniform thickness and length. These mattresses are made from properly prepared materials in a sanitary factory. The tufting and stitching are carefully and accurately done. The excelsior, corn husks, felted cotton and Canadian sea moss are all choice, new, clean stock, complying with all sanitary bedding laws.

You Save Money When You Buy Mattresses From Us.



Cotton Top Excelsior Mattress. This mattress is made of excelsior with cotton top. While it will prove fairly satisfactory, for the slight difference in price we advise and recommend that you purchase any of the mattresses shown below as more satisfactory. Shipping weight is 2 pounds more than actual weight.

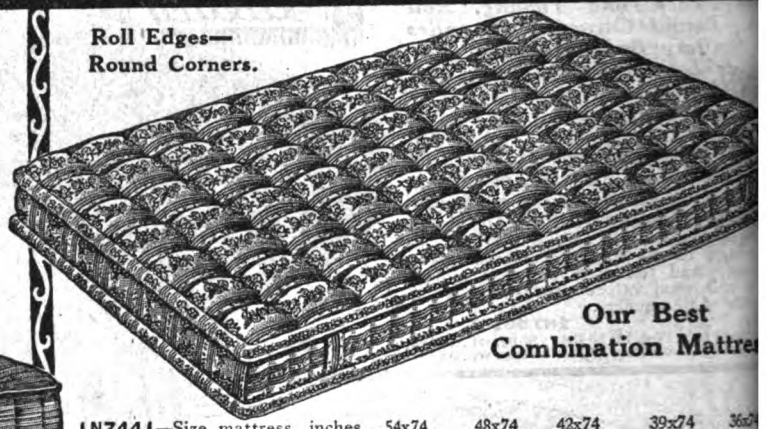
1N7405—Size mattress, 54x74 inches. Actual weight, 45 lbs..... **$4.88**



Filling in center of excelsior of uniform thickness, on either side of which is a layer of fine excelsior. The top and bottom are overlaid with sheets of new cotton. Art ticking; well stitched edges. Shipping weight, 47 pounds.

1N7421—Size mattress, inches	54x74
Actual weight, pounds	45
Each	**$6.45**

Filled with new excelsior, thoroughly screened, which forms the inner filling only. One side is covered with a thick layer of clean Canadian sea moss and the other side with a thick layer of felted cotton. The layers are laid one upon the other in uniform thickness. Covered with a twill ticking. Diamond tufts, accurately and evenly placed the same distance apart. Sides and ends closely stitched. The mattress is suitable for summer or winter, the felted cotton side for the cool season and the sea moss side for warm weather. Shipping weight, 48 pounds.



1N7425—In full size, 54-inch width only..... **$5.95**

Made of layers of white excelsior, thoroughly screened, cleaned and curled into spiral shaped fibers, which makes it soft and springy. **The layers of filling are uniform in thickness throughout.** The middle layer consists of ribbon band fibers, above and below which is a layer of fine fibered excelsior. The top, bottom and sides are overlaid with sheets of new felted cotton. The covering is twill ticking. The edges are firmly bound. Made with diamond shaped tufts, evenly placed with strong tufting stays on top and bottom.

1N7417—Size mattress, inches	54x74	48x74	42x74	36x74

1N7441—Size mattress, inches	54x74	48x74	42x74	39x74	36x7
Actual weight, pounds	45	40	35	33	3
Shipping weight, pounds	47	42	37	35	3
Each	**$6.95**	**$6.85**	**$6.75**	**$6.65**	**$6.**

This mattress has a center filling of high grade A-1 brand clean Canadian sea moss, a purely vegetable fiber which grows at the bottom of the sea, thoroughly dried, cured and curled. The top and bottom are covered with layers of new felted cotton so that the mattress can be used either side up; both sides are equally comfortable. Covered with fancy art ticking with **roll edges and round corners.** The top and bottom have deep tufts, accurately and evenly placed the same distance apart; sides closely stitched. Strong cotton tufting stays. We recommend this mattress to those who desire a soft, sanitary, serviceable and comfortable bed. We have shown it in our catalog for several seasons and it has met with wide popularity.

IN7549	**$18.95**	**$19.45**	**$18.45**	**$18.95**	**$17.95**

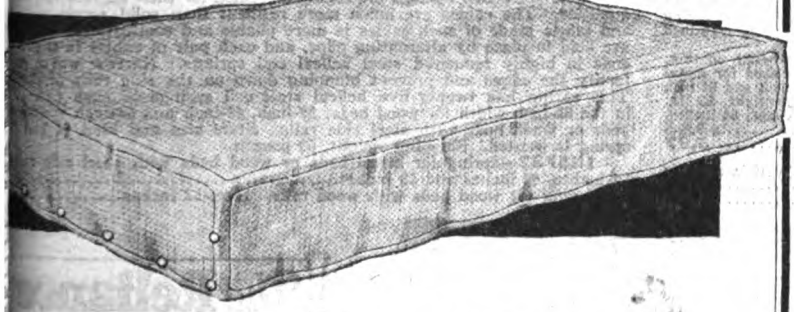
Select Grade Java Kapok.

Many grades of Kapok are grown and marketed, some of which are very inferior. The quality which we use is believed to be the finest Java grade and is rigidly inspected in order to obtain a uniform quality. It is subjected to rigid cleansing and sterilizing.

Construction Details of Interest.

The Art Ticking is a beautiful floral pattern, very attractive. It is a heavy grade, closely woven.

It has round corners and roll edges winding entirely around the mattress. Through the sides and ends is an **extra row of stitching,** which holds the edges of the mattress firm and upright.



Here Is a Tremendous Mattress Value

A Kapok Mattress Like This Usually Sells for at Least $27.50 or About $8.00 More Than We Ask.

Java Kapok Is a Silky Vegetable Fiber.

In appearance, Java Kapok is somewhat similar to cotton. However, the fibers are much more silky in texture and it is unusually light and buoyant. A mattress filled with it requires only 30 pounds (in the full size) to equal the bulk of about 50 pounds of cotton felt. For this reason it is very easy to turn and handle. It is the standard material adopted in mattresses, pillows and cushions used by the Navy and Merchant Marine.

Mattress Covers

Preserve Your Mattress

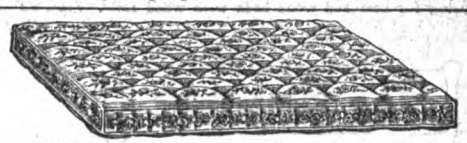
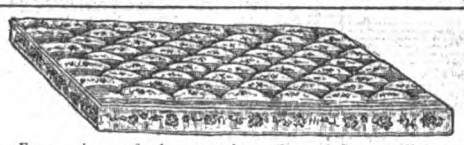
Pad Mattresses for Upholstered Bed Davenports



35-Pound Mattress.

This is our best Davenport Mattress and one of the best ever made. Built like our very high grade felted cotton mattresses of all new, clean, sanitary cotton stock, which is felted into layers. Has a very excellent ticking in pleasing design. Tufts are securely bound and evenly placed. Has 4-inch roll edges and extra side stitching. Weight, full 35 pounds. Size, 47x72 inches. Shipping weight, 37 pounds.



Fitted with strong tapes for attaching to davenport spring.

IN7223 .....**$11.45**

The mattress to buy! Has the same construction as our regular high grade felted cotton mattresses. A good thick pad with a soft, springy felted cotton stock filling. This cotton is fleeced, worked and felted into layers, then encased in the ticking. Securely tufted, evenly placed and firmly bound with strong stays. As comfortable a mattress for davenport as anybody might wish for. Has 2½-inch box edges, with extra side row stitches. The ticking is a strong, serviceable grade in a pretty floral design, very attractive. Weighs full 25 pounds. Size, 47x72 inches. Shipping weight, 27 pounds.

IN7214 .....**$8.85**

A medium price pad of unusual comfort giving qualities. Made of built-up layers of felted cotton stock, the same as our regular high grade felted cotton mattresses. It has 2-inch box edges. Securely tufted, all even and firmly held in place with strong stays. Good quality floral art pattern ticking. Weight, 20 pounds. Size, 47x72 in. Shipping weight, 22 pounds.

Fitted with strong tapes for attaching to davenport spring.

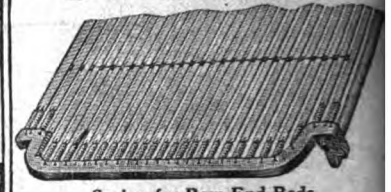
Better Springs Make

The Doric

Featured by 75 Interlocking Helical Springs, Assuring Comfort in Any Position.

No matter what position you assume or how often you move, the spring instantly adjusts itself. Two persons of unequal weight will not roll toward the center.

The fabric is made of narrow bands (⅝ inch wide) of flat steel, running lengthwise and fastened to the angle ends with **sixty** steel helical springs. This eliminates sagging. The oval shape tubular side rails are 1½ inches thick. The fabric of the spring is elevated **6** inches above side rails, preventing striking the rail when sitting or lying on edge of bed. The frame is light gray enameled.



Shows Patent Raised Double Shank Corners. Note, ends are entirely closed.

The helical springs are black japanned and the fabric has an anti-rust coating. **Furnished for wood beds** in two sizes, **46**-inch and **52**-inch widths. **Furnished for metal beds** or wood beds with steel side rails in two sizes, **48**-inch and **54**-inch widths. **State kind and size of bed for which spring is wanted.** Shipping weight, 56 pounds.

1N5746—Spring for metal beds or wood beds with steel side rails. Sizes, **54** in. and **48** in.....**$8.45**

Spring for wood beds with wood rails. Sizes, **52** inches and **46** inches.....**$8.47**

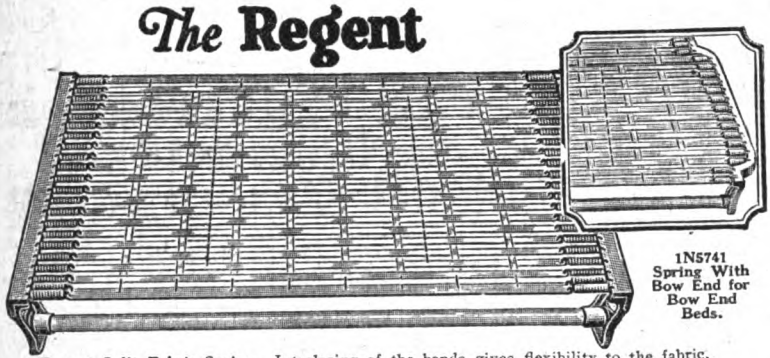
THE DORIC SLAT FABRIC SPRING FOR BOW END BEDS.

Spring for Bow End Beds.

1N5748—Spring for Bow End Metal Beds or Bow End Wood Beds with steel side rails. Size, **54** inches.....**$9.65**

Spring for Bow End Wood Beds with wood rails. Size, **52** inches.....**$9.67**

Shipping weight, 55 pounds.



How to Order a Bed Spring.

State whether spring is wanted for wood or metal Give the exact length and width of your bed.

If you want a spring for a metal bed, to obtain width, measure from one **outside** edge to the **outside** edge of the rail. For the length, measure length of the side rail.

If you want a spring for ordinary wood bed, give length of the cross slat for the width and the length the side rail for the length. If for wood bed fitted square wood rails or with steel rails, where the rests on the rails instead of on slats, for the width measurement from **outside** edge to the opposite edge of the rail. For length, give length of side

The Regent

1N5741 Spring With Bow End for Bow End Beds.

Regent Split Fabric Spring. Interlacing of the bands gives flexibility to the fabric, while the strong, highly tempered **twenty-seven** helical coil springs at both ends make it resilient and prevent it from sagging. Extra broad steel bands at the sides raise the fabric about **5** inches above the side rail, which prevents striking the rail when sitting or lying on the edge of the bed. The side rails are made of drawn steel tubing **1/16** inch in diameter. The frame is finished in gray enamel.

The helical springs are black japanned and the fabric has an anti-rust coating. **Furnished for wood beds** in two sizes, **46**-inch and **52**-inch widths. **Furnished for metal beds** or wood beds with steel side rails in four sizes, **39**-inch, **42**-inch, **48**-inch and **54**-inch widths. **State kind and size of bed for which spring is wanted.** Shipping weight, 56 lbs.

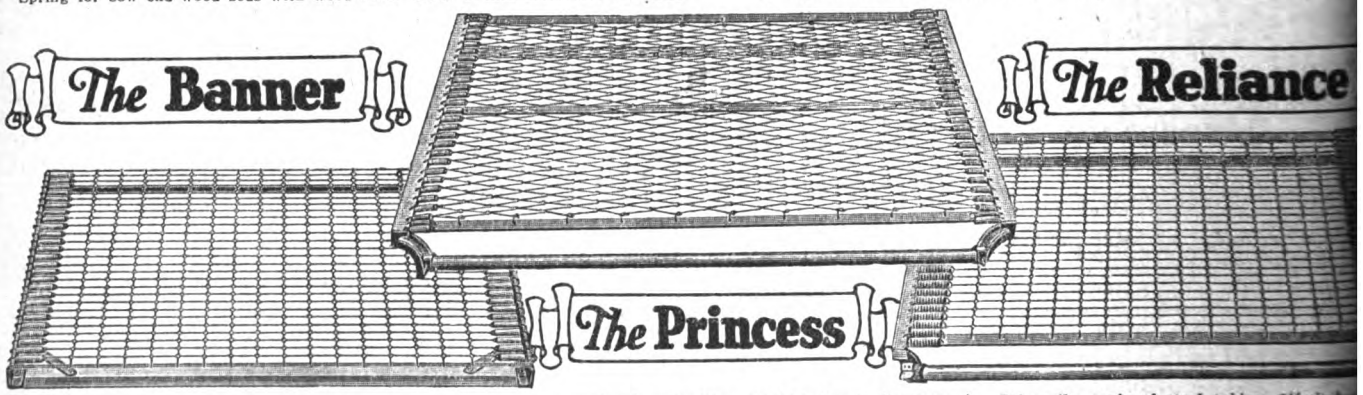
Spring for bow end wood beds with wood rails. Size, **52** inches.....**6.87**

The Peerless



Cable Wire Bed Springs are highly esteemed for their sagless and co qualities. The cables are much more resilient than solid single wire and fabric made of such cables is more pliable and comfortable. Paral are held in place by alternating clips, and each pair of cables is anchor ends in highly tempered steel helical coil springs. Our Bed Springs are famous for exceptional service and big value.

Do you see those little cross helical springs connecting the top of the coils? They permit freedom of action to the long, resilient coils to which they are attached. That is why the unoccupied surface of the spring remains high and level whether one or two persons occupy the bed.

The Arcadia

This spring is made up of **99** steel coil springs, fastened together at the top with **160** interlocking helical springs. A heavy steel brace running the entire width of the spring and securely fastened to the angle steel side rails supports each row of the steel coil springs. Finished in gray enamel. **State kind and size of bed for which spring is wanted.** Shipping weight, 85 pounds.

Special Size Made to Order Window Shades

These shades are made to order from high quality handmade oil opaque ade cloth and are mounted on Excel guaranteed patent spring shade rollers. usually requires about ten days to have special size shades made to order. require the full amount of cash with the order in every instance. Be sure give the right width and length, and specify whether the width given is for length of roller from tip to tip or for the width of cloth. **Don't fail to give and color wanted.** See below, "How to Measure for Made to Order Window ades."

COLORS—Special size shades are made in the following colors: Dark en, dark olive green, terra cotta, slate, pea green, white or buff. Shade cloth 48 inches and wider is made of heavier fabric and will not always exactly match colors of smaller shades.

In the price list below "width in inches" is the width of cloth. If the exact size you wish is not given in the following schedule the next larger size will be charged, but the shade will be made the exact size you order. Slats and brackets are included. **Be sure to state width and length desired and allow the correct amount.**

Shades up to 63 inches wide by 8 feet long are mounted on wooden rollers. All shades larger are mounted on tin rollers.

24N1500½—Order by number and be sure to state width, length and color wanted.

ow to Measure for Made to Order Window Shades.

giving measurements for the LENGTH OF DES, give the height (in feet) of each win- and always add enough extra for one turn d roller. When your order does not state how urements are taken, the cloth will be cut the urements given and outside brackets will be Measurements should always be taken very ately, even to a sixteenth of an inch. When possible, use a yardstick or rule rather than a measure. It requires about ten days to have l size shades made to order.

shades are all shipped complete with steel hade pulls listed under 24N705 to the right and or outside brackets.

Shipping Weights.

ille it is scarcely practical to give shipping weights the shades, you may get an idea of the shipping from the fact that the average shade 36 inches by 6 feet long weighs 1¾ pounds packed for ship-

Rugs-Carpets-Linoleum

On the following pages we have listed a most comprehensive selection of floor coverings, in a wide range of sizes and patterns, and sold at prices that we know afford you a substantial saving.

We have carefully priced all our floor coverings according to quality. We take into consideration the quality of the fabric, the materials and the workmanship. We include all the qualities that represent good honest value for the money and make it easy for you to choose just the floor covering you need. Our prices are the lowest and, whatever you buy, you will be protected by our broad guarantee.

We handle Tapestry Brussels, Velvets, Axminster and Wilton Rugs in standard sizes. The materials used in these four varieties are jute yarn and cotton yarn to form the back or framework, and worsted and woolen yarns to form the face or wearing surface.

All our **Tapestry Brussels Rugs** have a worsted yarn surface, woven with a loop. They represent, in every grade we handle, honest, dependable values. All our **Velvet Rugs** have a woolen yarn surface which is cut to give a velvet or plushlike effect for the face or wearing surface. We believe that the extra cost of making Velvets, as compared to Tapestry Brussels, is warranted by the added appearance and wearing qualities of the rug. **Axminster Rugs** have a longer pile or plushlike surface than Velvets. They also contain more woolen yarn and are more pleasing in appearance and possess better wearing qualities than Velvets or Tapestry Brussels.

The surface of **Wilton Rugs** is made either of woolen or worsted yarn. Worsted yarn Wiltons are the best of purchases in Domestic Rugs and are considered the finest products of the carpet looms.

Let Us Estimate for You on Carpet and Linoleum.

We will estimate your Carpet or Linoleum requirements **free of charge.** If you estimate your own requirements we advise that you read instructions below.

How to Order Carpet.

In ordering carpet be careful to give the exact size of room or rooms. If odd size, having a fireplace, bay window or offset, be sure to send a diagram with exact measurements; also be sure to state where entrance and front of room is, and allow 1½ yards extra to every 25 yards for waste in matching. **State whether you want the strips to run the long or short way of the room.** We always cut the carpet the long way of the room when no instructions are given.

We cut all carpets to match free of charge and strongly advise having your carpet cut by us. There will be less waste and better matching if we cut the carpet for you. In case we use less than 1½ yards waste to every 25 yards we will return the difference.

Always Allow for Waste.

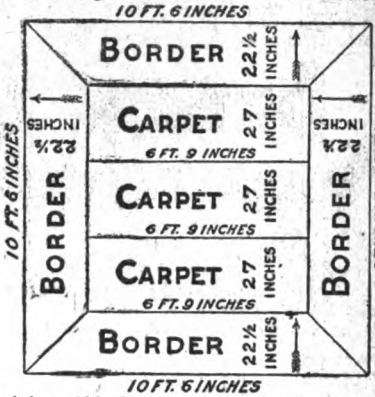
When ordering carpet always allow for waste in matching the pattern. For example, if you wish to cover a room measuring 25 yards, order 26½ yards, for, although 25 yards will actually cover the room, the pattern will not match; therefore, 1½ yards extra are needed to match the pattern exactly. Always order 1½ yards extra for every 25 yards required by actual measurements if you want the pattern to match at the seams.

Extra Charge for Sewing Carpet.

For 2 cents a yard extra we will sew **Ingrain or Rag Carpet** to fit any room. **For 4 cents a yard extra** we will sew any of our **Brussels, Velvet or Axminster Carpet** to fit any room. **For 10 cents a yard extra** we will sew **any Brussels, Velvet or Axminster Carpet ordered with a border.**

Sizing of Carpet Rugs.

When ordering a carpet and border to be made up as a **rug we will apply special sizing** at a charge of 5 cents per yard extra.



We strongly advise having us apply sizing to your made to order rug, as it will lie flat on the floor and not curl up after this sizing has been applied. The sizing we use consists of a high grade glue which has no odor to it. **Be sure to state if you want this done.**

Slight Delay in Special Make Carpets and Runners.

The making, sewing and sizing of carpets and runners takes somewhat longer than the ordinary time it takes to fill an order. Usually only two or three days. We will notify you upon receipt of your order when we will ship it.

Ordering Room Size Rugs or Carpets Made With a Border.

When ordering carpet made with a border, or room size rug, be sure to allow enough money to pay for same, as it will avoid any delay in writing for money to cover cost of goods. Remember, the border is only 22½ inches wide. The body of the carpet is 27 inches wide. The diagram shown is a room 10 feet 6 inches by 10 feet 6 inches.

Measure distance around the room, which gives quantity of border required. In this instance it would be four times 10 feet 6 inches, or 42 feet, which is 14 yards of border.

To get the number of strips of carpet, deduct the width of two strips of border, or 45 inches, from 10 feet 6 inches, which leaves 6 feet 9 inches, or 81 inches. Dividing by 27 inches (the width of one strip of carpet) gives the number of strips needed.

To get the length of the strips, deduct width of two strips of border, or 45 inches, from length of room, 10 feet 6 inches, which is 6 feet 9 inches. Three strips 6 feet 9 inches long would be 20 feet 3 inches, or 6¾ yards.

Allowing 1½ yards for matching would make the carpet and border required to fit a room 10 feet 6 inches by 10 feet 6 inches—22¼ yards. The cost of sewing carpet with border is 10 cents a yard extra.

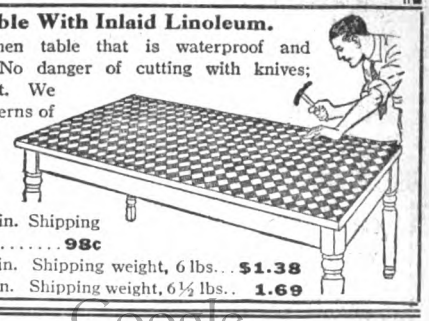
If a certain number of strips of carpet do not fill the width of your room, and the remaining space to be covered is less than 13 inches wide, you must allow an extra strip of carpet one-half the length of the room. If more than 13 inches remain to be covered allow a full length strip of carpet extra.

Special Size Rugs.

All rugs shown in our catalog are furnished only in the sizes quoted. If you want a special size rug, we will make up to your order rugs in any size and style of any of our carpets listed **with borders to match.** When ordering a special rug be sure to send a complete diagram of the room, clearly showing all measurements, as fully explained above. Also be sure to state which way you want the strips of carpet to run.

Mitered Mats or Rugs.

When ordering carpet and border there are always ends of the border left, which we will sew up into a mat or a small rug at $1.25 apiece extra. These mats when made up this way look very pretty and can be used to good advantage in bedrooms and odd corners. If you have a bordered carpet or rug and you wish us to make up the ends of the border into a nice mat, state so in your order, sending $1.25 extra for each mat, and we will make up a pretty mat that will surely please you.



This Table Shows How Much Carpet or Linoleum You Need.

If the size of your room is not given in this list allow enough money for the next larger size. We will cut the carpet or linoleum with the least possible waste and whatever balance is due you at the time the shipment is made. The necessary waste for matching is included in the figures given below. **When sending a drawing of room, locate front of the house, bay windows or any offset of the room. When ordering any carpet or linoleum always state whether you want the strips of carpet or linoleum to run the long or short way of the room. When not mentioned we will cut it so as to run the strips the long way.**

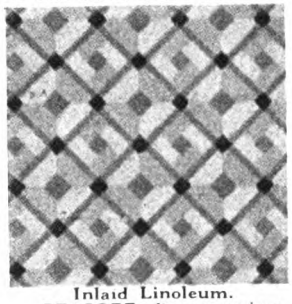
INLAID LINOLEUMS

WHAT IS MEANT BY THE RUNNING YARD.

We price all our linoleum by the RUNNING YARD, which means that 1 yard of linoleum of the 6-foot width is actually 2 square yards; the 7½-foot width equals 2½ square yards; the 12-foot width equals 4 square yards. **We sell Linoleums and Felt Base Fabrics by the running yard only and not by the square yard.**



When figuring linoleum shipping weights, multiply the yardage by the weight shown under each catalog number and add to this figure the following weights for crating, according to the width of the linoleum: 6-foot width, 20 pounds for crate; 7½-foot width, 23 pounds for crate; 12-foot width, 30 pounds for crate.

Inlaid Linoleum.
37N2348

Width	Wt., Run. Yard	Run. Yard
6 feet	11½ lbs.	**$3.35**
12 feet	22½ lbs.	**7.55**

A heavy weight and high grade Inlaid Linoleum. The attractive pattern and colors are built into a strong burlap base. We especially recommend this Inlaid Linoleum for places receiving hard wear.

Straight Line Inlaid Linoleum.
37N2351—Per running yard, 6 feet wide **$2.80**
Weight, per run. yard, 8 lbs.

With every order of Linoleum or other Printed Floor Coverings, we enclose linoleum brads and a folder with detailed directions for laying.

The finest materials are used in the manufacture of these Straight Line Inlaid Linoleums, and every precaution is taken throughout the whole process to prevent flaws. The burlap back is stretched tightly and evenly and then, together with the linoleum ingredients, it is put under a very heavy pressure. This tremendous pressure eliminates all rough spots and produces a fine texture and smooth surface that does not easily absorb dirt. It also brings out the pattern and colors clearly and distinctly, making an ideal floor covering.

For all rooms ... floors receive partic... hard wear the Inlaid ... leum is the cheapest ... long run. The color... figures go clear throu... the burlap back of th... ric, as shown in illustr... and will continue to ... well even after the ... excessive wear. ... Straight Line Inlaid ... leums are the most ... factory qualities bec... they combine strength ... durability with clea... and distinctness of pa... Inlaid Linoleum is ... and sanitary as well as ... nomical and durable.

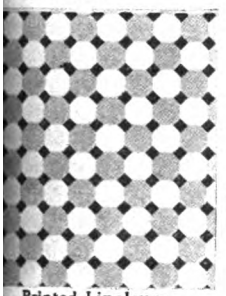
PRINTED LINOLEUMS

Easy to Lay—Easy to Clean.

Printed Linoleum has its pattern strongly printed on a real linoleum base which has a burlap back. It is economical to buy and is a very satisfactory wearing fabric. Very easy to lay and easy to keep clean. We are offering a choice selection of patterns and sizes at very attractive prices.

IN COMPARING PRICES PLEASE CONSIDER QUALITY.



We do not handle the kind of merchandise that is made simply to sell cheap, because the service it gives makes it most expensive in the long run.

Printed Linoleum.

Digitized by Google

Nothing in your home gets rougher treatment or harder use than your floor coverings. Why not buy better qualities and get much longer wear, more beauty in appearance, comfort in use, and have the satisfaction and pride that goes with possession of good rugs and carpets? The length of service makes the best quality the cheapest thing to buy, and we are sure that we sell them for much less than you can buy them for elsewhere.

Kitchen Heater and Rubbish Burner

Thoroughly efficient. One of the most satisfactory stoves ever designed for this purpose. Small and compact, it takes up just a little room, but it will do wonders in the way of heating and cooking, using a minimum amount of fuel and disposing of waste and rubbish that would be a nuisance to throw away or destroy otherwise. Will heat a big room on a small amount of fuel. The fire box is made just like our big coal ranges and burns any kind of coal, coke, wood, corn cobs and rubbish. Length for wood, 14 inches. Stove is made of cast iron, much stronger and more lasting than similar stoves made with steel body. Adjustable legs permit setting stove at any height wanted, or to line up with top of gas stove. Top, 12x24 inches. Two No. 8 lids. Takes 6-inch stovepipe. Shipping weight, 199 pounds.

Gas lighter for fire box can be connected with gas stove or direct to gas supply pipe.

Water front to fit in fire box to heat hot water boiler can be furnished if wanted. See prices below.

Shipped from Springfield, Mass., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, or Chicago, Ill.

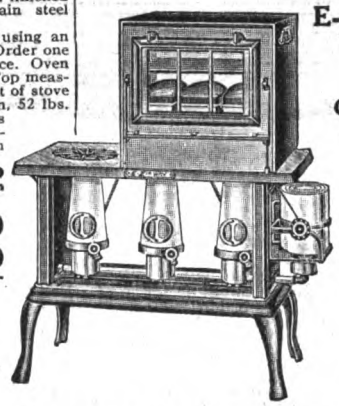
Efficient, Reliable, Dependable Wick Oil Stove.

Compare these E-Z-est-Way Double Chimney Wick Oil Stoves with the best known brands we are sure you will not find an oil stove that will match these in all respects. You may find hig priced oil stoves, but why pay more for a stove not equal to these? Use an E-Z-est-Way Dou Chimney Blue Flame Wick Oil Stove and be sure of satisfaction every time. E-Z-est-Way Dou Chimney Wick Oil Stoves combine the best and strongest construction with patented and exclu features not found in any other makes. The double chimney is the latest word in heat efficiency is a recognized principle that a dead air space between two walls is a very efficient non-conducto heat. We have applied this principle to the construction of our double chimney, and have produ a chimney that concentrates every bit of heat right on the cooking utensils. The double chimne a double protection against radiation—you can use an E-Z-est-Way Double Chimney Stove h after hour without heating up your kitchen.



Light the burner without lifting the chimney. Just open the chimney door, touch a match to wick, close the door and the burner is all ready to do any work that can be done on any cook st

Notice the unusual width and length of tops on these stoves, the large square grates, fully clo in body that gives unusual strength and rigidity and protects the burners from drafts, and artistic style. Double chimneys are blue porcelain enameled. The entire stove is finished in bal on black enamel that can be cleaned with a damp cloth. Neatly ornamented tops and fronts. S tary clear glass oil tank has carrying handle.

The Range Wi a Sure Oven.

QUALITY First and Foremost.

Our most popular range. Quality first and foremost is the slogan that has put it in the front rank. Built up to the highest standard, not down to a price. Equal to the best ranges made anywhere, it has no superiors in quality and but few equals. You cannot match it anywhere for the money; in fact, our prices save you at least $20.00 and probably more.

QUALITY goes clear through from top to bottom in this cast iron range. The more you use it, the better you like it. Extra big, strong and lasting, just the range for farmers and other homes where a great amount of cooking is done. We know it will make good every time and all the time.

You will take pride in its beauty and joy in its satisfaction. The many splendid advantages of this range make every buyer enthusiastic. The solid cast iron body is made extra strong and durable. Good for twenty-five or thirty years' work.

The Sure Oven the Supreme Feature.

Guaranteed to give satisfaction all the time. The housewife who has developed a reputation for cooking and baking excellence recognizes her dependence on her stove. The MAYFLOWER oven never fails. It always bakes and roasts to perfection.

Enjoy the Satisfaction of a Polished Cooking Top.

Always bright and smooth, one of the beauty features of this range. No blackening or polishing required. A labor saver. Be sure to mark order very plainly if polished top is wanted. Plain black cooking top is also furnished for those who prefer it.

The left section of top, over the fire, is hinged and can be raised by the handle; a catch holds it at any height wanted. You can toast or broil right over the hot coals or spread the fuel evenly. Height to cooking top, 31 to 33 inches, according to size of range.

Other Features of Interest.

The nickel plating is handsome and easily kept bright. Fire boxes do quick baking and cooking without waste of fuel. Fire box length for wood, 20 to 22 inches, according to size of range. When range is ordered for burning wood only, the coal feed door is not furnished.

Reservoir is white porcelain enameled inside. If range is wanted without reservoir, deduct $5.25 from prices. Water front to fit in fire box to heat 30-gallon hot water boiler, $3.75 extra; for larger boiler, $4.75 extra. If you order water front, be sure to state if range is wanted with or without reservoir.

Shipped from Springfield, Mass., Philadelphia, Penna., Harrisburg, Penna., Atlanta, Ga., Newark, Ohio, Chicago, Ill., St. Louis, Mo., Kansas City, Mo., or St. Paul, Minn.

Thirty Days' Trial.

Send us your order with our price enclosed will ship at once. Use this range, test it and it in any way you wish, and if at the end days you are not satisfied that this stove every dollar that you paid and even more, and we will mail you instructions to return to us. We will then send you the money for the stove together with all freight char you paid.

How to Compare Stove Values When Buy

You must consider more than appearance a You must compare size and weight, quality a One of the most important points of a stove, often overlooked when buying from a catalo weight. If you were to compare two stoves side by side you would quickly satisfy yours the relative value by looking into the oven pot, by lifting the lids, etc. When buying catalog always be sure to look at the weight as the other measurements; the heavier the the more value there is bound to be.

All weights given on this page are approxim may vary a trifle.

Surpasses All in Quality, Beauty and Style

Two-Oven Gas and Coal Combination Range.

Porcelain enamel most adequately meets strict sanitary requirements and reduces to almost nothing the work usually required to keep a stove neat and clean and looking at its best. The rich medium dark gray color of this beautiful range as illustrated harmonizes charmingly with any kitchen furniture. Such a range will be one of your proudest possessions.

Surpasses all our past efforts in making high quality stoves. One of the most beautiful ranges ever designed. It will add a wonderful charm to your kitchen. Porcelain enameled from top to bottom. The enamel is fused onto the cast iron and practically becomes a part of it, so that it will last as long as the range. There is practically no wear out to such a big, strong and desirable range.

Two Complete Ranges in One.

A coal range and a gas range built into a single body to economize in space and cost. You get all the conveniences of both. With the two separate ovens and double cooking top you can prepare a great big dinner for extra company, with all the special cooking for such occasions. You can do all that comfortably, conveniently and quickly on this range, where it would be almost if not quite impossible to do the same work on either a coal or gas range, or even on an ordinary combination range with only one oven. Each oven is designed for its particular fuel, and will do perfect work. There are no parts to move or change. The bottom of the gas oven is 51 inches from the floor, a convenient height to reach easily. Combination warming oven and gas broiler and toaster in right hand compartment of closet.

Enjoy the Satisfaction of a Polished Cooking Top.

Always bright and smooth, one of the beauty features of this range. No blackening or polishing required; just wash it with a dishcloth or wipe with an oily rag.

Other Features of Interest and Convenience.

Has four No. 8 lids for coal and wood and four round open grates for gas. Gas section has one giant burner, three standard size burners and one combination simmer burner and lighter for the other burners. You can light any burner instantly without matches, without reaching over top or moving utensils.

The duplex grate is suitable for all fuels, burning hard coal, soft coal, coke, wood and corn cobs. Length for wood, 18 inches. With the gas lighter under the grate you can get a fire going in a hurry; just drop a lighted paper onto the grate, turn on the gas, put in the fuel and the fire is started. No kindling wood needed.

Water front to fit in fire box to heat hot water boiler, $4.75 extra.

Measurements: Coal oven, 18x18 inches. Gas oven, 18x16 inches. Double cooking top, 42½x25 inches. Takes 7-inch stovepipe. Shipping weight, 842 pounds.

Shipped from Springfield, Mass., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, Chicago, Ill., Kansas City, Mo., or St. Paul, Minn.

All weights given on this page are approximate and may vary a trifle.

Burns manufactured or natural gas only. Will not burn acetylene or gasoline gas.

Sold only for cash in full with order.

22N3303A—Range for coal and wood and manufactured gas **$137.50**

22N3303N—Range for coal and wood and natural gas **$137.60**

Thirty-Day Trial.

Select the stove you want and send us your order with our price enclosed. Use the stove for thirty days and test it any way you want, and if at the end of that time you are not satisfied in every respect, you may return the stove to us and we will return your money together with all freight charges that you paid.

Convenience Plus Service. A Guaranteed Combination Coal and Gas Range Saves Fuel—Saves Time—Saves Money

Excellent for kitchen comfort all the year. A cool kitchen in summer, a warm kitchen in winter; quick heat at any time. You can cook, bake, roast and broil with coal, wood or gas. Use two fuels at the same time if you want to and bake with either fuel in the same oven. The use of either fuel does not interfere with the other.

Sanitary White Porcelain Enameled Trimmings Make This a Showy Range—It's so easy to keep spick and span. Sanitary and rustproof, easily cleaned with a damp cloth.

Combination Oven Is a Quick and Sure Baker—Just as dependable with coal and wood as with gas. A simple and easy matter to arrange the oven parts for baking with either fuel.

Four lids for coal and wood fire, five gas cooking burners, including combination simmer burner and lighter for other burners. Range for natural gas has closed top, for manufactured gas large open grates are furnished, as illustrated.

Fire box has duplex grate and heavy cast iron linings. Burns hard and soft coal, coke, wood and corn cobs. Length for wood, 19 inches. Coal and wood fire can be started without kindling wood by using the gas lighter under the grate. Just drop a lighted paper onto the grate, turn on the gas, put in the coal or wood and the fire is started.

Water front to fit in fire box to heat hot water boiler, $4.75 extra.

Measurements—Top measures 42½x24 inches. Oven is 18 inches wide and 18 inches deep. Height, floor to cooking top, 32½ inches. Takes 7-inch stovepipe. Shipping weight, 702 pounds. **Shipped from Springfield, Mass., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, Chicago, Ill., Kansas City, Mo., or St. Paul, Minn.**

Sold only for cash in full with order.

Heavy Cast Iron Range

GUARANTEED QUALITY—LOW PRICE.

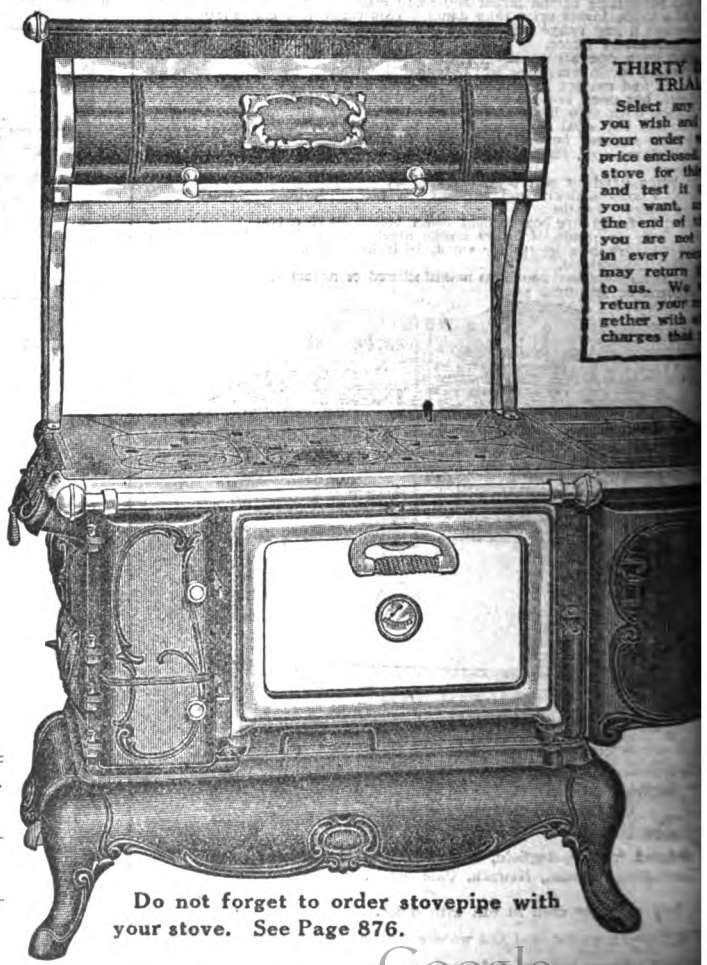
Quality Shows In Every Feature.

This smart up to date model combines the best and most desirable features and improvements of today's stove styles at prices that are remarkably low for such a good size, heavy, thoroughly well made range with white porcelain enameled trimmings. The quality and merit of this cast iron range will stand careful comparison with ranges sold generally for much higher prices. There is a big demand for white porcelain enameled trimmings and we have given this feature especial consideration on this range. The stove is made right from top to bottom. It will make good the first day you use it, and keep right on year after year. Buy it on our recommendation.

The sanitary white porcelain enameled splasher and oven door panel can be cleaned as easily as a china dish. Just wipe with a damp cloth. The warming closet is very convenient for warming dishes and to keep cooked foods warm until served.

The cooking top is good size and made thick and strong to stand intense heat. The fire box does quick work without waste of fuel.

Big Oven. Reliable and Dependable.



The big baking and roasting oven is thoroughly reliable and dependable for all kinds of work. Door opens level and forms a shelf. Thermometer shows amount of heat and makes good baking easy.

Reservoir is white porcelain enameled inside. If range is wanted without reservoir, deduct $5.00 from prices. Water front to fit in fire box to heat 30-gallon hot water boiler, $3.75 extra; for larger boiler, $4.75 extra. Thousands of Users—The Strongest Recommendation for This Big Cast Iron Range

Sold for Many Years—Has Never Failed.

Big Plain Range—As Popular Today As Ever.

Many people prefer a range of this style, big, strong, plain. We have a great deal of confidence in the value this range represents and we invite comparison, believing you will be convinced quickly that it offers you very unusual value at our prices. We have listed this range in our catalog for more than a dozen years, and it is as popular today as ever before, proving that it still meets the constant demand for a big, plain range at a medium price. We take a modest pride in its continued success.

Thoroughly well made from top to bottom. The splendid results it gives are proof of the careful selection we make of strong and dependable materials and the thorough workmanship. The whole stove is made of heavy cast iron and will last for many years.

Big Square Oven—Best Baking and Roasting.

The big square baking and roasting oven can always be depended on for quick and satisfactory work, and is equipped with thermometer which aids greatly to get good baking results.

The sanitary white porcelain enameled splasher is very attractive, and is easily cleaned. Just wipe with a damp cloth.

Big cooking top is the right thickness to stand steady firing without warping or cracking. The fire box is a quick and steady heater. Fire box length for wood, 20 to 24 inches, according to size of range. When range is ordered for burning wood only the coal feed door is not furnished.

Reservoir is white porcelain enameled inside. If range is wanted without reservoir, deduct $5.00 from prices. Water front to fit in fire box to heat 30-gallon hot water boiler, $3.75 extra; for larger boiler, $4.75 extra. If you order water front, be sure to state if range is wanted with or without reservoir.

Shipped from Springfield, Mass., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, Chicago, Ill., St. Louis, Mo., Kansas City, Mo., St. Paul, Minn.

Sold only for cash in full with order.

...14—Range for coal and wood..... **$59.95**

Made for families who do not need a great big range. Even though you need only a medium size range, you want it to be made just as good and as lasting as a big range, and this range was designed to take care of just such needs. Made of the same high grade materials used in our more expensive ranges and by the same skilled workmen. We have kept down the price to a very low figure by using just a few simple nickel plated trimmings.

The range is made of cast iron throughout, the most lasting stove construction. Six-lid cooking top heats quickly. Fire box does good work without waste of fuel. Fire box length for wood, 17 inches. Baking and roasting oven is always reliable. Equipped with thermometer. Closet is convenient for warming dishes and keeping cooked food warm until served. White porcelain enameled splasher.

Reservoir is white porcelain enameled inside. If range is wanted without reservoir, deduct $4.00 from price. Water front to fit in fire box to heat hot water boiler, $4.75 extra. If you order water front, be sure to state if range is wanted with or without reservoir.

Measurements: Oven, 16x16 inches. Six No. 8 lids. Top, including reservoir, 42x25½ inches. Reservoir holds 13½ quarts. Takes 7-inch stovepipe. Shipping weight, 443 lbs.

Steel Range Values

Guaranteed to Satisfy You

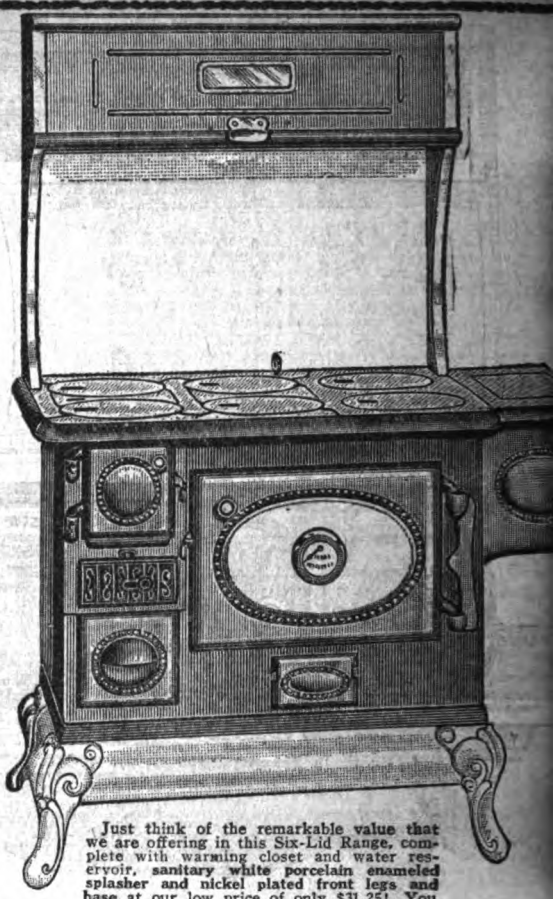
Standard Family Size. | ***Well Made. Priced Low.***

You want quality as well as low price, and you are sure to be satisfied with both in this Steel Range. Neat, plain, attractive style, but built with utility ahead of beauty.

Guaranteed to give satisfactory service and to do baking and cooking with a small amount of fuel. The body is made of good quality steel plate, not quite as thick as that used in our larger and higher priced stoves, but nevertheless will give good service. Sanitary white porcelain enameled splasher and oven door panel are easily cleaned; just wipe with a damp cloth. The front legs and base strip are nickel plated, which adds to the attractiveness of this range. The reservoir is white porcelain enamel lined. If range is wanted without the reservoir, deduct $4.50 from the price.

Water front to fit in fire box to heat hot water boiler, $3.75 extra. If you order water front be sure to state if range is wanted with or without reservoir.

The oven is a quick and sure baker, and is equipped with oven thermometer. Fire box has cast iron linings and duplex shaking grate. Will burn coal, wood or corn cobs.



Measurements: Oven, 18x18 inches. Six No. 8 lids. Cooking top, 42x22½ inches, including reservoir. Reservoir holds 13½ quarts. Takes 7-inch stovepipe. Shipping weight, 373 pounds. **Shipped only from Newark, Ohio.**

Sold only for cash in full with order.

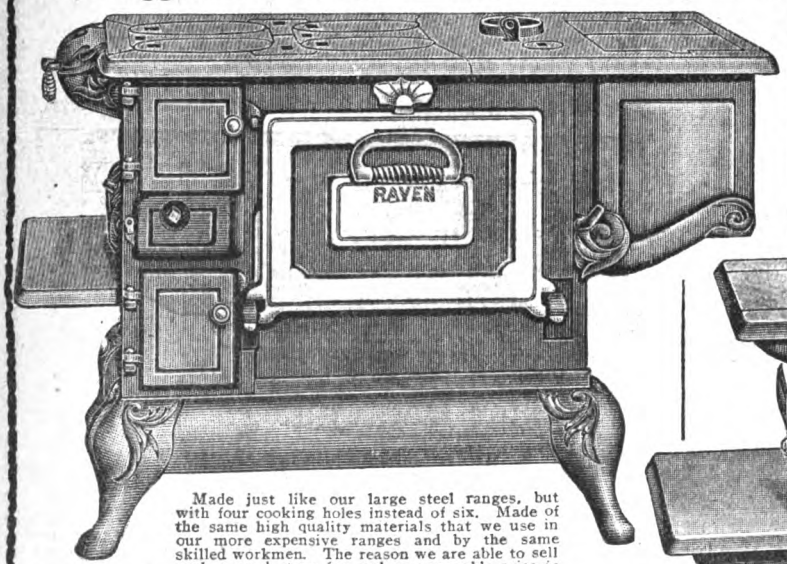
22N1242—Range for coal and wood..... **$49.35**

THIRTY DAYS' TRIAL

Select any stove we sell and send us your order with our price enclosed. Use the stove for thirty days and test it any way you wish, and if at the end of that time you are not satisfied in every respect you may return the stove to us and we will return your money, together with all freight charges that you paid.

Just think of the remarkable value that we are offering in this Six-Lid Range, complete with warming closet and water reservoir, **sanitary white porcelain enameled splasher and nickel plated front legs and base** at our low price of only $31.25! You positively cannot equal this steel range value elsewhere for the money; in fact, you will save from $5.00 to $7.50 by buying of us, even after paying freight charges.

The steel used in this stove is good quality, strongly put together. It is heavy as it is in our larger and higher priced steel ranges, nevertheless it will give satisfactory service. The cooking top and lids are made of good quality cast iron and will heat quickly. Fire box has cast iron linings and flat shaking and dumping grate, one for coal and one for wood.



Oven is a sure and satisfactory baker and is furnished with oven thermometer. Galvanized iron reservoir. If range is wanted without reservoir, deduct $1.75.

Measurements: Oven, 16x18 inches. Six No. 8 lids. Cooking top is 25x22 inches, including reservoir. Reservoir holds 21 quarts. Takes 6-inch stovepipe. Shipping weight, 246 pounds. **Shipped only from Newark, Ohio, or Chicago, Ill.**

Sold only for cash in full with order.

22N1249—Range for coal and wood..... $

Our Biggest and Best Stove Without Warming Closet

Made just like our large steel ranges, but with four cooking holes instead of six. Made of the same high quality materials that we use in our more expensive ranges and by the same skilled workmen. The reason we are able to sell such a good stove for such a reasonable price is simply that it is made plain, with very little nickel trimming.

The stove body is made of thick steel of good quality, carefully fitted and strongly welded and bolted at all joints. Large, quick heating fire box. Burns any kind of coal, corn cobs and wood. Fire box length for wood, 23½ inches. The sure oven is unusually large for a stove of this style and does very fine baking and roasting.

Reservoir is white porcelain enameled inside. If stove is wanted without reservoir, deduct $4.00 from price. Water front to fit in fire box to heat hot water boiler, $3.75 extra. If you order water front, be sure to state if stove is wanted with or without reservoir.

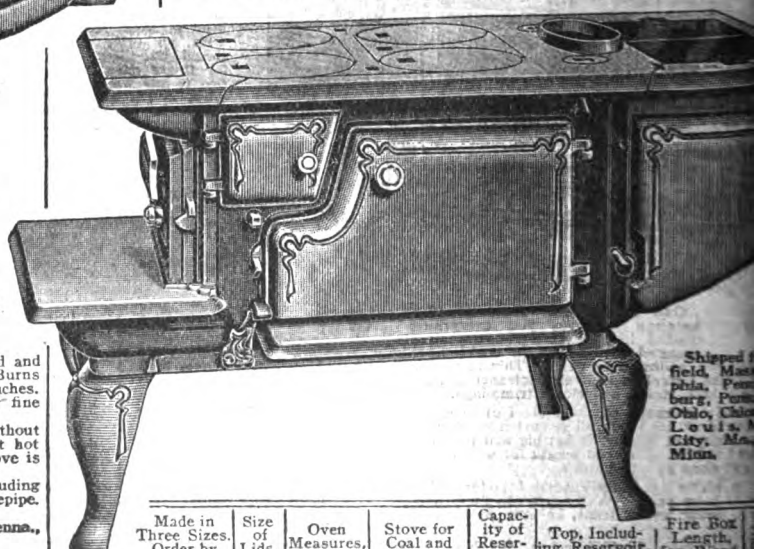
Measurements: Oven, 18x21 inches. Four No. 8 lids. Top, including reservoir, 43x25 inches. Reservoir holds, 13½ quarts. Takes 7-inch stovepipe. Shipping weight, 393 pounds.

Shipped from Springfield, Mass., Philadelphia, Penna., Harrisburg, Penna., Atlanta, Ga., Newark, Ohio, Chicago, Ill., St. Louis, Mo.

Sold only for cash in full with order.

22N3286—Stove, as illustrated above..... **$41.50**

Standard in Design and Construction



WE INVITE COMPARISON

A comparison of the size and weight will convince you that our price for a stove of this kind. We recommend it to give complete satisfaction strongly made of cast iron and will give good service. Neat and plain finish, easy to keep clean.

The oven is a good baker and roaster. Does the work quickly, with Two oven doors; the one on right side is provided wiith a kicker, so that opened with the foot when hands are full. The fire box has two dumping flat grates, one for coal and one for wood. Large pouch feed putting in fuel.

Strongly Made Handsome Self Feeding Hard Coal Base Burner

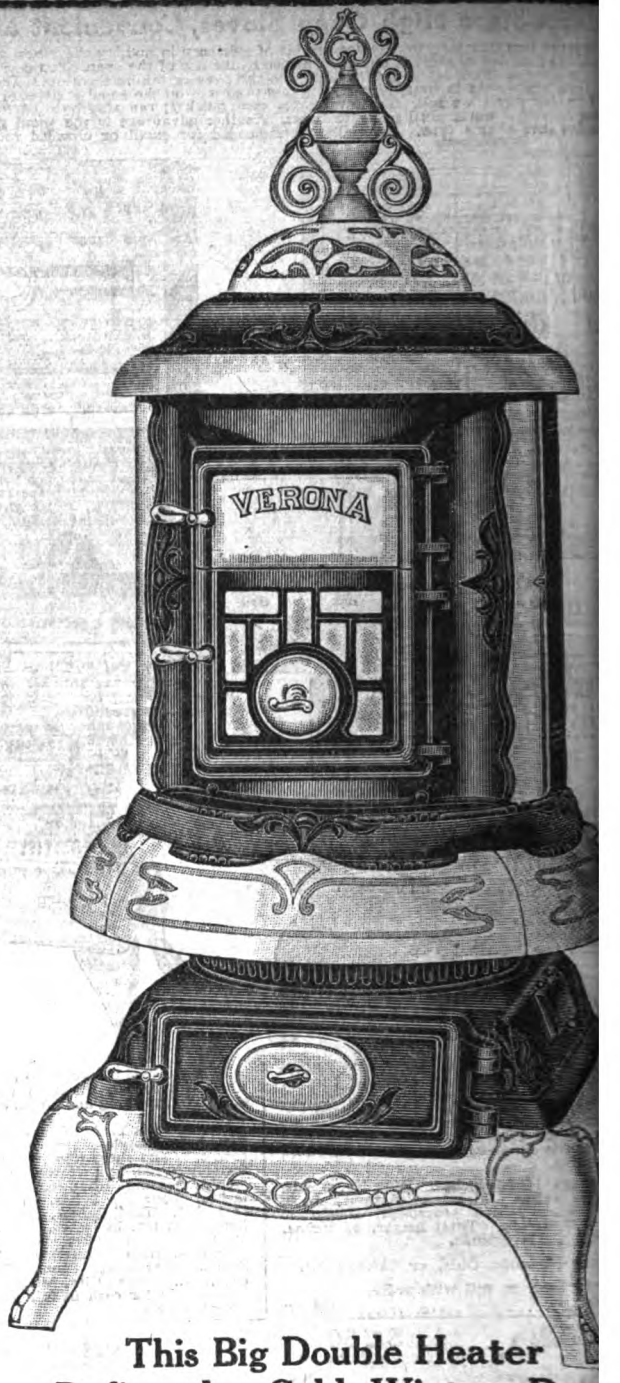
Burns Hard Coal and Crushed Coke

The largest and finest hard coal base burner we have ever sold. Good enough for the best homes. Built with the thought of QUALITY first and foremost. The most efficient and economical kind of heating stove, as it radiates more heat and heats more space than any other type from the same quantity of fuel. Every inch from top to bottom radiates heat, due to the double heating construction.

You can heat a room upstairs without an extra stove or extra fuel by simply connecting a stovepipe from the hot air collar on stove top to a register in the floor above. Register for this purpose is listed on page 999.

Will Last Many Years and Give Splendid Satisfaction.

Solid cast iron from top to bottom, the best construction for base burners. Extra large, extra heavy and strong; will last for many years and give splendid satisfaction. Every piece is carefully fitted and strongly bolted. The workmanship is first class, the materials are tested for strength and wearing qualities. We have given particular attention to the fire pot, which has been made extra strong to stand the hard firing in severe weather. Combination shaking and dumping grate works very easily on rollers.



The most handsome base burner we have ever sold. Self feeding magazine holds enough coal to run the heater for twenty-four to thirty-six hours without refilling.

Shipped from Springfield, Mass., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, Chicago, Ill., St. Louis, Mo., Kansas City, Mo., St. Paul, Minn., Davenport, Iowa, Waterloo, Iowa, Omaha, Neb., Grand Rapids, Mich., Madison, Wis., St. Paul, Minn., Sioux Falls, S. Dak., or Fargo, N. Dak.

Quality Outweighs Price Our Blue Ribbon Leader

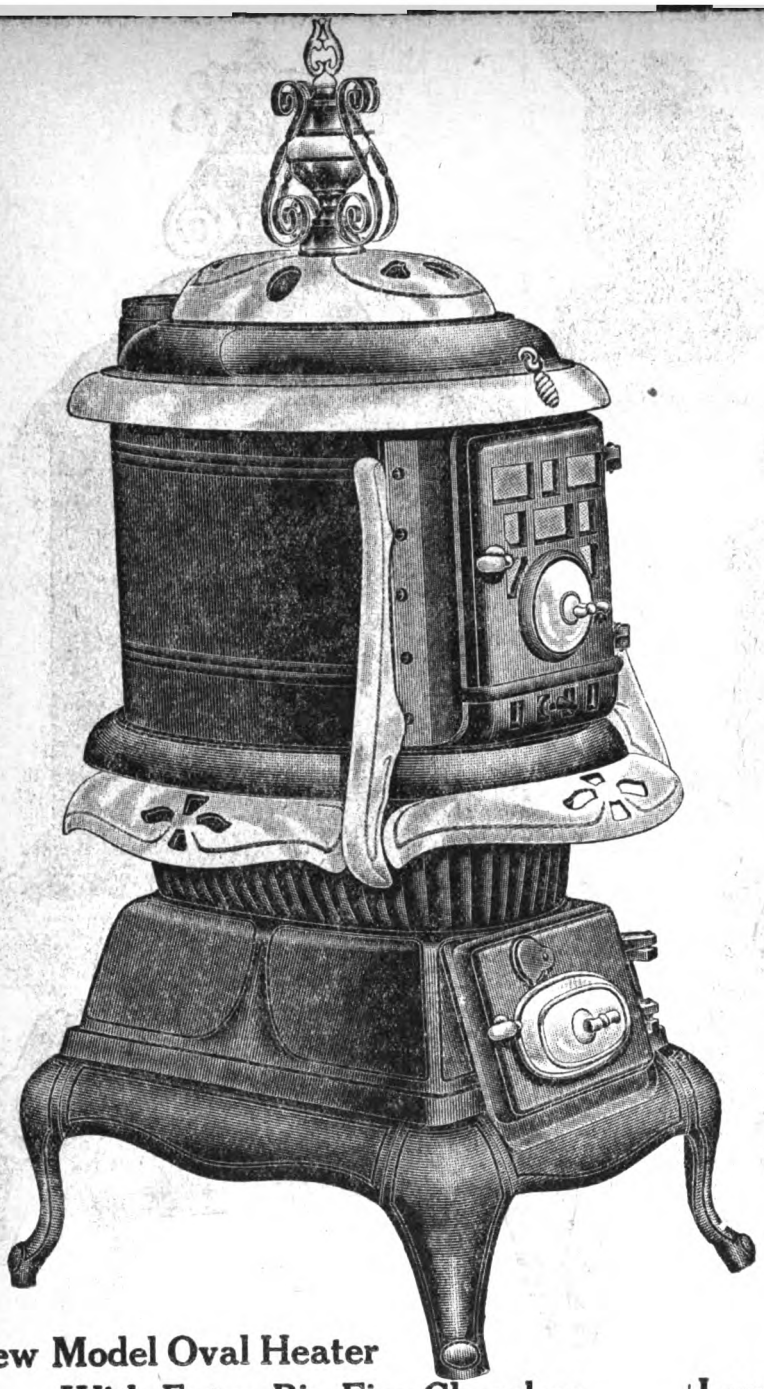
A beautiful piece of stove workmanship in which you will find the most desirable features and latest improved construction. Leads them all in value for the money. Keep quality in mind as well as price when you compare this stove with other makes of similar style.

Made Right From Top to Bottom

Don't judge a stove on appearance alone, but take into consideration the important features that determine the service and satisfaction you are to get. Every item is carefully tested for strength and durability. This stove is sure to make good the day you get it, and keep right on year after year.

The whole stove is strongly made of cast iron with steel drum around the fire chamber. The fire pot and grates are extra strong to stand hard firing and intense heat. Draw center **grates turn easily on roller bearings.** The two feed doors make a big opening for putting in large chunks of wood. Bright and snappy nickel plated foot rail and trimmings.

Self feeding magazine for hard (anthracite) coal can be furnished for all sizes. Will keep the fire going for 18 to 24 hours without attention.



Shipped from Springfield, Mass., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, Chicago, Ill., St. Louis, Mo., Kansas City, Mo., or St. Paul, Minn.

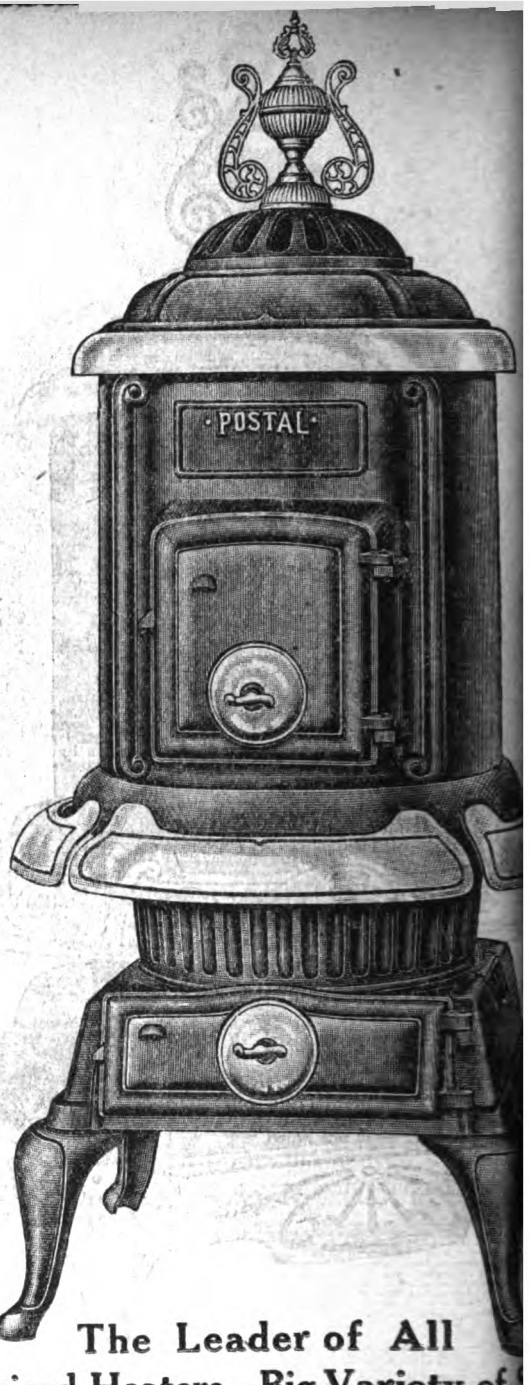
New Model Oval Heater With Extra Big Fire Chamber

The oval shape and extra long fire chamber give this stove some distinct advantages over round body heaters. Holds a big bed of fire, making it easy to maintain steady and uniform heat. Big chunks of wood that would have to stand on end in other stoves can be laid on the side in this stove, so that they burn properly.

The oval fire pot is shaped very similar to the fire box in a cooking range, but is much larger. The two-bar duplex shaking grates are the most practical combination grates for burning any kind of fuel—hard coal, soft coal, coke, wood and corn cobs.

Hot blast smoke and gas consumer make this stove especially desirable for burning soft coal.



Cuts Dollars From Fuel Bills — Backed by Our Guarantee.

A quick and powerful heater. Heavy steel drum around fire chamber. All other parts are made of cast iron, the best and strongest material to stand steady firing and intense heat. Extra heavy fire pot and grates. Extra large feed opening in top. Doors and dampers are carefully fitted to insure positive control of fire to any heat wanted. Stove is attractively trimmed and ornamented with nickel plated parts.

An Unusually Powerful Heater

Long Life and Steady Service Our Recommendation.

The great heating power and efficiency of this stove are due to its special design and construction. The inner part or stove proper is made in the same style as the big heavy cast iron stoves used in depots, stores and shops. Small illustration at top of page shows this inner body. To make such a heater suitable for home use, an outer body has been designed of an artistic and ornamental openwork pattern, through which the heat radiates freely from the inner stove out into the rooms. The tremendous heating power of the depot type stove is so well known that you will readily understand why this type of stove has been adapted to home use in this attractive DICTATOR Parlor Heater.

The fire chamber is made of two heavy cast iron sections, a fire pot below and large one-piece dome above, with large heat radiating surface. The entire stove is cast iron from top to bottom, the very best and most lasting stove construction. Made to stand intense heat and hard firing. Grate is made in the well known draw center style. Burns any kind of coal and coke. Not a wood burner.

Very handsome and elegant nickel trimmings set off this stove to splendid advantage. Nickel plated top, foot rails, legs and base.

Shipped from Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, or Chicago, Ill.

Our stove values speak for themselves. You are bound to save money on any one you buy.

This cut-away view shows the arrangement and operation of the two hot blasts of the PHOENIX heater. The air enters through a draft below the feed door and is heated before it passes into the fire chamber through small openings above the fire pot. A hot blast tube takes in air through the stove top. As the heated air from these two drafts unites with the smoke and gases in the fire chamber it causes them to burn fiercely, greatly increasing the ordinary heating power of the coal. The hot blasts convert into heat the smoke and gases which usually escape up the chimney and are wasted.

THIRTY DAYS' TRIAL.

Select any stove we sell and mail us your order with our price enclosed. Use the stove for thirty days and test it any way you want, and if you are not satisfied in every respect, you may return the stove to us and we will return your money together with all freight charges that you paid.

Our Best Soft Coal Hot Blast Heater

Guaranteed to Please in Looks, Price and Service

Combines the best and most durable features that have made hot blasts such popular heaters wherever soft coal is burned. A quick and powerful heater, thoroughly dependable in any kind of weather. Doubly efficient because it combines both principles of hot blast construction, the hot blast ring above the fire pot and hot blast tube from the top, while most hot blast heaters contain either one, but not both, of these features.

This stove gets all the heat possible out of every pound of fuel and gives steady heat, day and night. Burns any kind of coal, even the cheapest grades, and siftings, slack, coke and corn cobs. It is not a wood burner.

Features of Interest and Convenience.

Attractive in appearance, with bright and snappy nickel plated trimmings and foot rails, and mica door that radiates the firelight out into the room. Good materials and excellent workmanship make this a first class stove. Ash pan and ash chutes are furnished (many makes do not have these, so that removal of ashes is a dusty mussy job.) Shaker door in ash door.

A Heater for Schoolrooms, Lodge Halls, Churches, Stores and Public Buildings.

Especially recommended as a schoolroom heater. An even temperature is maintained, varying only a few degrees between the heater and the farthest corners of the room. Good circulation and even temperature are essential considerations for the health and comfort of the pupils. We have made this heater to meet state school requirements. It is also a desirable heater for stores or other big rooms. The circulation of heated air will keep the windows from freezing. The construction of the casing permits piling goods near the heater without risk.

Built to stand the hard usage to which a heater of this kind is usually put. The entire inner body, or stove proper, including the upper fire chamber, is made throughout of heavy and strong cast iron, the best construction for this kind of heater. Outer casing is made of two heavy steel jackets with asbestos lining between. The fire pot is extra avy to stand hard firing. Four-bar triplex coal grate, the kind grade furnaces and boilers. Flat shaking grate is furnished for Water pan provides the proper amount of moisture at all times. r and shaker are furnished.

About Heating Capacity. Where schoolrooms or other rooms have stem to be used in connection with this heater, the maximum ater is about one-third less than capacity quoted in price table stance, if this heater is to be used in connection with a ventilating u have 10,000 cubic feet of space to heat, it will be necessary for ize 20. The heating capacity rating is for buildings built reason- t with all four walls exposed, with temperature in the room to be 70 degrees in zero weather. Be sure to order a heater large t your needs in the most severe weather.

Tremendous Heating Capacity

One of the Best Coal Heaters Made.

An Ideal Heater if You Burn Coal and Have a Large Space to Heat.

Heavy and substantially built; will stand the hard firing and rough usage usually expected of this kind of stove.

Heavy Steel Heating Drum adds to heating capacity and saves forcing the fire when heating a great amount of space.

For large rooms, stores, halls, business places, garages, depots, churches, schoolhouses, homes, factories and machine shops.

Burns any kind of coal—hard coal, coke and even the cheapest grades of soft coal, siftings and slack. Solid cast iron, strongly bolted, reinforced and strengthened to make it extra strong and lasting. One of the best coal heaters made. The main fire pot section is exceptionally strong and heavy. There is practically no wear out to the fire pot, and once it is hot the stove keeps hot; the heat does not go up the chimney. You get full benefit from every pound of coal you use.

Easily regulated to any amount of heat you want. You can have a red hot fire or a very mild fire and hold the fire over night. Draw center grate is made extra strong and heavy. Large ash pan is furnished. Top has removable lid.

Be sure to order a stove large enough to heat your space properly. The smallest size, 22N3658, will heat a space about 20x20 feet; 22N3659 will heat a space about 20x30 feet; 22N3660 will heat a space about 30x40 feet; the largest size, 22N3661, with heating drum, will heat a space about 40x60 feet.

Priced Cast Iron Coal Burners

These small size cast iron coal burning heaters are especially adapted for heating small offices and homes, for heating chicken houses, private garages, etc. Can also be used as wagon heater by removing the legs and bolting the stove securely to the floor of the wagon. These stoves are made of cast iron from top to bottom, with flat dumping style grate. Quick little heaters; just put in a little fuel and light the fire and in a few minutes the room is warm and comfortable.

Made of the same quality materials as used in our bigger and higher priced stoves, these little heaters are a splendid value at the low prices we ask.

Be sure to order a stove large enough to heat your room properly.

A Common Sense Cottage Heater

Burns coal and wood. Keeps fire all night.

Heating Capacity—The largest size, 22N3670, will heat two medium size rooms or one large room comfortably; the two smaller sizes will heat space in proportion. This is not a big stove to heat several rooms, but it will prove very satisfactory for heating a large room, or two rooms that have a large opening between. If you need a stove of greater capacity, see 22N6627 and 22N6628 on page 871. **Notice the measurements and order a stove large enough for your requirements.**

Solid cast iron from top to bottom, made in an up to date style. All parts are carefully fitted and strongly bolted. Good workmanship and tested cast iron combine to make this a very satisfactory stove in every respect. Coal fire box has flat shaking and dumping grate and cast iron linings. Will stand steady firing and intense heat. Wood burning fire chamber is large size with good size feed door opening for admitting large and irregular chunks and knots of wood. Bottom grate is not needed for wood and is not furnished. Ash pan is furnished with coal and wood style only.

Main top has an extra large opening for feeding big chunks of wood that cannot be put in through the side feed door. The smallest size heater, 22N3668, has one No. 7 cooking lid; the two larger sizes have two No. 7 cooking lids. Smoke guard is hinged inside the feed door opening to prevent the escape of smoke into the room when feed door is opened.

Shipped blackened and polished, ready to set up and use. All sizes take 6-inch stovepipe, which can be connected either on top or back of heater.

Quick Heating Hot Blast Airtight Wood Burner.

A standard type steel body stove equipped with a hot blast, by which all air entering the stove through the upper draft is heated before it reaches the fire, making it burn steadily and give the greatest amount of heat from the fuel. This valuable feature is usually found only in stoves of this type selling at much higher prices. Makes control of fire easy. The draft register and ash cover can be closed airtight so that the fire will burn for several hours without attention.

The stove is made with inner steel lining 12 inches high. Can be furnished in smooth steel or polished steel; the polished steel requires no blackening. All sizes take 6-inch stovepipe.

Wood Burner With Shaking Grate and Cast Iron Fire Chamber

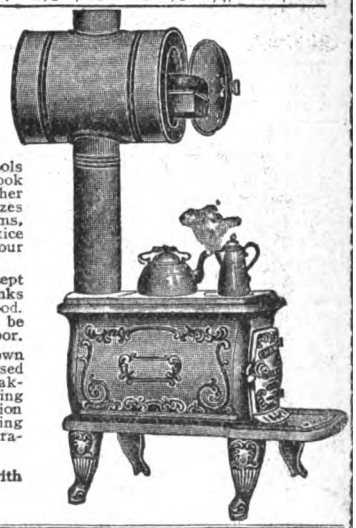
The design and construction is of especial interest, as it makes this stove much stronger and more durable than most wood burning heaters. The ash pit and fire chamber are made of cast iron, with cast iron sides extending up several inches above the grate. Full cast iron front. This construction will withstand the hardest kind of firing and last for years. The fire chamber is unusually big and roomy, and will hold great big chunks and knots of wood, making it easy to keep fire for many hours or all night without attention. Radiates heat almost instantly after fire is started.

The grate is made in register style, and can be easily adjusted to regulate the draft to any heat wanted. You can also remove all ashes from the stove without disturbing the fire. Ash pan is not furnished.

Full cast iron front has a large feed door, and there is also a large feed opening in the top. A smoke curtain is hung inside the front feed door to prevent smoke and soot coming out into the room when the door is opened.

This heater will stand much harder firing than stoves made with full steel body. It is on account of this extra strong construction that we especially urge this stove as your choice. Like other merchandise, the best stove is the cheapest in the long run and gives you better service and satisfaction throughout its life.

Shipped from Springfield, Mass., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, or Chicago, Ill.



Sold only for cash in full with order.

Wood Burning Cast Iron Box Stove for Heating, Cooking and Baking.

For large rooms, stores, halls, factories, shops, schools and homes. Valuable as combination heaters and cook stoves. Meals can be prepared quickly in cold weather without firing up the cook stove. The two smaller sizes are recommended especially for bedrooms, living rooms, dining rooms and other small rooms. Be sure to notice measurements and order a stove large enough to do your work and heat your rooms properly.

Burns wood, corn cobs, straw, in fact anything except coal and coke. The larger sizes will take in big chunks of wood, big knots and roots, and long pieces of wood. The stove top swings to the side, so that fuel can be fed through either the top opening or the front feed door.

Stovepipe baking oven, as shown in small illustration, can be used on all sizes except 22N5733, making a complete heating, cooking and baking outfit. For description of oven see page 866. Cooking utensils shown in small illustration are not included in prices.

Sold only for cash in full with order.

Low Priced Wood Burners

Our Low Prices Save You About One-Fourth or More

The chief feature of this stove is the large front feed door, big enough to take in good size chunks and blocks of wood. There is also a removable lid under the swing top so that fuel can be fed through this opening when desired. This is one of our best sellers and we recommend it as your selection.

This stove is made better and stronger than most wood burning stoves as it has a full cast iron front as well as cast iron top and bottom, making the stove strong and rigid. The steel body is protected by an inner steel lining. You will make no mistake in buying this stove, as it is well made throughout and a very good buy at our prices.

Shipped from Springfield, Mass., Philadelphia, Penna., Harrisburg, Penna., Newark, Ohio, Chicago, Ill., St. Louis, Mo., Kansas City, Mo., or St. Paul, Minn.

Sold only for cash in full with order.

All sizes take 6-inch stovepipe.

Burns wood and corn cobs. Will not burn coal. Holds fire all night.

Warms every corner of your room and the floor as well. Maintains a very even temperature, varying only a few degrees between floor and ceiling. The stove body is made double all around with an air space or flue between. This flue draws air from near the floor, and as it passes upward between the bodies it becomes highly heated and passes out very hot from openings in the stove top, furnishing a steady circulation of heated air. This double body construction heats your rooms much more evenly than the ordinary single body stove, not too hot near the heater, yet comfortable in every corner. By reason of this construction this stove is not a foot warmer.

This double body stove conforms to the established principles of heating by circulation, and for this reason we recommend it especially to those who want to have steady heat hour after hour and keep fire all night.

This stove is also equipped with a hot blast, by which all air entering the stove through the upper draft is heated before it reaches the fire, making it burn steadily and give the greatest amount of heat from the fuel. Fuel is fed through the large lid opening under the swing top. **Shipped from Philadelphia, Penna., Newark, Ohio, or Chicago, Ill. Burns wood and corn cobs. Will not burn coal. Holds fire all night.**

Size of body, inside, 21½x15 inches. Height to urn base, 37½ inches. Top feed opening, 11½ inches. Takes 6-inch stovepipe. Shipping weight, 140 pounds.

Sold only for cash in full with order.

Every Inch Radiates Heat

The heat circulates around through the entire stove before reaching the pipe, giving it an unusual amount of radiation and making this a splendid heater. The firelight radiates through the front mica windows.

Body of stove is made of steel, with cast iron top, base and front. Cast iron flame guard protects steel body from the intense heat. Top has two lids. Total height, 33 in. Floor space, 23x14 in. Burner has 94 jets of flame. ½ inch gas connection. Takes 4-inch stovepipe. Shipping weight, 87 pounds.

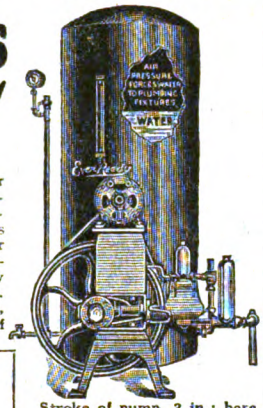
Complete Plumbing Systems Sold for Cash or on Easy Payments

Write for Our Estimate — 10 Months to Pay

The prices given in this catalog are our cash prices. There is an advantage, of course, in paying cash for your material. Plumbing fixtures, such as sinks, bathtubs, lavatories, range boilers, gas water heaters, laundry tubs, etc., are not sold entirely on easy payments. However, if you wish to purchase a complete plumbing system and it is more convenient for you to pay for your system on monthly payments, we will own the property in which the material is to be installed, we will make such arrangements so that you can purchase your material on easy payment terms.



By taking advantage of this offer you need not wait until you have accumulated sufficient funds to pay for the material in full. You can make this great improvement in your home right now and begin at once to enjoy this great comfort and convenience while paying for the material in moderate monthly payments easily within your means. You can take ten months to pay.

If you will send us a sketch of your building and advise us just what plumbing fixtures you would like to install, we will prepare a special estimate for you and will advise you just what terms we will make. Install your own plumbing system and save money.

Ever Ready Automatic Electric Water Supply System

$110.95 Complete

The Ever Ready Automatic Electric Water System will automatically supply running water to your bathroom, kitchen sink, laundry, etc., from wells or cisterns not more than 20 feet deep. It is a complete, high grade, practical outfit and is built for permanent use. You can extend the piping to your barn for your live stock, if you wish, and have hydrants conveniently placed for lawn or garden sprinkling, fire protection, etc. All these conveniences are yours as soon as you have one of these modern outfits installed in your home. There is nothing complicated or difficult to understand about this outfit. It is easy to connect up. Any handy man can easily install it. **Instructions furnished.** The running cost of current at 10 cents per kilowatt hour, **will cost you only 3 cents to pump 180 gallons of water.**

Stroke of pump, 2 in.; bore, 1¼ in. Capacity, 180 gallons per hour. Size of motor, ¼ H. P. Cylinder is brass lined. Piston rod is solid brass. Piston is leather packed. Maximum working pressure, 50 pounds. Outfit may be placed any distance away from the well or cistern but pump should not be more than 20 feet above lowest water level.

Prices for Ever Ready Automatic Electric Water Supply System.

Hand Power Ever Ready Pneumatic Water Supply Systems

For Wells or Cisterns Up to 20 Feet Deep.

VERTICAL TANK OUTFITS.

$61.25

Our Ever Ready Hand Power Water Supply Systems quoted below are equipped with one of the best hand power pumps on the market. Easy working geared head drive, brass cased piston rod, brass air attachment. Pumps air and water at the same time. Large air chamber, well made and carefully machined. These pumps are up to the highest standard in workmanship, finish and material. Pump will draw water from any well or cistern up to 20 feet deep.

These outfits will force water wherever you wish to extend the pipe and connect a faucet. With one of these outfits you can have all the conveniences of modern plumbing. A sink, bathtub, lavatory or water closet, with hot and cold water always on tap. **The first cost is the only cost.** Fifteen minutes' pumping each day supplies sufficient water for the ordinary household. Complete outfit includes one vertical black tank, one double acting geared head force pump with 3-inch brass lined cylinder and automatic air attachment; also all necessary valves, gauges and connections, etc., as shown. **Suction pipe to well or cistern or water supply pipe to plumbing fixtures not included. Order 1¼-inch galvanized pipe to connect pump with well and ¾-inch galvanized pipe to make connection to plumbing fixtures.**

Hercules Home Heating Boilers

Efficient—Durable—Economical.

Illustrations on this page show clearly the very efficient construction of our Hercules Home Heating Boilers for steam and hot water heating. These boilers burn hard coal, soft coal, wood or coke and embody the latest improvements in home heating boiler design. The V shape construction of the sections in the fire pot presents the greatest amount of heating surface to the fire. The square fire pot design means greater heating surface in proportion to the volume of fuel.

Hercules Boilers are equipped with latest improved type of rocking grate bars. Grates are of heavy construction and the mechanical action is perfect.

Prices on steam boilers include steam trimmings, complete. Prices on hot water boilers are for boilers only, without trimmings. Firing tools, including hoe, poker, rake and the flue brush with handle, furnished with all boilers, both steam and hot water. Our Hercules Home Heating Boilers are, without a doubt, among the most efficient home heating boilers on the market. **Thousands now in use on our Hercules Home Heating Systems are giving satisfactory service in all parts of the country. For more detailed information about these boilers see our Special Plumbing and Heating Catalog 548GCN. Shipped from factory in WESTERN NEW YORK. All boiler prices quoted are subject to market changes.**

"The Little Fireman"

Damper Operator Saves Coal.

Opens the dampers on your heating system an hour before you get up in the morning, so that when you arise every room in your house will be warm and cozy. It works equally well on a steam or hot water heating system, a warm air furnace or a pipeless furnace. Considering the small cost of the device, it will easily pay for itself in one month's time. Outfit includes clock, pulleys and 25 feet of chain ready to install, with full instructions. Shipping wt., 6 lbs.

42N1772 **$3.95**

Hercules Thermostat Heat Regulator.

Hercules is our own trade mark, registered in U. S. patent office.

$31.50

The device will maintain any temperature you want to set it for. You can set it for 60 degrees before going to bed and then set the clock so as to throw it over to 70 degrees an hour or so before you arise in the morning, and when you get up your rooms will be heated to a comfortable temperature.

Pays for Itself in One Winter.

It makes a big saving in your fuel bills. Night or day it is always on the job and it will pay for itself the first winter used. You will need to give your heating system only about one-half the attention, as the draft doors will be regulated automatically. Furnished with or without clock attachment. We recommend device with clock attachment, as outfit without clock does not have feature of opening draft before you arise in the morning.

42N1770¼—Without clock attachment. Shipping weight, 27 pounds **$26.75**

42N1771¼—Outfit complete with clock attachment. Shipping weight, 30 pounds **$31.50**

Simplest and Most Economical of All Heating Sy

Our Pipeless Furnaces are the simplest of all systems of heatin reason of their extreme simplicity, they are without any question economical in fuel. The heat is delivered to your rooms almost insta without passing through any long system of pipes, so there is practica wasted. Your basement will always be cool enough for vegetables, an shovelful of coal you put into this furnace you will get big returns in units in your rooms.

Keeps Entire House Comfortably Warmed.

Our Pipeless Furnaces not only keep the room in which the large register is p fortably warmed, but experience has proved that in any ordinary residence where Pipeless Furnaces is installed (if the doors between adjoining rooms are left open, or s stalled in the ceiling, so as to allow a reasonable amount of circulation between the rooms) every be comfortably warmed.

Durable Practical Economical Maximum Efficiency

Our Hercules Pipeless Furnace illustrated on this page embodies the most advanced improvements in pipeless furnace design. Cold air is taken from upstairs, it enters the large register at the sides, drops down, and turns up under the inner or sub-casing near the base of the furnace. It then strikes the hot surface of the furnace and is carried up through the sub-casing and is discharged through the center of the large register above.

No Heat Lost in Basement.

Just observe that this furnace provides its own heat insulation. It is entirely encased in a jacket of cold air, which is in constant circulation and which absorbs every unit of heat which might otherwise escape through the furnace casing, and it carries this heat right back into the heating chamber and up into your living rooms upstairs. That is why you get the full benefit out of every shovelful of coal you put into this furnace. There is no heat wasted. The warm air rising out of the large register above circulates to all parts of the building, delivering heat to every room in the house.

Size to Order.

Figure up the total cubic contents of your building and select a furnace of corresponding capacity from the table on this page.

If you live in a real cold climate, or your house is unusually hard to heat; if you want to keep your house unusually warm, or if you will burn wood or soft coal, we would recommend ordering one size larger furnace. It is always better to have a furnace a little larger than is actually required. **The 18-inch fire pot furnace makes an excellent furnace for small houses, bungalows, is not recommended for houses having more than five r**

If you prefer we will estimate the size furnace you r your building. Write for one of our Special Heating In Blanks, fill it out carefully and return it to us. Our will advise you the correct size furnace needed to h building, and we will also advise you what the fir amount to if you wish us to do so.

Prices of Hercules Pipeless Furnaces.

Any Handy Man Can Easily Install it

embling a Two-Piece Corrugated Fire Pot.

A Most Interesting Job for You

The Pleasure of Doing.

All of us like to do things. No greater satisfaction can come to a man than the pride he takes in something he has built or made for himself. The small boy enjoys tearing a thing to pieces to see what it is made of, and in after years one still delights in taking a piece of machinery apart to discover the "why" of it. But far greater pleasure lies in putting something together, beginning with the smallest parts, and then seeing it work perfectly.

An Honest Pride.

Now think of doing something really worth while; something you never tried before, and perhaps never thought you could do: something mighty interesting in its theory and construction; finally, something that you would always feel a pride in having done yourself, a well deserved pride. Think of saying to your friends and neighbors: "Yes, I put this furnace in practically all by myself. My brother Jack helped a little, which enabled me to get through a little sooner, but that was all. And I have learned a lot about furnaces. Mighty interesting they are too."

Are You Handy?

It is a little work, of course. But, much more than that, it is really fun to see the furnace grow under your hands to completion, and then work perfectly when you have it finished. It is just common sense, after all, combined with a little practical knowledge, and the real pleasure comes in seeing the thing accomplished.

Save Needless Expense.

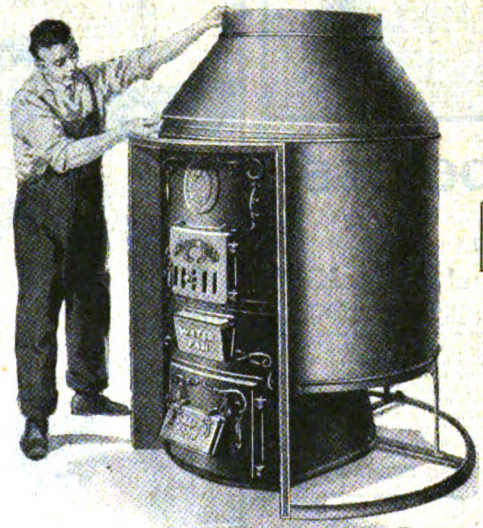
Even if you do not intend to do the work yourself you do not need an expert. We repeat that any reasonably handy man can install one of our pipeless furnaces with the directions we supply.

But do it yourself if you possibly can. Not only is it interesting, and not difficult, but by doing it yourself you will save a tidy sum. You can use that money as well as the other fellow, if not better.

Delighted With It.

Philippi, W. Va.

Sears, Roebuck and Co.



Dear Sirs—The Hercules Pipeless Furnace that you gave me prices on has been in operation for several weeks in my home.

We are delighted with it. It does its work perfectly. We are heating an eight-room house on the same amount of fuel required by a single stove.

The large doors make firing and the removal of ashes easy. In severe winter weather I visit the furnace twice a day, but in mild weather, once a day is sufficient. Your furnace has many advantages over many other makes that are being highly advertised.

Yours truly,
SHERMAN T. POLING.

We can give you the names of thousands of our customers, some of them perhaps in your own town, who would be only too glad to show you their Pipeless Furnace and tell you how well pleased they are with it.

Assembling the Inner Casing and Hood. Almost as Easy as Putting Up a Stove.

llustrations on This Page w Different Stages in the ction of Our Hercules Pipe- Furnace. Note the Ex- ne Simplicity.

Fifteen Big Advantages.

No more coal smoke, dust or gas in ving rooms.

No putting up and taking down the every six months.

Costs little more than old time heat- ethods and burns no more fuel.

Easy to install.

Easy to operate.

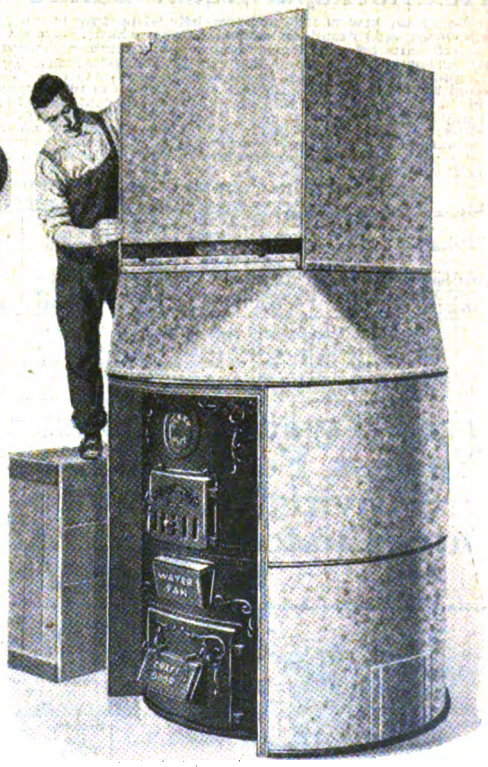
Constant circulation of air keeps all evenly and comfortably warmed.

Gives you more space in your living which would otherwise be taken up ld and out of date heating methods.

Burns hard coal, soft coal, wood or

You can put a water coil in the fur- and you will then have a plentiful of warm water for bathing, shav- washing all winter long at prac- no extra expense for fuel.

10—No more carrying coal and ashes over your rugs and carpets.



11—You will have only one fire to look after and that will be down in the basement close to the coal pile, so that all you have to do is open the door and throw in the fuel; quite different from having to carry the coal up several flights of stairs.

12—The plumbing pipes in the basement or walls of your building will not freeze, yet the basement will be always cool enough for vegetables, preserves, etc.

13—The furnace with reasonable care will last as long as your building.

14—Without a doubt it is the greatest improvement you can possibly make in your home for an equal amount of money.

15—Our liberal guarantee assures you of absolute satisfaction.

Assembling the Galvanized Outer Casing.

ting churches, schools, large halls, stores, etc., our pipeless furnaces are unexcelled. Two or more s often used to heat large rooms. In mild weather only one furnace is fired; in colder weather are fired, etc. This has been found to be a highly satisfactory and very economical plan.

Pipeless Furnaces

Hummer Pipeless Furnace

A Red Hot Rapid Heater. Burns Fuel of Any Kind.

Burns any kind of fuel, and especially adapted for burning wood. This furnace has a large, heavy steel drum combustion chamber which is covered with a heavy cast iron top plate, all parts being well made and carefully cemented, bolted or riveted, making sound, gastight joints. Grates are of the revolving triangular type. This furnace is a rapid heater, giving almost instantaneous results from a very small fire. The large volume of heat delivered by this furnace from a very small amount of fuel is really remarkable. Fire pot is made in two parts so as to allow for expansion and contraction to prevent cracking. Adapted for any height of basement up to 7 feet. Price includes furnace complete with large steel register, check damper, shaker, pulleys and cement, but no smoke pipe. When ordering state amount of smoke pipe needed and we will include same with your order at our net catalog price. **Shipped from factory in OHIO.** Read information on page 880 regarding correct size to order.

Greater Savings Than Ever

Solid Comfort in Your Home All Winter Long

Why continue to put up with inefficient and out of date heating methods—t inconvenience and discomfort, the dust, the soot, smoke and gas, etc., in yo living rooms, carrying coal and ashes over your rugs and carpets? You kn how almost impossible it is to keep your home clean and tidy under these conditio

Why not install one of these Modern Pipeless Furnaces? You can do the in one day. It will cost you little more than the old and out of date heating metho it is almost as easy to install, and when once installed the job is done once and all. You don't have to take it down and put it up every six months. There w be no more carrying coal and ashes over your rugs and carpets. You will have m room in your living rooms, as you will regain the space formerly taken up by the stove. There will be no sooty and dusty stovepipe to spoil your wall paper, decorati etc., and furthermore, every room in your house will be comfortably warmed. You get better and more satisfactory heating results in every way, and that with no gre cost in fuel.

Volcano Pipeless Furnace

Burns Hard Coal, Soft Coal or Wood.

Our Volcano Pipeless Furnace illustrated above is made the same as our Hercules P Furnace illustrated and described on page 880, except that it has only one outer casi the cold air, instead of being drawn down around the outer edge of the large register, our Hercules Pipeless Furnace, is taken in at the bottom of the casing in the basement screened cold air intakes. This gives the full capacity of the large register for circulation. By providing a hinged window in the basement to admit fresh cold air, results are obtained. A cold air duct can easily be connected to furnace at any furn so you can take the cold air from upstairs should you wish to do so. This is one of the most efficient pipeless furnaces on the market, and is recommended with the assura it will give you highly satisfactory service.

Furnace is adjustable for any height of basement up to 7 feet.

Prices include furnace complete with large steel register, check damper, pulleys and cement, but no smoke pipe. State amount of smoke pipe you need when ordering and we will add same to your order at our net catalog pri wanted with gas burner in addition to coal grate, write for prices. Hot wat to fit any size furnace, $1.85 extra.

Shipped from factory in OHIO. Read information on page 880 regarding size to order.

Send us a sketch of your building and get our on a complete warm air heating system for your home.

e prices given on this page are our cash prices. Our warm air pipe furnaces t sold separately on easy payments. However, if you wish to install a te warm air heating system you may purchase it on easy payments. e advantage of our easy payment terms it is necessary that you own the g in which the material is to be installed.

Volcano Pipe Furnace

Burns Hard Coal, Soft Coal or Wood.

ur warm air furnaces, pipeless included, are made in one of the most up to date in Ohio, under the direct supervision of one of the most expert furnace manufacturers ited States. Every feature and part of these furnaces have been worked out after rs of experience in the furnace business, and many improvements have been made e to time so that we now have a most efficient line of furnaces.

urnace castings are made from fine grained gray cast iron. The patterns from various castings are made are perfect, insuring parts that are uniform and that will er properly. A rigid system of inspection is strictly enforced. Every furnace is plete on the floor of the mounting room, the doors or other parts carefully ground , and every part of your furnace must fit perfectly before it is shipped. In high material and fine workmanship these furnaces are unexcelled.

Volcano Warm Air Pipe Furnace is illustrated above. This is without a doubt e finest home heating furnaces on the market. The castings are heavy and well for greatest efficiency. Casing is of heavy galvanized iron well insulated to prevent et. Upper half is lined with bright corrugated tin and sheet asbestos, as shown in e above.

urnace has heavy cast iron radiator, two-piece fire pot, cast iron fire dome and triangular grate bars.

dampers can be controlled from upstairs. Furnace is easily installed. It is al in fuel, easily operated and moderate in cost.

PRICES AND DIMENSIONS VOLCANO PIPE FURNACE.

Modern Bathroom Outfits

$84.95 Buys This High Grade Outfit

Why be without this great convenience in your home? It is not difficult to install a modern bathroom outfit. By following our simple plans and instructions you can install your own plumbing material and make a big saving. Send us a sketch showing how you would like to locate the plumbing fixtures and let us send you an estimate on a complete modern plumbing system.

Our prices are remarkably low. Remember all our plumbing material is strictly first quality. We do not sell seconds or "B" grade plumbing fixtures of any kind.

Easily Installed in The Home

Our Complete Plumbing Systems Also Sold on Easy Payment Terms. Write for Our Estimate.

The prices given in this catalog are our cash prices. There is an advantage, of course, in paying cash for your material. However, if it is more convenient for you to pay for your plumbing system on monthly payments, provided you own the property in which the material is to be installed, we will make special arrangements so that you can purchase your material on easy payment terms.

By taking advantage of this offer you need not wait until you have accumulated sufficient funds to pay for the material in full. You can make this great improvement in your home right now and begin at once to enjoy this great comfort and convenience while paying for the material in moderate monthly payments easily within your means.

Fairview Bathroom Outfit.

A very popular combination. Modern, of neat appearance and durable. Suitable for the finest residence. A good serviceable outfit at a moderate price. You can easily install it yourself. Why not enjoy this great comfort in your home now?

BATHTUB is 5 feet long, 30 inches wide over rim at top and 16½ inches deep, sufficient to prevent water from splashing over sides. Height from floor to top of tub, 22 inches. Made of cast iron, coated inside with white porcelain enamel, painted white outside and has 3-inch roll rim. Standard Fuller pattern bath cock, 1½-inch connected waste and overflow and two ½-inch offset supply pipes to floor, all of brass, nickel plated and polished.

LAVATORY is 18 inches from front to back, 21 inches wide and has 8-inch high back and roll or turnover rim 4 inches deep. Soap cup cast in top directly above overflow. 1¼-inch trap with outlet to wall, two compression faucets with china tops, one marked "hot," the other "cold," and two ⅜-inch supply pipes to wall. All faucets, traps, supply pipes, etc., made of brass, in the latest designs, nicely nickel plated.

CLOSET TANK—White vitreous china, artistically designed. A beautiful sanitary closet outfit that is easily kept clean and white, and will add greatly to the appearance of your bathroom. **Closet shipped from our store.** Shipping weight, 130 pounds. **Bathtub and lavatory shipped from LAYTON PARK, WIS.** Shipping weight 395 pounds.

$30.95

Heater, Kerosene Stove and Bathtub.
Three in One.
Burns Kerosene.

Heater and bathtub are separate and can be moved about independently. You can use the heater for heating water, cooking, etc., while the bathtub is not in use. When not in use tub can easily be lifted up and stood on end in some closet or corner and the heater can be removed into the kitchen and placed alongside of the sink, and you will always have hot water for cooking, washing dishes, etc. During hot summer days you can remove the tank and use the stove part of heater as a kerosene stove for cooking, frying, heating irons, etc., so that you will not have to keep a hot coal or wood stove burning in your kitchen.

This outfit fulfills three big needs in every home. Has 6-foot rubber hose to let water run outdoors. Tub is galvanized sheet steel nicely painted, 5½ feet long and 28 inches wide with varnished oak rim. Tank holds 12 gallons. It is made of galvanized sheet steel and is covered with bright nickel plated sheet metal, giving it a beautiful finish. Entire outfit is exceptionally well made and elegantly finished throughout. As a vacation outfit for the summer cottage it can't be beat. Shipping weight, 185 pounds. Sink and pump outfit not included in price. **Shipped from factory at DETROIT, MICH.**

42N3711⅓—Outfit complete as described.....$30.95

Folding Bathtub and Heater.

Just fill the heater tank with water and light the burner. Heats water sufficiently for bath in thirty minutes. The water runs right into the tub by simply opening the faucet. To drain the water out of the tub, a 6-foot length of hose is provided which you can attach to the water outlet and let the water run outdoors. Water heater holds 12 gallons.

Tub is 5 feet long and 30 inches wide. It is made of galvanized sheet steel with hardwood rim. Entire tub is coated with paint enamel, giving the outfit a handsome and sanitary appearance. Heater has galvanized steel inner casing covered with an outer casing of light nickel plated sheet steel, highly polished.

Light, Portable, Easily Handled.

The entire outfit is on roller bearing rollers. It folds up into small space and can be quickly pushed out of the way into some convenient storeroom or clothes closet. Heater may be provided with gasoline or kerosene oil burner, as desired. **State which is wanted.** Shipping weight, 165 pounds.

Read These Specifications

All our roll rim cast iron white porcelain en-
meled sinks quoted on this and the opposite
ge have 12-inch high back and 2¼-inch roll
m. Our apron sinks have 12-inch high back
nd apron 5 inches deep. Inside of sink, roll rim, back, end piece and drain board carefully enameled with white porcelain, while under side of sink is painted.

Each cast iron roll rim or apron sink fitted with concealed cast iron brackets to hang to wall. In addition the following sinks are furnished with two adjustable painted iron legs, as they are too heavy to be supported by wall hangers only: Hollywood, Hiawatha, Claremont, Elmwood and Lawndale. If these sinks are wanted with porcelain enameled legs, allow $3.00 extra. Any sink furnished with wall brackets only can be fitted with adjustable iron legs for $1.50 extra for each leg, or with adjustable porcelain enameled iron legs for $3.50 extra for each leg.

FITTINGS—All cast iron roll rim and apron style sinks quoted on this and the opposite page complete with fittings include two ¾-inch solid, brass nickel plated Fuller pattern flanged faucets and a 1½-inch adjustable slip joint solid brass nickel plated trap with a new type strainer.

SINKS ONLY—Cast iron roll rim and apron style sinks only as listed on this and the opposite page include a new type nickel plated brass strainer and tailpiece, but no faucets or trap.

PIPE CONNECTIONS—All roll rim and apron style cast iron sinks on this and the opposite page fitted for ¾-inch supply and 1½-inch drain **and pipe. Can be furnished threaded for iron pipe for 15 cents extra.**

Plumbers' Blast Furnaces and Calking To

Plumbers' Gasoline Blast Furnace.

$4.95

A very high grade furnace, strong and substantially made. Used by plumbers for melting lead, heating soldering irons, etc. By removing top it may be used as a torch for thawing frozen water pipes, burning off old paint, heating glue pots, etc. In fact, it may be used for any purpose for which a small portable stove with real hot flame is desired. Many campers use this furnace for cooking, frying, heating water, etc. Easy to light. Produces a hot blue flame. Melts lead or solder quickly. Heavy, durable construction. Reservoir is galvanized. Shipping weight, 10¾ pounds.

42N1720¼ **$4.95**
Melting Pot not included in above price.

Large Capacity Combination Gasoline Blast Furnace.

$8

Serv every pu for which Blast uace 42N1720¼ is and has larger h giving greater he capacity. Much by linemen and tricians, etc., as as by plumbers. intense heat. soldering irons melts lead or solder at the same time new type burner, designed for outdo indoor use. Burner is attached with s joint so it can be turned to horizont vertical position without changing po of furnace. Hood easily removed so with burner may be used separately ervoir holds 2½ quarts of gasoline made of heavy gauge pressed steel welded leakproof seams. Fitted with filler plug and improved brass pump needle stop valve. Hood has cover, ing iron rest and wind shield. Heig inches; diameter, 8¼ inches. Sh weight, 11 pounds.

Plumbers' Blast Furnaces and Calking To

Plumbers' Gasoline Blast Furnace.

$4.95

A very high grade furnace, strong and substantially made. Used by plumbers for melting lead, heating soldering irons, etc. By removing top it may be used as a torch for thawing frozen water pipes, burning off old paint, heating glue pots, etc. In fact, it may be used for any purpose for which a small portable stove with real hot flame is desired. Many campers use this furnace for cooking, frying, heating water, etc. Easy to light. Produces a hot blue flame. Melts lead or solder quickly. Heavy, durable construction. Reservoir is galvanized. Shipping weight, 10¼ pounds.
42N1720¼ **$4.95**
Melting Pot not included in above price.

Large Capacity Combinatio Gasoline Blast Furnace.

$8

Ser every p for which Blast nace 42N1720¼ and has larger giving greater h capacity. Much by linemen and tricians, etc., a as by plumbers. intense heat. soldering irons melts lead or solder at the same tim new type burner, designed for outd indoor use. Burner is attached with joint so it can be turned to horizo vertical position without changing p of furnace. Hood easily removed s with burner may be used separately ervoir holds 2½ quarts of gasoline made of heavy gauge pressed ste welded leakproof seams. Fitted with filler plug and improved brass pum needle stop valve. Hood has cover, ing iron rest and wind shield. He inches; diameter, 8¼ inches. S weight, 11 pounds.

Plumbers' Blast Furnaces and Calking To...

Plumbers' Gasoline Blast Furnace.

$4.95

A very high grade furnace, strong and substantially made. Used by plumbers for melting lead, heating soldering irons, etc. By removing top it may be used as a torch for thawing water pipes, burning off old paint, heating glue pots, etc. In fact, it may be used for any purpose for which a small portable stove with real hot flame is desired. Many campers use this furnace for cooking, frying, heating water, etc. Easy to light. Produces a hot blue flame. Melts lead or solder quickly. Heavy, durable construction. Reservoir is galvanized. Shipping weight, 10¼ pounds.

42N1720¼ **$4.95**
Melting Pot not included in above price.

Plumbers' Blast Furnaces and Calking To

Plumbers' Gasoline Blast Furnace.

$4.95

A very high grade furnace, strong and substantially made. Used by plumbers for melting lead, heating soldering irons, etc. By removing top it may be used as a torch for thawing frozen water pipes, burning off old paint, heating glue pots, etc. In fact, it may be used for any purpose for which a small portable stove with real hot flame is desired. Many campers use this furnace for cooking, frying, heating water, etc. Easy to light. Produces a hot blue flame. Melts lead or solder quickly. Heavy, durable construction. Reservoir is galvanized. Shipping weight, 10¼ pounds.

42N1720¼ $4.95

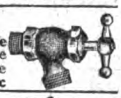
ICELESS "ICE BOX"

No Spoiled Food. No Expense for Ice.

Keeps Your Provisions Cool During Hottest Weather Without Ice.

This Sanitary Iceless Cooler serves every purpose of an ice box with no expense for ice. It is a practical necessity on every farm.



It may be installed in any open or dug well, or if you have a drilled or driven well which cannot accommodate it, you can make an excavation in your cellar or other convenient place 8 to 10 feet deep and line it with 18-inch tile. At this depth the temperature is as low as 55 degrees. You can make this excavation directly under the kitchen if you wish and the outfit can then be installed right in your kitchen, where it will be handy at all times. It is simply a "dumb waiter," and anything you want may be obtained in a moment. Saves expense for ice. First cost is only cost. Any handy man can easily install it. Provision chamber is bug and animal proof. It protects your foodstuffs from insects and prowling animals as well as keeping them cool and preventing their spoiling even in hottest summer weather. Provision chamber is 40 inches high and 14 inches in diameter with three adjustable shelves. **Shipped from factory in IOWA.**

42N3635½ — Outfit complete with windlass, galvanized steel cable, and guide rods extending 8 feet into well as shown. Shipping weight, 95 pounds..... **$16.95**

Note—If guide rods longer than 8 feet are wanted, add 25c for each additional foot.

For Refrigerators see page 777.

Standard Steam, Gas and Water Pipe

Black and galvanized standard pipe for carrying steam, gas or liquids. Made of good quality evenly rolled stock, carefully welded and free from imperfections.

Use black pipe and fittings for steam and hot water heating systems, oil or gas, irrigation or air pipe lines, etc.

Use galvanized pipe and fittings for supply and waste pipes on plumbing systems, drinking water pipe lines, etc.

Sizes, ⅛-inch to 6-inch, black and galvanized, in stock at our store. Prices on larger sizes quoted on application.

Prices quoted below are for pipe furnished in random mill lengths, about 20 feet long, threaded both ends. One coupling furnished with each piece of pipe. If pipe is wanted cut to specified lengths and threaded, couplings are not included and an extra charge is made for threading each end of each piece of pipe, as quoted below Allow cost of two threads for each piece of pipe.

Prices Subject to Market Changes.

Read Before Ordering Fittings, Valves, Etc.

The sizes of standard pipe and fittings, as given in this catalog, refer to the INSIDE diameter of the pipe. The pipe sizes given for fittings, valves, oil cups, etc., refer to the inside diameter of the pipe to which they connect, and not to the diameter of the tapping on the inside or outside of the fitting itself.

SHIPPING WEIGHTS.

The shipping weight of pipe fittings varies, according to the number ordered and the method of shipment. An estimate of the shipping weights and freight, express or parcel post charges will be furnished, if desired, upon receipt of a list of the fittings in which you are interested.

Model X Automatic Injectors.

Made of brass with ground joint unions and brass strainer. Starts on 20 pounds steam on 4-foot lift; works to 150 pounds steam on 4-foot lift; lifts water 18 to 20 feet on 60 to 80 pounds steam pressure. Our injectors deliver a maximum quantity of water.

Stop Leak Boiler Compound.

A quick and sure remedy for a cracked boiler section. Saves expense of replacing a cracked section in your heating boiler. Should you accidentally crack a section just pour in about two cans of this compound and leak will stop in a few hours. Will stop small leaks permanently. Larger breaks may require renewing application about every three months while boiler is in operation. You can put your heating plant back into service immediately. Shpg. wt., 8 oz.

42N152—1-pint can..... **70c**

Adjustable Pipe Hangers.

Made of perforated strap iron with long wood screw eye. Length 10 inches. Can be cut off and adjusted to any length desired. Can be put on or taken off after fittings and pipe are made up.

Serviceable Pumps for the Farm

Pitcher Spout Iron Lift Pump. $1.98

3-In. Size.

One of the most popular and serviceable Kitchen Sink Pumps on the market. For wells or cisterns 20 feet deep or less. Has revolving top so handle may be turned as desired. Cylinders of all pumps listed below tapped for 1¼-inch suction pipe. Order pipe from water to pump. Shipping weight, 28 pounds.

42N2370¼—3-inch iron cylinder. **$1.98**
42N2371¼—3-inch brass lined cylinder **$2.70**
42N2372¼—3½-in. iron cylinder. **2.25**
42N2373¼—3½-inch brass lined cylinder **$3.15**

42N390—Cast iron bracket to fit above pump for attaching to sink. For illustration see page 888. Shpg. wt., 5 lbs. **$1.25**

Extra Heavy Set Length Hand Force Pump.

Spout has hose and shut off clevis, so that water can be forced to elevated tank or through hose for sprinkling, washing windows, buggies, automobiles, etc.

$8.35

2½x10-In. Bottom of Cylinder Comes 4 Feet Below Pump Platform. Pump Takes 1¼-Inch Pipe. 6-Inch Stroke.

Back Attachment, $1.50 Extra.

Cock Spout, $1.65 Extra.

42N2409¼ Set Length Hand Force Pump, with 2½x10-in. iron cylinder. Shpg. wt., 76 lbs. **$8.35**
With brass body cylinder. **$10.20**

42N2410¼ Same Pump, with 3x10-in. iron cylinder. Shpg. wt., 85 lbs. **$8.40**
With brass body cylinder **$10.40**

42N2411¼—Same Pump, with 3½x10-inch iron cylinder. Shpg. wt., 90 lbs. **$9.10**
With brass body cylinder **$11.35**

For galvanized pipe add 25c to above prices and allow for cost of galvanized pipe to reach water in well.

42N2413¼—Pump Standard only. 6-in. stroke. Tapped for 1¼-inch pipe. Shipping weight, 45 pounds **$5.70**

Extra Heavy Windmill Set Length Force Pump.

Adapted for wells up to 150 feet deep. Can be operated by hand, windmill or pump jack. Six-inch stroke. Tapped back of spout for 1-inch pipe. Spout has hose and shut off clevis, so that water can be forced to elevated tank or through hose for sprinkling, washing windows, buggies, automobiles, etc. Bottom of cylinder, 4 feet below pump platform.

$9.45

2½x10-In.

Takes 1¼-Inch Pipe.

6-Inch Stroke.

Cock Spout, $1.65 Extra.

Back Attachment, $1.50 Extra.

42N2394¼—Same Pump with 3½x10-inch iron cylinder. Shipping wt., 110 lbs... **$10.25**
With brass body cylinder **$12.50**

For galvanized pipe add 25 cents to above prices and allow for cost of galvanized pipe to reach water in well.

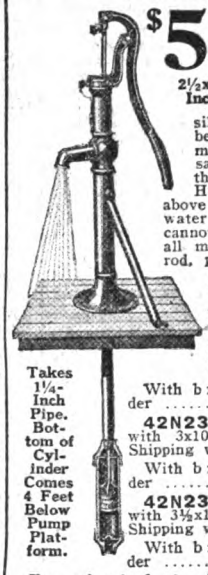
42N2396¼—Windmill Force Pump Standard only. 6-inch stroke. Tapped for 2-inch pipe or smaller. Shipping weight, 65 lbs. **$6.80**

42N2397¼—Windmill Force Pump Standard only. 10-inch stroke. Tapped for 2-inch pipe or smaller. Shipping weight, 70 pounds **$7.50**

How to Order Your Pump Outfit.

If the distance from pump platform to the lowest water level is less than 25 feet, you can use one of our set length pumps, quoted on this page, and order sufficient extra pipe to reach to about 3 feet below water. In that case the cylinder need not be let down. Just screw the pipe into the bottom of the cylinder and extend the pipe down below the water. This simplifies the installation very much.

If the distance to the lowest water level is over 25 feet, then you will have to extend the cylinder down, and in that case we recommend that the cylinder be immersed in the water and sufficient extra pipe and pump rod ordered to place it in that position. Lift pumps draw water to the pump spout only. Force pumps will force water to an elevated tank. If you just want to pump water to a bucket or tank at the pump spout, a lift pump will do. If you want to force it to an elevated tank or a pressure tank, order a force pump.



We charge 2 cents per foot in addition to cost of pump rod and pipe for cutting and fitting pump outfits to order.

For Drive Well Points, Pump Rod Cylinders, Etc., See Page 895.

NOTE—Prices quoted on pump standards only do not include any pipe, pump rod or cylinder.

High Spout Set Length Anti-Freezing Lift Pump for Wells Up to 60 Feet Deep.

$5.95

2½x10-Inch.

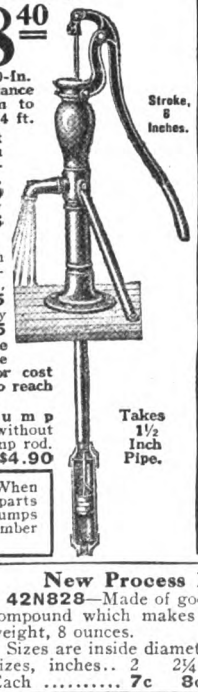
Takes 1¼-Inch Pipe. Bottom of Cylinder Comes 4 Feet Below Pump Platform.

This pump is strong and substantially made and should not be compared to the light weight, flimsily constructed pumps being offered on the market at about the same price we ask for this high grade article. Has small hole just above cylinder which lets water run out so pump cannot freeze. Pump is all made up, with pump rod, pipe and iron cylinder, as shown. Stroke, 6 inches.

42N2350¼—Set Length Pump, as described, with 2½x10-inch iron cylinder. Shipping weight, 62 pounds **$5.95**
With brass body cylinder **$7.80**

42N2351¼—Same Pump, with 3x10-inch iron cylinder. Shipping wt., 65 lbs... **$6.10**
With brass body cylinder **$7.95**

42N2352¼—Same Pump, with 3½x10-inch iron cylinder. Shipping wt., 70 lbs.. **$6.75**
With brass body cylinder **$8.95**



For galvanized pipe between pump and cylinder instead of black add 25 cents to above prices and allow for cost of galvanized pipe to reach water in well.

42N2355¼—Pump Standard only, without cylinder, pipe or pump rod. Shipping weight, 40 pounds **$3.30**

Extra Heavy Set Length Anti-Freezing Lift Pump.

Large pumping capacity and extra heavy construction. Distance from pump platform to bottom of cylinder, 4 ft.

$8.40

3½x10-In.

Stroke, 8 Inches.

Takes 1½ Inch Pipe.

42N2382¼—Set Length Pump with 3½x10-in. iron cylinder. Shpg. wt., 80 lbs..... **$8.40**
With brass body cylinder ... **$10.75**

42N2383¼ Same Pump with 4x10-inch iron cylinder. Shipping wt., 85 lbs..... **$9.25**
With brass body cylinder **$11.75**

For galvanized pipe add 25 cents to above prices and allow for cost of galvanized pipe to reach water in well.

42N2386¼—Pump Standard only, without cylinder, pipe or pump rod. Shpg. wt., 50 lbs.. **$4.90**

Please Note—When ordering repair parts for any of our pumps give casting number of part wanted.

Easy Working Wood Farm Lift Pump.

Light acting, easy working. Has large pumping capacity. For wells or cisterns up to 30 feet deep. Has 3½-inch cylinder. Made from first grade Washington spruce, measuring about 5½ inches square. Nicely painted, striped and varnished. Iron handle brackets and iron spout. When ordering include tubing listed below to reach from bottom of pump to bottom of well. When more than 94 feet of tubing is required order coupling for each joint to connect tubing. Shipping weight, 38 pounds.

$6.98

6-Foot Size.

42N2192¼—Length, 6 feet, for wells up to 20 feet deep.
Plain pump **$6.98**

Centrifugal Pumps

For irrigation, pit drainage, etc., or wherever a large volume of water is to be raised against a total head not exceeding 65 feet, the centrifugal type of pump is unexcelled. Our Hercules centrifugal pump is scientifically designed for greatest efficiency. It is a strictly high grade pump in every way. Long babbited bearings insure minimum friction, smooth running and long wear at high speeds. Impeller is cast iron single suction open type carefully machined and balanced. It is necessary that **Centrifugal Pump be thoroughly primed before it can be started.** A foot valve is ordinarily used on the bottom of the suction pipe to keep pump primed, but where the well will not admit the foot valve, it is necessary to use a swing check valve in the discharge and equip the pump with a hand primer.

Shipped from factory in SOUTHERN ILLINOIS. Complete instructions for installing and operating furnished with each pump.

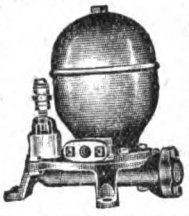
Acme Rotary Power Force Pump.



Will force water a horizontal distance of 200 feet and throw a solid stream 20 feet. An excellent pump for raising a large amount of water with minimum amount of power where lift is not over 15 feet and elevated tank into which water is forced not over 50 feet above pump. Reliable protection in case of fire. Driving shaft made long enough to allow use of balance wheel with handle so pump may be worked by hand when desired. Spout threaded for iron pipe at end and also at top where it connects to pump. Can be run at 200 revolutions per minute without injury, although 100 is recommended. One of the simplest and most satisfactory power pumps on the market. High speed permits belting direct to engine. If wanted with balance wheel and handle for hand power, allow $5.50 extra. Prices quoted do not include pipe or belt.

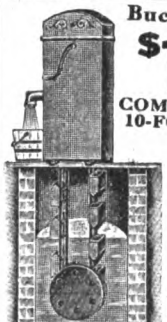
Let Our Simplex Hydraulic Ram Pump Water for You.

$11.75 AND UP

Our Simplex Hydraulic Ram will pump water from 20 to 120 feet above point where it is placed, depending upon height of fall of water to ram. It works continuously night and day.



Will elevate water to high tank or reservoir or will force it a long distance from the source of supply. Will lift water 4 to 10 feet for every foot of fall (difference in level) between water and ram. The ram lifts about one-seventh of the water which runs into it. Ram will not work with less than 2 feet of fall. We furnish all directions for installing. Better write and tell us just what conditions you have to operate a ram and we will prepare a special estimate. Ask for our Hydraulic Ram Circular 7429GCN, sent postpaid on request.

Shells Cannot Be Shipped by Parcel P

A good way is to buy in case lots and have come to you by freight. You then effect a great in carrying charges.

See approximate freight charges at bottom o for case lots.

Loaded Black Powder Shotgun Shells

An excellent grade. Very popular with many shooters.

Buy by the case.

You save in cost price and freight charges.

We guarantee every black powder shell against misfire, hang-fire or blowback. We use a special black powder of a hard grain. It burns rapidly and leaves very little residue. Case prices on full cases (500) of one load only. A case of 500 shells weighs approximately as follows: 12-gauge, 65 lbs.; 10-gauge, 75 lbs.; 16-gauge, 53 lbs.; 20-gauge, 48 lbs.

Shells Cannot Be Shipped by Parcel Post.

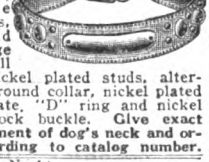
DOG COLLARS

How to Measure.

Do not measure the old collar, but measure the dog's neck with tape measure as shown in illustration. Draw the tape measure tight around the dog's neck, as illustrated, and give us the exact measure. The measurements of our collars are first hole or inside hole measurements, with two extra holes, or 1½ to 2 inches allowance for growing dogs. If your dog's neck measures 11 or 12 inches, our 11-inch collars will fit, etc. This illustration shows a dog's neck measuring 14 inches, in which case our 14-inch collar will fit, with plenty of room for enlarging. **Prices on collars do not include locks. Name engraved on collar for 5 cents a letter. Write plainly name to be engraved.**



Studded Collars.

Fine black grain leather, doublerow of round brass plated studs with turquoise studs in polishings; sheepskin chamFitted with brass plated ring and lock buckle. **asurement of dog's neck catalog number of the r nearest to length**

Fishing Tackle

TROUT FLIES.

We have selected only such flies as we know from experience to be killers. Our flies are excellent in beauty, quality and workmanship. We do not carry the very cheap grade of trout flies.

A Grade, high quality, with Pennell turned eye which prevents the feathers and silk wrappings from becoming loose and whipped off. Hollow point sneck hook, full silk body with divided wings, and silk tied to first quality selected full length clear round gut.

B Grade, a good grade silk body fly, plain wings, well finished, tied to full length clear gut on file point sneck hook.

NOTICE—When ordering give number of fly, also size of hooks wanted, and whether A or B Grade. We do not sell less than one-half dozen flies nor less than two flies of one kind and size of hook. Shipping weight, per dozen, 2 ounces.

FISH

Why You Should Buy Your Fish Nets of Us.

We hang our seines on a basis of one-third in both length and depth, which means that our nets are hung with a sufficient fullness to allow a full one-third for slack or bag. The illustration shows a 1-inch square mesh. All sizes of mesh given are square, so that a 1-inch square mesh measures 1 inch on each of the four sides or from knot to knot and 2 inches from point to point of mesh when stretched.

Netting hung in the customary diamond shape requires the following number of meshes to every foot, allowing one-third for slack.

1 -inch netting	9 meshes to a foot
1½-inch netting	6 meshes to a foot
2 -inch netting	4½ meshes to a foot
3 -inch netting	3 meshes to a foot

A seine 6 feet deep, 1-inch mesh, will have 54 meshes in depth; 8 feet deep, 1½-inch mesh, will have 48 meshes in depth. Our meshes are absolutely true to size. High quality seine twine, the yarn used being of an especially high quality cotton. To determine the size of twine, unravel the strands and count the number of threads.

Superior Brook and Creek Nets.

Furnished only in sizes listed below. **Not mailable.**

Carried in stock. First or large hoop is made D shape to set flat on bottom of stream. Made with full amount of netting around hoops and in throats. Double throat. Meshes true to size. High quality full size cotton twine. Nets set in stream require no wings. Will catch and hold medium size fish. Shipping weight, 5 to 8 pounds.

Superior Straight Drag Seines.

Our straight seines are hung on a good grade of tarred sisal rope with a single line at top and double lines at bottom. The double lines have one rope right lay, the other rope left lay, which prevent the bottom lines from rolling up. The size of rope used on seines 75 feet and less is 9/16 inch. On seines over 75 feet, ⅝ inch in diameter. When ordering seines be sure to give **catalog number, and state length, depth and size of mesh wanted.**

Fittings.

On seines 4 and 5 feet deep, 2½x3-inch floats are used, spaced 3 feet apart; on seines 6, 7 and 8 feet deep, 2½x4-inch floats are used, spaced 3 feet apart; and on seines 10 and 12 feet deep, 3x4-inch floats, spaced 3 feet apart. All depths are fitted with No. 9 leads, spaced 18 inches apart, one under each float and one between.

This applies to seines 100 feet or less, whereas on seines over 100 feet in length and 8 feet in depth and deeper, we would use 3x4-inch floats, spaced 3 feet apart.

Shipping Weights of Seines.

A seine 4 feet deep, 1-inch mesh, made of No. 12 twine, weighs (packed) 8 ounces to the running yard; 4 feet deep, ¾-inch mesh, No. 12 twine, 12 ounces to the running yard; 6 feet deep, 1-inch mesh, No. 12 twine, 10 ounces to the running yard; 10 feet deep, 1-inch mesh, No. 12 twine, 1¼ pounds to the running yard.

Seines made of No. 16 twine weigh one-third less than seines made of No. 12 twine. Weights on other sizes in proportion.

Superior Hoop Nets and Fyke Nets

Our Fyke and Hoop Nets are made with ample amount of netting around the hoops, which makes a perfect, serviceable net, so that when in use the netting will not draw in between the hoops. Made of first quality cotton twine. The wings are hung on rope, fitted with floats and leads ready for use. Hoop nets are wrapped for shipping.

If Fyke Net Web is wanted, with wings, without hoops, deduct one-third from price of complete Fyke net.

If Tarred Hoop Net is wanted, add one-third more to prices shown. Tarred nets cannot be returned, if sent as ordered. Allow four to six days to ship.

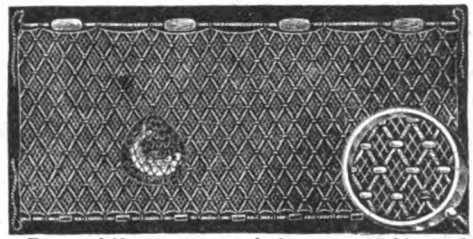
NETS



Superior Trammel Nets

erior Trammel Nets are fitted with an extra quantity de netting. We allow 50 per cent more inside netting th than the depth of the net. For instance, in a net deep the inside netting is 9 feet deep, hung measure, you 3 feet extra netting to pocket the fish. The e netting and inside netting are both hung on one- basis in length, so that the netting for a 100-yard 150 yards stretched, hung into 100 yards. We list mber of mesh in depth of inside netting so you can e exact depth you will get in your net. Our nets are with ample amount of floats and leads.

use a good quality of linen netting in all four trammel nd the outside netting is all made of No. 16 cotton wine. Shipping weight, per yard, 10 ounces.

sizes of linen thread we use are as follows: 2½ in ¾-, 1¼-inch mesh; 1⅗ in 1½- and 1¾-inch mesh; 1⅕ nd 2¼-inch mesh; 1⅖ in 2½-inch mesh and larger. tside netting or walling is made of No. 16 soft cotton wine.

also supply the inside filling for old nets and if you rise the size of your old net, we shall be glad to give estimate of weight and cost.

Trammel Nets in sizes marked ★ are carried in stock for immediate shipment. Allow four to six days to ship other sizes. We cannot furnish shorter than 5 yards. If longer or special lengths are wanted, order two nets which you can tie together.

can furnish deeper Trammel Nets on which we will gladly quote prices.

Rigged Complete. Ready for Use.

Linen Gill or Set Nets.

All our Gill Nets are hung on one-half basis, or, in other words, in a net 100 feet long we would hang 200 feet of stretched netting. The size of twine used is No. 30/3 linen in all sizes of mesh except 1-inch, which is No. 40/3. We find that No. 30/3 linen twine is the best size for 1¼-inch mesh and larger for ordinary use, as it is strong, durable twine and will give satisfaction. We also furnish gill nets made of sturgeon twine Nos. 1¾, 1⅛ and 1⅛, in 3-inch mesh and larger. Prices quoted on application. Sizes marked ★ are carried in stock for immediate shipment. Allow four to six days to ship other sizes. We do not furnish gill nets shorter than 5 yards. If longer lengths or special lengths are wanted, order two nets which you can tie together. Shipping weight, per yard, 6 ounces.

See Pages 909 to 911 for Fishing Tackle.

Tents

FULTON BRAND TENTS and COVERS are made only from full
standard 29-inch duck. The standard way of measuring the weight of duck is
the weight of a yard 29 inches wide. Thus our 8-ounce duck will weigh 8 ou
the yard, 29 inches wide, and our 10-ounce duck, 10 ounces to the yard, 29
wide, etc. Occasionally you may find that some firms will specify the weight
measured by the square yard.

For the purpose of comparison with our qualities and prices, it is well
to know that if we measured our duck by the square yard, our 8-ounce duck
be rated as weighing over 9½ ounces; our 10-ounce duck over 12 ounces, a
12-ounce duck over 14½ ounces.

Fulton Brand Canvas Goods are sold exclusively by us, and by reason
being made in our own factory and under close supervision, we are enabled to
maintain the quality.

Weight of Tents is given above in 8-ounce with poles; 10-ounce will weigh about one-quarter more than 8-ounce; 12-ounce about one-half more than 8-ounce. The weight may vary slightly, as the poles do not always run alike.

We Carry in Stock all sizes of wall tents from 7x7 to 12x18 feet, and immediate shipment can be made. On all other sizes allow three to five days' time to make; in June and July allow from six to twelve days. If a stock tent is ordered with a fly, the order requires special handling. Allow four to eight days for making.

If Poles Are Not Wanted deduct 5 per cent of the price of 8-ounce tent.

We do not ship made to order tents C. O. D.

A Sod Cloth on a tent is a strip of canvas 9 inches wide, sewed to the bottom of the ends and sides of the tent, upon which are placed stones or earth to keep out wind, flies, etc. In measuring amount of sod cloth required, measure distance around tent. A 12x16-foot tent would require 56 lineal feet of sod cloth. Can be had sewed on or separate as desired.

6N7617½—Per lineal foot..... **5c**

Extras for Fulton Wall Tents.

A Tent Fly is an extra removable roof spread over the top of tent and is staked down, leaving an air space between it and tent. The extra roof provides additional protection from cold and dampness. Buy a tent fly if the roof of tent leaks. The cost of a fly is one-half the price of a wall tent of corresponding size and weight of duck. For example, a fly for a $20.00 wall tent would cost $10.00. Necessary stakes and ropes always included without extra charge. Allow three to six days for making. **In ordering specify 6N7658½.**

Extension Fly covers not only the roof of the tent, but extends in front, forming a shade or awning. The cost of an extension fly is in the same proportion as the length of the extension is to the length of the regular fly. A 6-foot extension on a fly 12 feet long would increase the length of the fly one-half and would increase the cost a like amount; in other words, if the cost of a fly 12 feet long were $10.00, the cost of a 12-foot fly with a 6-foot extension would be $15.00. Allow three to six days for making. **In ordering specify 6N7674½.**

When Higher Wall than regularly quoted is wanted, add 5 per cent of the cost of the tent for each additional 6 inches. Allow three to six days for making. **When ordering specify 6N7604½.**

Extra Door at back end of tent is furnished without additional charge on all tents over 16x24 feet if wanted. On all tents under this size where extra door is wanted we make an additional charge of 60c. **In ordering specify 6N7615½.**

Window and Ventilator.

Can be instantly attached to any style tent by slitting seam open about 10 inches and clamping the ventilator in place. This ventilator has an oval opening 8½ inches long and 5¼ inches wide. Made with a removable mosquito screen and removable transparent window. These ventilators are usually placed in the front and rear gable ends of tent. Shipping weight, ¼ lbs.

6N7651..... **$1.05**

Stovepipe Hole Protector.

Galvanized sheet metal. Can be placed in any seam of the tent without special fitting or sewing. Comes in 4, 5 and 6-inch hole. **State which is wanted.** Sold separately at same price. Shpg. wt., 1 lb.

6N7650..... **55c**

6N5481—Same as above. Size, 3-inch hole **55c**

Automobile Tourists' Tent.

Can be set up along the side of any car. Has a front piece that goes over the roof of car and ties to wheels on opposite side or can be stretched out straight. No poles required. A very serviceable, compact tent, amply large for all practical purposes. It is 7 feet wide (side against car) and 7 feet in depth. When folded, makes a package 28 inches long by 15 inches wide. If larger quarters are wanted we recommend the purchase of two tents, using one on each side of car. Carried in stock ready for immediate shipment. Weight, 8-oz., 22 lbs.; 10 oz., 28 lbs.; 12 oz., 33 lbs.; 10 oz. khaki, 28 lbs.

6N7643¼—**State size wanted.**

6 ft. 6 in.	$12.08	$14.72	$17.33	$16.88

Children's Play Tent.

Just what the children like. Invites healthful, joyful outdoor play. Ideal for yard or lawn. The front of the tent, as illustrated, can be raised as an awning or let down, closing it on all four sides. Made without wall, the roof sloping direct from ridge to ground, as shown. Material is a good weight, plain white drill; well finished throughout, the same as a regular tent. Size, 6 feet wide by 6 feet long. Height, 5½ feet. Height of extra poles used to support the awning, 4½ feet. Carried in stock for immediate shipment. Weight, packed for shipment, 26 pounds.

6N7641¼—Including poles, ropes and stakes..... **$7.20**

The Fulton Brand Miners' Tents.

Used largely by miners and prospectors, as they can be very conveniently carried and require but one pole for erecting. May also be used as play tents for children. The weights which we give include pole. If wanted without pole deduct 20 cents from price quoted. Carried in stock ready for immediate shipment.

6N7622¼—**State size wanted.**

Lawn Swings and Hammocks

"Ideal" Hammock Couch.

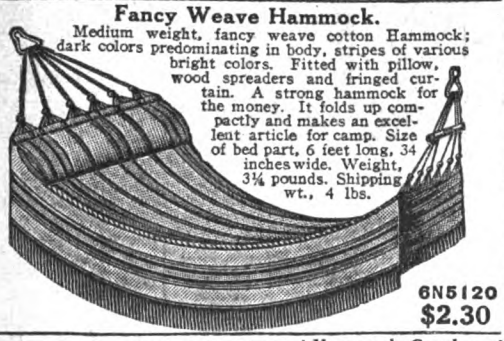
"Ideal" because it is suitable for the porch or lawn. The couch is 72 inches long and 24 inches wide, built on an angle steel frame. Fitted with full tufted covered excelsior and cotton mattress over a wire link fabric spring. The ends are built up with helical springs, giving the soft comfortableness sought in furniture of this kind. The added features which assure satisfaction are the padded back rest and adjustable head rest on the couch and the movable canopy which may be thrown up and back affording sunshine or shade as desired. The couch and canopy are covered with an extra quality dark tan drill and fringed curtain. A very pretty combination forming a pleasing contrast with the lawn green finish of the frame.

6N5914¼—Couch only. Shipping weight, 55 lbs. **$9.95**
6N5918¼—Stand only. Shipping weight, 45 lbs. **3.95**
6N5915¼—Canopy only. Shipping weight, 12 lbs. **3.40**

Comfort Hammock Couch.

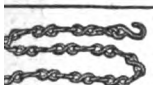
Same as Ideal Hammock Couch described above with the exception of covering which is an extra quality gray and white striped 8-oz. army duck. This couch can be used on stand and with canopy described above. Shpg. wt., 55 lbs.

6N5919¼ **$12.75**



Our "Leader" Hammock.

Made from good weight, plain weave fabric in a popular tartan plaid effect, pleasing colors. The heavy, hard spun cotton yarn used in this hammock gives it good wearing qualities. Full fringed curtain, large upholstered throwback pillow. Good weight rope, varnished wood foot spreader, concealed head spreader. Size of bed part, about 72x34 inches. Shipping weight, 6½ pounds.



6N5104¼ **$3.25**

Fancy Weave Hammock.

Medium weight, fancy weave cotton Hammock; dark colors predominating in body, stripes of various bright colors. Fitted with pillow, wood spreaders and fringed curtain. A strong hammock for the money. It folds up compactly and makes an excellent article for camp. Size of bed part, 6 feet long, 34 inches wide. Weight, 3¼ pounds. Shipping wt., 4 lbs.

6N5120 **$2.30**

Hammock Chains.

Weather resisting hammock and couch chains, with hook at both ends. Length, 6 feet. Weight, per pair, 2¾ pounds. Shipping weight, 3 pounds.

6N5122—Per pair.. **43c**

Hammock, Couch and Porch Swing Hooks.

Tinned, ⅜ inch in diameter. Length, over all, 2½ inches. To screw in ceiling. Shipping weight, 10 ounces.

6N5123—Pair **10c**

Insulated Jug.

Ideal for touring, camping, fishing and for the farm or shop. Will keep liquids hot or cold 7 to 8 hours. Outer casing of sheet steel, and inner casing of earthenware, cork stopper, wide mouth. Capacity, about 1 gallon. Sanitary, and can be very easily cleaned. Shpg. wt., 12 lbs.

6N4936 ..... **$2.90**

Duluth Pack Sack for Hunters, Explorers or Campers.

Galvanized Steel Flat Bottom Fishing and Pleasure Boat. Built of standard quality 20-gauge galvanized steel. All joints double seamed and heavily soldered. Coated with two coats of paint in battleship gray color. Two large air chambers, one in bow and one in stern, will keep boat afloat when filled with water. Well braced on inside with angle iron 1x1x⅛ inch thick. Also reinforced all around top with angle iron. Not affected by sun or weather. Specially braced for outboard motor. Has a steel keel which is securely fastened to bottom of boat from stem to stern, which helps to guide boat and also prevents bottom from being scraped when pulled up on stone or gravel shores. One pair of painted copper tipped oars, fitted with oar plates and North River oarlocks. The 14 and 15-foot boats are fitted with two pairs of sockets. Pulley at bow of boat for anchor rope. When storing away turn boat upside down. **Shipped from factory in INDIANA.**

Extra for section wood flooring in boat. Shpg. wt., 30 lbs..**$2.30**
Extra for additional coat of paint, any color..... **1.85**
Extra pair of oars, painted and fitted with oar plates and horns **3.75**
Lettering on boats in 2-inch letters, extra, per letter, 5 cents.

Build your own boat and save money on labor, freight and hauling. We furnish the material. All you need is a hammer and screwdriver. The boats, when put together, are safe, comfortable and easy rowing. When you buy a boat ready made, you pay three or four times first class freight or express charges. Buying your boat knocked down, as above, means that all you have to pay is second class freight rate, which in itself is a very considerable saving.

The lumber we furnish is selected, seasoned material from our own yards, of the proper thickness, with strong reinforcements. The stem is hardwood; the stern is reinforced with extra brackets and has a plate board attached for outboard motor. The rear seat is extra wide. Bottom is in three sections, calked and reinforced with shaped strips. Everything necessary, including nails, screws, calking cotton and oar sockets, with one pair of copper tipped oars with plates and oarlocks attached. The 14, 15 and 16-foot boats are fitted with two pairs of sockets. The materials are all smoothly finished, with one coat of paint. Full directions for assembling the boat accompany each shipment. **Shipped from factory in OHIO.**

6N5082—Per pair..... **$1.17**

How to Measure for Ice Skates.

Note—Women's skates are not made to fit on shoes with French heels or high military heels.

State length of shoe in inches measured as per accompanying illustrations—men's and boys' shoes as indicated, 1 to 2, and women's and children's, 3 to 4. Do not order skates by number. We often receive orders reading like the following: "Send me a pair of skates No. 9." We do not know whether it is for a child's No. 9 shoe, a man's No. 9 shoe or a 9-inch shoe. We cannot fill orders unless the length of the shoe is given in inches; measured as outlined. The lengths in which we list the various skates shown on this page do not mean lengths of runners, but lengths of top plates on which the shoe sets. By measuring in accordance with these instructions you will get a proper fit.

Women's Hockey Skates With Shoes Attached.

High shoes of soft, pliable leather, reinforced with tape at inside; lined tongue and soles; strap. Canadian pattern rounded heel hockey skates. Nickel plated polished. Come in full only, 3 to 7, inclusive. **State size of shoe when ordering.** Shipping weight, 6 pounds.

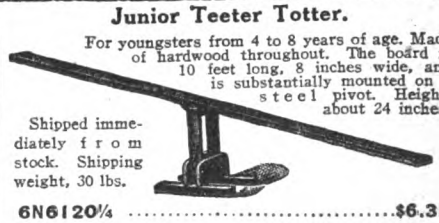
Playground Slides

ke the Children Happy and Healthy.

r equipment our Sporting lbs.,568GCN



Portable slide, constructed throughout of well seasoned hardwood, thoroughly coated with green paint. Ladder is built with steps of hardwood, strongly put together, and provided with a steel pipe railing. Bottom or bed of the slide is sheet steel. This type of slide is "fast" and will withstand the weather. The hinge arrangement connecting the slide and ladder makes it compact and easy to set up or take down.

GOLF GOODS

Glencoe Golf Clubs.
These clubs are branded especially for us; in all other respects they are the same as one of the most popular makes of clubs usually sold elsewhere for considerably more money. Patterned after the most popular professional models. First class in every respect. The heads of wood clubs are made of selected persimmon, turned, polished and well finished. The shafts are of selected second growth hickory with calf leather grips. Our irons are made of fine quality steel, drop forged, highly finished and have second growth hickory shafts with calf leather grips.

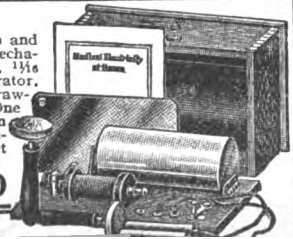
MEDICAL BATTERIES

Medical Batteries are in extensive use for the relief of certain diseases and disorders. Their advocates are enthusiastic over the possibilities for relief resulting from the proper use of these machines. We advise consultation with a physician before placing an order, so that the purchaser may be sure to order the particular machine best suited to the purpose for which it is to be used. We guarantee these appliances to be high grade in every respect.

Triple Cell Medical Battery.

Polished oak case, about 9¾x7¾x8¼ inches. Three dry cells. Faradic coils, 1¼ inches in diameter. Circular carbon rheostat regulates current. Four-point switch permits one cell, two cells or three cells to be used at a time. Wheel rheotome for interrupted current, adjustable for slow or rapid interruptions. Metal parts all nickel plated. One pair conducting cords with tips, pair insulating wooden handles, pair nickel plated metal handles, pair sponge electrodes, one nickel plated foot plate, hair brush and an instruction pamphlet included. Otherwise same as 57N9105. Shipping weight, 20 pounds.
57N9110¼—Complete with accessories and three dry cells.....**$13.55**



Double Cell Medical Battery.

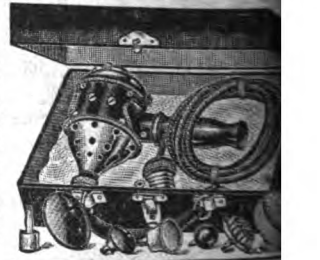
Polished oak case, about 8¾x6¼x8 inches, with compartment in cover for accessories and compartment in base for two dry cells. Faradic coil, 1⅛ inches in diameter, with locknut, spring vibrator and adjustable ball attachment for slow vibration. Intensity of current regulated by withdrawing shield. Three-point switch. Pole changer for changing the polarity or direction of the current. Metal parts all nickel plated. One pair conducting cords with tips, pair insulating wooden handles, pair nickel plated metal handles, pair sponge electrodes, nickel plated foot plate, hair brush and instruction pamphlet included. Shipping weight, 13 pounds.
57N9105—Complete with accessories and two dry cells.....**$8.95**

For extra Batteries see 57N8635 on page 943.

Single Cell Medical Battery.

Polished oak case, about 10x6¼x5 inches, opening top and bottom. Lower compartment for dry cell and battery mechanism, upper compartment for accessories. Faradic coil, 1 1/16 inch in diameter, with locking device and spring vibrator. Intensity of current regulated from mild to strong by withdrawing shield from core of coil. Metal parts nickel plated. One pair conducting cords with tips, one pair insulating wooden handles, pair nickel plated metal handles, pair sponge electrodes, nickel plated foot plate and an instruction pamphlet included. Shipping weight, 7¾ pounds.
57N9100—Complete with accessories and one dry cell.....**$5.80**

VIBRATORS



Large Vibrator.

Vibrator for 104 to 115-volt direct or alternating circuit. Gives a rubbing motion. Switch and speed regulator conveniently located. Constructed for more various uses than the smaller outfits and more applicators furnished, as shown: One facial, one scalp, one button, one ball, one large hard disc, one soft rubber sponge, one soft rubber ball, one hard rubber applicator, one spinal, and one curved applicator; also one jar of massage cream and one oil can. In attractive leatherette case with silk lining. Size of case, about 13¾x10¼x4½ inches, equipped with a lock. Shipping weight, 9 pounds.
57N9127.....**$24.50**

Same as above, except for 32-volt circuit. Amount of current consumed is .5 ampere.
57N9128.....**$24**

General Purpose Vibrator.

For 104 to 110-volt circuit. Gives heavy vibration. Speed regulator on top of machine. Complete with six applicators, as shown: One button, one ball, one soft rubber scalp, one soft rubber face, one large rubber disc, one soft sponge applicator, one oil can. In imitation leather covered case, with an electric conductor cord. Shpg.wt.,6 lbs.
57N9125.....**$13.35**

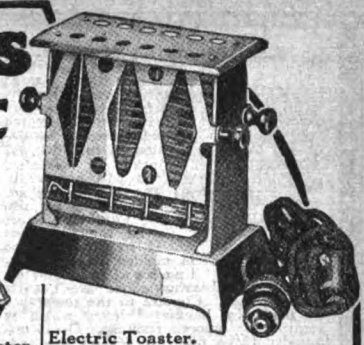
Same as above, except for 32-volt direct circuit. Amount of current consumed is .5 ampere.
57N9126.....**$14.85**

Excellent Vibrator for Home Use.

Popular priced vibrator, packed in a neat case. Size, about 9½x6½x4 inches. Especially recommended for home use. You will find it a very satisfactory vibrator. The motor and equipment are good quality. Furnished with four applicators, as shown: One facial, one scalp, one button and one ball vibrator. Operates on 104 to 115-volt direct or alternating circuit. Shipping weight, 4½ pounds.
57N9121.....**$8.65**

Low Volt Vibrator, same as 57N9121 and constructed to operate on 32-volt private lighting plant circuit. Amount of current consumed is 5 ampere.
57N9123.....**$10.76**

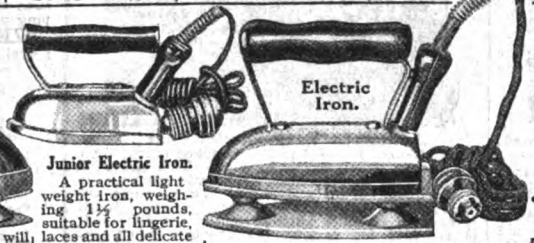
Electric Accessories for Home comfort



Standby Percolator.
Useful and decorative. Made of aluminum, highly polished. Special heat storage plates retain heat for a long time. Easily cleaned and sanitary. 9¾ inches. Capacity, 6 cups. Cool handle. Six feet of cord with plug. Operates on current of 105 to 115 volts. Shpg. wt., 4 lbs.
57N8004—Standby Percolator.....**$5.75**
For other Coffee Percolators see Nos. 1002 and 1005.

Electric Stove or Hot Plate.
Heating surface, 5½ inches in diameter. 660-watt size and is equipped with a three-heat switch, giving full, medium or low heat. 5½ inches high, rigidly constructed, nickel plated and polished. Equipped with 6 feet of cord and separable plug. Suitable for usual city circuit of 105 to 115 volts. Shpg. wt., 9 lbs.
57N8027¼.....**$6.25**

Electric Warming Pad.
For all cases where heat applications are required. Switch controls heat to low, medium or high. Size, 12x15 inches. Covered with elderdown. 10-foot connecting cord with heat control switch and separable attachment plug to fit any lamp socket. Shpg. wt., 2½ lbs.
57N8056—110-volt service circuit type.....**$6.35**
57N8057—32-volt farm plant type.....**$6.70**



Combination Electric Stove and Flat Top Toaster.
A dainty and serviceable table stove, all metal construction, beautifully nickel plated. Stove is 9 inches long, 5 inches wide and 3 inches high, large enough for two slices of bread. Complete with cord and universal plug. Operates on usual city circuit of 110 to 115 volts. Shipping wt., 3 pounds.
57N8022.....**$2.03**

Electric Toaster.
A high grade toaster which will take any size bread. Toasts quickly and evenly. Low current consumption. Nickel plated finish. Furnished with 6 feet of cord and separable attachment plug. Shipping weight, 3 pounds.
57N8018—Toaster for 105 to 115-volt current.....**$4.64**
57N8019—Toaster for 32-volt lighting plants.....**$4.99**

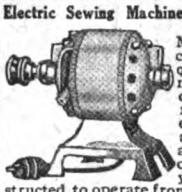
looking, efficient iron which will very satisfactory. The heating of this iron is absolutely guaranteed many years of service. Furnished with stand. Complete with 6 feet feed through switch and plug. for usual city circuit of 105 to Weight of iron, 6 pounds. weight, 10 lbs.
3037.....**$3.92**

Junior Electric Iron.
A practical light weight iron, weighing 1½ pounds, suitable for lingerie, laces and all delicate articles. Its compactness and light weight make it especially desirable when traveling. Operates on city circuit of 105 to 115 volts. Shpg. wt., 2 lbs.
57N8040..**$3.47**

Size, 6 pounds. Heat storage capacity for all average work. Nickel plated. Ebonized handle, separate heatproof stand, 6-ft. connecting cord and separable attachment plug to fit any lamp socket. Shipping wt., 7 lbs.
57N8047—110-volt service circuit type.....**$3.55**
57N8048—Same as above but for 32-volt circuit.....**3.90**

High grade neat appearing waffle iron. Heating surface is full size, makes waffles measuring over 7 inches, and browns both sides evenly at the same time. The aluminum plates require no greasing. Operates on usual city circuit of 105 to 115 volts. Size, 7¾ inches in diameter, 4½ inches high. Shipping weight, 6 pounds.
57N8030
Waffle Iron.....**$8.95**

Electric Table Stove.
This Stove broils, boils, steams, fries or toasts. Handsomely finished in polished nickel plate. Three pans are furnished; also broiler rack, cups and cup rack. The pans are 7¾ inches square and ½ inch, 1¼ inches and 1¾ inches deep, respectively. The three-heat switch permits the use of full, medium or low heat. Furnished with 6 feet of cord and separable attachment plug. Shpg. wt., 10 lbs.
57N8033—Electric Table Stove for 105 to 115-volt circuit.**$10.93**
57N8034—Same as above, but constructed for 32-volt circuit.**11.45**



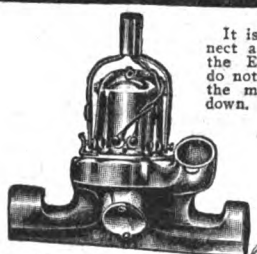
Electric Curling Iron.
A very neat, compact curling iron that heats quickly. Made of steel, nickel plated shed. 57N8062 for usual city lighting circuit of 105 to 115 volts; for 32-volt private lighting plants. Be sure to select the cor- for your circuit. Shipping weight, 8 ounces.
8062—105 to 115-volt circuit.....**$2.75**
8063—For use on 32-volt.....**3.15**

Electric Curling Iron.
A good grade curling iron at a very low price. Seamless tube barrel, 5/16 inch thick and 6¼ inches long, polished nickel plated. Good grade wood tted with flexible cord and two-piece plug. Operates on usual city 105 to 115 volts. Shipping weight, 8 ounces.
8061—Electric Curling Iron.....**$1.44**

For other Hair Curlers and Wavers see pages 147 and 556.

Electric Sewing Machine Motor.

This Motor can be quickly attached to your sewing machine without screws, bolts or clamps and without harming the machine in any way. The operation of the friction pulley against the balance wheel operates the machine and the speed can be easily regulated to meet your requirements. Is not constructed to operate from dry batteries. The motor and control need never be in the way, because they can be removed when the machine is not in use. It operates on city current of 105 to 115 volts and the cost for the electric current is very small. A suitable cord and plug are furnished so they may be conveniently attached to the lamp socket. Shipping weight, 10 pounds.
57N9820—Electric Sewing Machine Motor.....**$14.95**



Reflector Type Radiator.
An attractive and practical heater. Construction of heating element and reflector makes heater very efficient in heat radiation. Heater tilts on swivel base to any desired angle. Neatly finished in copper, with the back of reflector and the base in green enamel. Fitted with 7 feet of cord, feed through switch and attachment plug. For use on usual city circuit of 105 to 115 volts. Over all size: Height, 18 inches; diameter over all, 13 inches. Shipping weight, 10½ pounds.
57N8076¼—Reflector Type Radiator...**$8.10**

Sweep the Electric way

$29.65

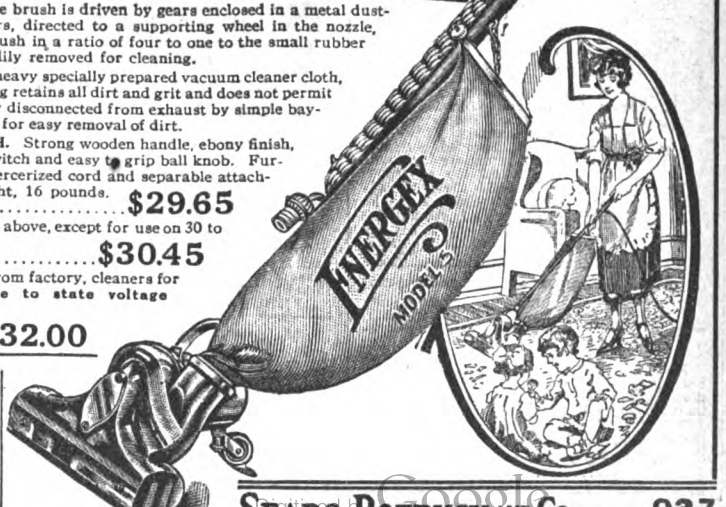
Order an ENERGEX MODEL 5 **Vacuum Cleaner**
It Combines Quality and Price

It is easy to connect attachments to the Energex. You do not have to turn the machine upside down.

This new, bigger and better Energex Cleaner embraces the two-fold cleaning principle of powerful gentle sweeping of a positive rotating brush operating of the motor. The strong suction extracts all deep laden dust and grit. The revolving full bristle brush clinging lint, litter, hair, threads, ravellings, etc., without most delicate rug or fabric. The horizontal underslung nits of the cleaner under furniture, radiators, ght weight and swivel rear caster make it easy to operate. rubber tired wheels throughout, it will not mar or most highly polished floor. Wheels inside the nozzle eakage and permit of thorough cleaning in corners. as are as follows:

AND FRAME. Made of highly polished cast aluminum is 13 inches long.

Motor is 110-volt Universal type (will operate on C.), suitable for use on any circuit of 105 to 120 volts. and equipped with phosphor bronze bearings. It is indestructible and with proper care, cleaning and a few at intervals, should last many years. Requires little operate. Motor housing is of cast aluminum polished to



ON FAN. Suction fan is attached directly to motor shaft, cast aluminum, accurately balanced.

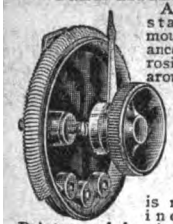
BRUSH. The soft bristle brush is driven by gears enclosed in a metal dust-proof housing. These gears, directed to a supporting wheel in the nozzle, operate the spiral bristle brush in a ratio of four to one to the small rubber tired wheel. Brush is readily removed for cleaning.

DUST BAG. Made of a heavy specially prepared vacuum cleaner cloth, chemically treated. This bag retains all dirt and grit and does not permit of any dust seepage. Easily disconnected from exhaust by simple bayonet bag ring. Opens at top for easy removal of dirt.

HANDLE AND SWITCH. Strong wooden handle, ebony finish, fitted with special trigger switch and easy to grip ball knob. Furnished with 22 feet black mercerized cord and separable attachment plug. Shipping weight, 16 pounds.
57N9800¼.....**$29.65**
57N9801¼—Same as above, except for use on 30 to 32-volt farm lighting plants.....**$30.45**

We can also ship, direct from factory, cleaners for special voltages. **Be sure to state voltage required.**
57N9803½
Special Cleaner.....**$32.00**

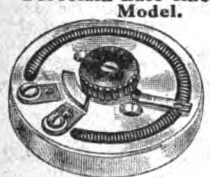
Attachments for Energex Model 5.



These attachments are priced at a very low figure to enable our customers to get the full benefit of the cleaners at the least expense. Their many features, such as the cleaning of mattresses, walls, draperies, upholstery, etc., make them particularly useful. Metal parts are aluminum. Hose is rubber, cotton

Other parts are hard fiber. Shipping weight, 4 pounds.
802—Per set of 5 pieces.....**$8.80**

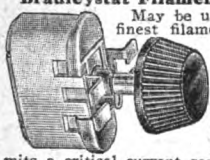
Digitized by Google



Panel Mounting Rheostat.

A specially made rheostat for back panel mounting only. Resistance is special non-corrosive alloy, mounted around Bakelite insulation, ¼ in. thick, 2¾ inches in diameter, and will not creep. The bolt is 1¼ in. long, which permits mounting on a panel of any thickness from ⅛ to ¼ in. Knob is molded Bakelite, 1⅜ inches in diameter. Pointer and bearing collar are heavily nickel plated. Contact to the resistance is made by laminated lever which is remarkably smooth running. Gives unusually close filament temperature adjustment on either 4 or 6-volt vacuum tubes, and is suitable for filament control of 5-watt transmitter tubes. Resistance, 8 ohms; capacity, 3 amperes continually. Shipping weight, 8 ounces.

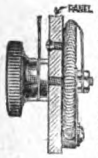
57N9422—Panel Mounting Rheostat, complete with bushings and screws. **$1.34**



Porcelain Base Rheostat, New Model.

Used to regulate battery current. Used with small motors, miniature lamps, detector batteries, etc. Resistance, 10 ohms; capacity, 3 amperes continually; 4 inches in diameter, 1⅜₁₆ inch thick. Shipping weight, 1½ pounds.

57N9277 ..... **67c**



Bradleystat Filament Control.

May be used where the finest filament adjustment is necessary. Resistance controlled by varying contact pressure of graphite discs and screw adjustment permits a critical current regulation. Very strong construction and will handle a 1½ to 2½-ampere current. Porcelain case encloses graphite discs; shaft fitted with Bakelite knob. Shpg. wt., 1 lb.

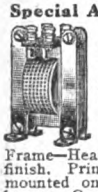
57N9275 ..... **$1.74**

Junior Panel Rheostat.

Designed for compact panel mounting. Resistance unit mounted on Bakelite disc 2 inches in diameter; 4 ohms resistance; carrying capacity, 1½ amperes. An "off" position is provided, obviating the necessity of a filament switch. Furnished complete with molded 1⅞-in. Bakelite knob, shaft, nickel plated pointer and supporting screw.

57N9371—Shpg. wt., 5 oz. **77c**

Universal Amplifying Transformer.

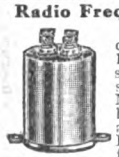


Designed for use with any tube on the market, including the new types. High grade construction throughout. Specifications: Primary resistance, 900 ohms (approximately). Secondary winding, 15,000 turns No. 40 B. & S. gauge enameled wire. Secondary resistance, about 5,000 ohms (approximately). All insulation is varnished cambric and silk. Binding posts are put on Bakelite top. Cores are made of .007 silicon steel. Frame is heavy brass, stamped; brushed finish. Shipping weight, 2½ pounds.

57N9732—Universal Amplifying Transformer **$3.04**

57N9733—Coil and Core only. Shipping weight, 2 pounds **$2.28**

Special Amplifying Transformer.



High grade in every detail; cores are made from .007 silicon steel. Insulation is varnished cambric and silk. Method of winding cuts down distributed capacity to a minimum, and reduces energy loss in transformer. Voltage Transformation Ratio—3.1. Frame—Heavy brass, stamped; brushed finish. Primary and secondary terminals mounted on Bakelite on top of transformer. Over All Size—3 inches high; 1⅞ inches wide. Shipping weight, 1 pound.

57N9503—Special Amplifying Transformer **$5.10**

57N9504—Coil and Core only. Shipping weight, 2 pounds **$4.33**

Radio Frequency Transformer.

In radio frequency circuits this transformer has given satisfactory results, using as high as four stages of amplification. Mounted in nickel plated brass case, may be used in any standard tube socket. Efficient on wave lengths from 150 to 550 meters. Shipping weight, 1 pound.

57N9594—Radio Frequency Transformer **$2.95**

Radio For a more complete line of high grade apparatus, Write for our Radio Catalog 459GCN Sent postpaid on request

Detector and Amplifier Tubes.

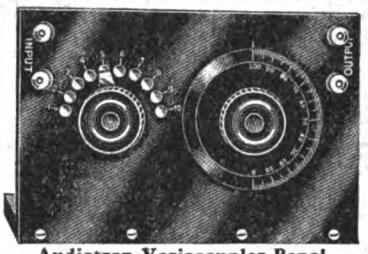
These tubes, as listed below, are the standard four-prong tubes for use with 6-volt battery. The detector tubes require about 22½ volts on the plate, and the amplifier, 45 volts or more, for maximum signal sensitivity. Detector tubes use 1 ampere and amplifier tubes ¼ ampere current. Shpg. wt., 1 lb.

NOTE: For a more complete description of the above tubes and the accessories for operating at maximum efficiency write for our Radio Catalog 459GCN.

Audiotron Tubes.

57N9650—Audiotron Detector Tube C-300. Each **$4.60**
57N9651—Audiotron Amplifier Tube C-301-A. Each **6.15**

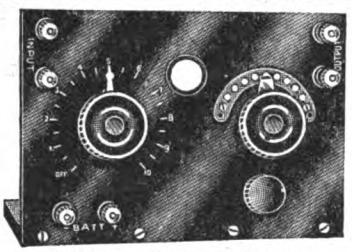
Radiotron Tubes.



57N9438—Radiotron Detector U. V. 200. Each **$5.00**
57N9540—Radiotron Amplifier U. V. 201A. Each **6.50**

Audiotron Variometer Panel.

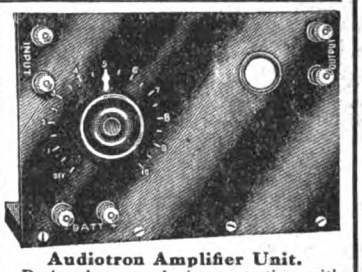
Variometer 57N9781 is supplied mounted on a Bakelite molded panel, 5x5x⅜₁₆ inch, with hardwood base, finished in black, 5x3x⅜ inch. The panel is the same height as the Audiotron Varicoupler and Detector 57N9652 Panel and the arrangement of the binding posts permits ready interconnection of panels to form any desired receiving combination. Shipping weight, 6 pounds.



57N9783 ..... **$8.22**

Audiotron Variocoupler Panel.

Variocoupler 57N9784 is also supplied mounted on a Bakelite panel, 5x7¼x⅜₁₆ inch. This panel is finished in glossy black and all lettering is white filled. Input and output binding posts are at opposite ends of the panel; special switch lever with Bakelite knob to match the dial knob is provided for varying the primary inductance. The wiring to the panel is of the approved bus bar type and all connections from the primary taps to the panel contacts are soldered. Hardwood base, 7¼x4x⅜ inch, is finished in black. Shipping weight, 6 pounds.

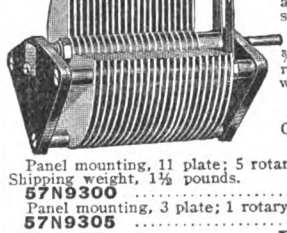


57N9786 ..... **$10.12**

Audiotron Detector Panel.

Surface is highly polished glossy black, and lettering and scales are molded in and filled with white enamel. Filament current controlled by Panel Rheostat, back mounted, and provided with an off position. Audiotron Potentiometer, connected across the storage battery, provides the close adjustment of plate potential. Grid leak is variable; grid condenser is back mounted and is the correct capacity for the new gas content detector tubes. Panel is 7¼ inches long, 5 inches high and ⅜₁₆ inch thick. Terminals at the back of the panel are provided with flexible leads for the B battery connection. Shipping weight, 5 pounds.

57N9652 ..... **$6.42**



Audiotron Amplifier Unit.

Designed to work in connection with Audiotron Detector Panel and is the same size as the detector unit. Panel is molded Bakelite and is fitted with special rheostat control for 301A tubes, tube socket and binding posts. We furnish this unit both with and without transformer, as many experimenters already have transformers which they could use in this set. This unit is especially designed for Cunningham Audiotron. Amplifier Tube, Type C-301A. Shipping weight, 8 pounds.

57N9570—Audiotron Amplifier Panel, without transformer **$4.53**

57N9571—Audiotron Amplifier Panel, complete with transformer **$9.64**

Laboratory Variable Air Condensers.

Plates made from No. 22-gauge hard steel aluminum. Spacers are turned from brass stock and gauged for accuracy. All insulation cut from grade M Formica sheet, ⅜₁₆ inch thick. Panel mounting type. We list them in two sizes, suitable for all classes of radio, telegraph and telephone work. Can be used on ⅛, ⅜₁₆ or ¼-inch panel. Panel mounting, 43 plate; 21 rotary, 22 stationary. Capacity, .001 MFD. Shipping weight, 2¼ pounds.

57N9298 ..... **$2.33**

Panel mounting, 21 plate; 10 rotary, 11 stationary. Capacity, .0005 MFD. Shipping weight, 1¾ pounds.

57N9299 ..... **$1.76**

Panel mounting, 11 plate; 5 rotary, 6 stationary. Complete with screws for mounting. Shipping weight, 1½ pounds.

57N9300 ..... **$1.45**

Panel mounting, 3 plate; 1 rotary, 2 stationary. Complete with screws. Shpg. wt., 1 lb.

57N9305 ..... **$1.14**

Portable Type.

Portable type, 43 plate; 21 rotary, 22 stationary. Mounted in oiltight sheet brass case, polished nickel plated finish. Size of case, 3⅝ inches high; 4¼ inches wide at base; 3⅞₁₆ inches at top. Capacity, .001 MFD. 0-100 degree satin nickel plated scale, black letters, Bakelite knob. Height over all, 4½ inches. Shipping weight, 3 pounds.

57N9292 ..... **$4.80**

Portable type, 21 plate; 10 rotary, 11 stationary. Mounted in oiltight sheet brass case, polished nickel plated finish. Size of case, 2½ inches high; 4¼ inches wide at base; 3⅞₁₆ inches at top. Capacity, .0005 MFD. 0-100 degree satin nickel plated scale. Bakelite knob. Height over all, 3½ inches. Shipping weight, 2 pounds.

57N9294 ..... **$3.80**

Fixed Condenser.

Made of hard rubber composition with nickeled binding posts. A neat little condenser which will increase the efficiency of the station. It is often used to shunt across the receivers. Terminals are fitted with special cord tip clamps. Size, over all, 2⅝x1½ inches. Capacity, .0016 MFD. Shpg. wt., 5 oz.

57N9264—Fixed Condenser **42c**

Tubular Fixed Condenser.

Can be used with great success in the receiving circuit. A high grade fixed condenser. The base and top are made of hard rubber composition and are mounted on a nickel plated tube. Capacity is .003 MFD. Shpg. wt., 10 oz.

57N9400—Tubular Fixed Condenser **80c**

Variocoupler.

Winding is made over formica tubing 3½ inches in diameter, wire having raised points for taps. Bearing shafts with spacing shoulders turned from the shaft itself are used, assuring good contacts between rotor windings bearing standards without "pig-tails"

57N9685—Variocoupler ..... **$3.**

Audiotron Variocoupler.

Has coupling range of 180 degrees. Primary winding is green silk covered wire on a tube, 4 inches in diameter by 2¾ inches deep. Ten taps. The secondary rotor molded Bakelite will tune over a range of 150 to 500 meters; with secondary condenser of .001 MFD will tune to 700 meters. Shipping weight, 5 pounds.

57N9784 ..... **$4.**

Lattice Bank Wound Variocoupler.

Tapped at twelve points, six taps on eight turns and six taps on six turns. Wave lengths from 150 to 600 meters. The coils are wound with double silk covered wire and all metal parts are of brass, nickel plated. The taps are brought out inches in length. This variocoupler represents the maximum in efficiency. Shipping weight, 3 pounds.

57N9676—Variocoupler ..... **$**

Lattice Bank Wound Variometer.

The lattice banked winding contains four sections with three layers of nine turns each, or twenty-seven turns per section, making a total of one hundred eight turns of double silk covered wire. Free from the stray insulating and other energy absorbing materials which reduce the strength of faint signals and cut down the efficiency of the instrument. Equipped with shaft and two small bolts for panel mounting. Shipping weight, 3 pounds.

57N9677—Variometer ..... **$**

Audiotron Bakelite Molded Variometer.

Molded in two pieces from genuine Bakelite, primary winding on the inside, insuring an absolutely rigid stator winding. Rotor is molded from Bakelite and permits of minimum clearance. Bearings are of brass, fitted with spring, insuring perfect contact at all height, 5⅝ inches; length, exclusive of protruding end of the shaft, is 3. The total width of the variometer, including the stator is 3 inches. Shpg. wt.,

57N9781 ..... **$**

Variometer.

Wood parts are of thoroughly kiln dried stock. Stator and rotor windings are secured with special cement. Bearing parts are of brass, 1 inch in width, sunken flush with wood forms, allowing variometers to be mounted flat on back of panel without spacers, and also insuring rigidity and permanency of spacing between rotor and stator. Stator blocks are 4¾x4¾ inches. Shpg. wt.,

57N9684—Variometer ..... **$**

Mica Grid Condenser and Grid Leak Combined.

Made from formica sheet, grained finish and best India mica as insulation. Unit is held together by two screws which also act as binding posts and are fitted with molded knobs. Condenser capacity is .00025 M. F. D. Adjustable grid leak of about 2 megohms, made of gray fiber. Very convenient for panel mounting. Size, 2½x1x½-inch. Shpg. wt., 4 oz.

57N9658—Mica Grid Condenser and Grid Leak Combined.....52c

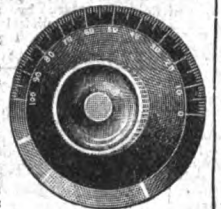
Audiotron Fixed Grid Condenser.

Stamped from copper sheet and insulated with paraffin paper. Entire unit is encased and impregnated and the terminals are spaced so as to mount on the back of the panel directly on the 57N9659 Grid Leak. Capacity is .00025 M. F. D., the correct value for the type C-300 Detector tube. Shipping weight, 1 ounce.

57N9660—Fixed Grid Condenser.....15c

Audiotron Variable Grid Leak.

A grid leak is necessary in the operation of vacuum tube detectors and amplifiers. A variable grid leak is most desirable, as the necessary resistance may vary from ½ to 5 megohms. The base of this Grid Leak is molded from Bakelite and a pencil mark between the contact studs provides the variable resistance. Metal cap is finished in black celluloid enamel and the studs are provided with washers and nuts for panel mounting. 57N9660 Grid Condenser will fit directly on screws. Shpg. wt., 2 oz.



57N9659—Audiotron Variable Grid Leak.....30c

Beveled Bakelite Dial—Unit Molded—Clockwise Scale—Ground Edge—Bakelite Knob.

This 3-inch beveled edge dial is molded from genuine black Bakelite and will not warp or discolor. Surface is highly polished. The engraving is filled with white enamel and the 100-division scale reads from right to left for clockwise rotation.

Edge of each dial is ground true. The knob is molded Bakelite, 1⅜ inches in diameter, and is fastened to the dial by a special nickel plated brass bushing. The bushing is drilled for ⅜₁₆-inch shaft and the set screw passed through both knob and bushing. Shipping weight, either style, 4 oz.

57N9646—3-Inch Bakelite Dial with knob and bushing, ⅜₁₆-inch.....57c
57N9649—Same as 57N9646, with ¼-inch bushing.57c

Composition Dial.

This dial is practically the same in general appearance as the high grade dial shown above, but is of composition. Supplied with bushing and set screw. Will fit either ⅜₁₆ or ¼-inch shaft. Shipping weight, 6 ounces.

57N9312—Composition Dial.....24c

Marconi Knob.

Marconi Knob, for large panels, switchboards, variometers, transformers, etc. No bushing. Drilled for ⅜₁₆-inch rod at bottom and has ⅛₁₆-inch hole in top. Highly polished.

57N9460—Marconi Knob.

Vacuum Lightning Arrester.

A new style arrester designed for both indoor and outdoor use. This gap is of the vacuum type, strong in construction and easy to install. The electrodes are spaced ¼ inch apart to insure protection against a false ground and at the same time provide sufficient air gap to partially ground static and high frequency currents. The arrester is equipped with Fahnstock clip for the aerial lead-in and a screw connection and soldering lug for the ground wire. For best results all connections should be soldered and No. 14 wire or larger should be used for the ground. Some engineers recommend the use of the outside and inside protectors at the same time, although only one is required. Both of these types are approved by the National Board of Fire Underwriters, and are preferred by many amateurs in place of the old ground switch as they are less expensive and provide better automatic protection. The arrester is furnished with complete instructions showing four different circuits for installing. Shipping weight, 1½ pounds.

57N9418—Outdoor Arrester.....$2.27
57N9419—Indoor Arrester.....1.86

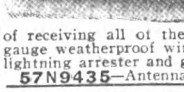
Aerial Lightning Arrester.

Designed especially for protecting radio receiving apparatus from atmospheric, lightning disturbances. Besides efficiently protecting the receiving apparatus, it practically eliminates any fire hazard of an unprotected aerial lead. Porcelain weatherproof body with metal discharge plates, separated by an air gap of ¹⁄₅₀ inch. May be suspended either by heavy set screw connections or attached to any suitable support by means of a steel band and screws, which are supplied. Shpg. wt., 1½ lbs.

57N9417

Lightning Arrester.....$1.48

Antenna and Ground Outfit.



A complete outfit with all necessary parts for installing aerial and ground connections to the home receiving set.

The set consists of 125 feet of seven strand copper aerial cable, with insulators, which will make an aerial capable of receiving all of the amateur radiophone wave lengths. Also 50 feet of No. 14-gauge weatherproof wire, with cleats, for the lead-in and ground wires. An approved lightning arrester and ground clamp are also furnished with the set. Shpg. wt., 15 lbs.

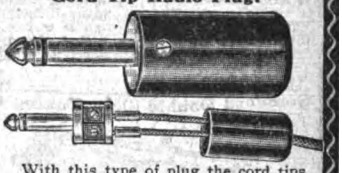
57N9435—Antenna and Ground Outfit.....$3.35

Ground Clamp.

For connecting ground wires to pipe or rods. Fits any ...up to 1½

One-Wire Porcelain Cleats.

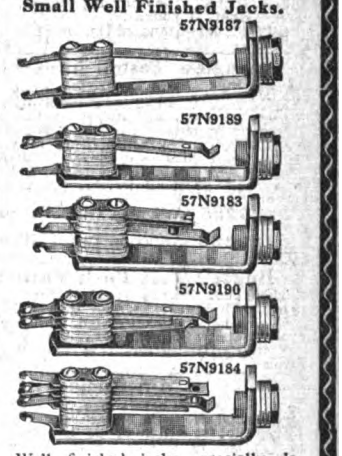
Heavy One-Wire Porcelain Cleats for supporting aerial lead-in or ground wire. Shpg. weight, one



Radio Plug.

A very practical and efficient plug. Will fit all standard jacks; finished in hard rubber insulation and best non-conductor bushings. Requires no tools for connecting. The cord tips are brought through the handle and inserted in the screw adjustment. A small loop is provided for anchoring the cords. Shipping weight, 8 oz.

57N9194—Radio Plug.....78c



Cord Tip Radio Plug.

With this type of plug the cord tips are attached directly to the plug. No longer necessary to remove tips, form loops and fasten under head of screws. This plug is handsomely finished, polished hard rubber sleeve. Can be used with any standard make of jack. Cord tips slip into the base of plug and are held firmly in place by simply tightening the two screws, as shown in the illustration of plug with sleeve removed. Shpg. wt., 8 oz.

"NAA" Receiving Transformer.

Bakelite Coil Head. Capacity 2,500 Meters.

An efficient, well made, long wave length tuner at a low price. With it you can tune in with the big wireless stations using wave lengths of 2,500 meters and more, as well as the regular broadcasting stations you ordinarily want to hear. Coil head is of turned Bakelite. All binding posts mounted on primary coil end. The windings of both coils are of silk-cotton covered wire. The slider is very selective, as it will make contact on a single turn. The secondary inductance is varied by means of a 10-point switch. All metal parts are of brass, nickel plated. Size of base, 18⅛x6 inches. Shipping weight, 8 pounds.

57N9333 ..... **$6.55**

Standard Double Slide Tuning Coil.

With suitable aerial this coil will respond to wave lengths up to 1,000 meters. Coil is bare copper wire wound, with two sliding contacts, which are nickel plated and polished. Ends are of molded insulation. Slider rods and binding posts are polished brass and lacquered. Length, 8¾ inches. Shipping weight, 3 pounds.

57N9246—Standard Double Slide Tuning Coil **$2.98**

Arlington Tested Minerals.

Each Arlington Tested Mineral has been individually tested, and unless it has shown excellent results it is discarded. They must bring in stations loud and clear. Individually wrapped and packed and sealed in a box. Shipping weight, per crystal, 2 ounces.

57N9285—Arlington Tested Galena. Per crystal **18c**

57N9286—Arlington Tested Silicon. Per crystal **18c**

Buzzer Test Push Button.

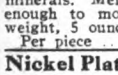
This push button is ideal for using with a test buzzer. It fits a ⅝-inch hole. Nickel plated, with pearl center. Shipping wt., 4 oz.

57N9209—Buzzer Test Push Button **24c**

Minerals.

Our minerals are all high grade and we will replace any which are not sensitive or do not give satisfactory service. Sold by the piece. Each piece is large enough for any size detector cup, and often large enough for several renewals.

57N9323—Galena. Shipping weight, 3 ounces. Per piece **8c**

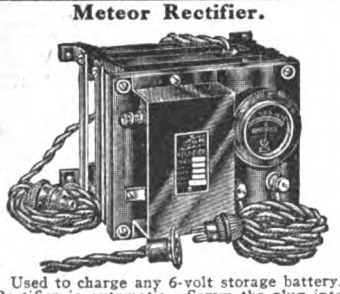


57N9327—Silicon. Fused, Pure. Shipping weight, 3 ounces. Per piece **10c**

Soft Metal.

57N9326—Soft Metal, for mounting minerals. Melts in hot water. Piece large enough to mount two minerals. Shipping weight, 5 ounces.

Per piece **10c**

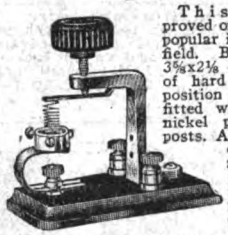


Nickel Plated Brass Mineral Cup.

Fitted with three screws for mounting mineral. Cup is of nickel plated brass, polished. Hole in bottom of cup allows for mounting on detector stand or panel. Shipping weight, 5 ounces.

57N9486—Nickel Plated Brass Mineral Cup **15c**

Meteor Rectifier.



Used to charge any 6-volt storage battery. Rectifier is automatic. Screw the plug into any electric light socket on a 110-volt 60-cycle circuit, connect the leads to the battery and the charging will immediately commence. There is no danger of overcharging, as the rate of charging automatically tapers. The battery connections may be reversed without danger to battery. Will fully charge any 6-volt storage battery at a cost of from 4 to 10 cents. Furnished complete with book of directions. Shpg. wt., 10 lbs.

57N9683—Meteor Rectifier.... **$13.45**

Radio

For latest developments in high grade apparatus write for our Radio Catalog 459GCN. Sent free on request

Standard Galena Detector —Improved Model.

This detector has proved one of the most popular in the amateur field. Base measures 3⅝x2⅛ inches and is of hard rubber composition ¼ inch thick, fitted with polished nickel plated binding posts. A tested galena crystal is mounted by thumbscrews in nickel plated mineral cup which is held in place by means of a shock absorbing brass strip. Cup rotates, allowing very easy adjustment. This detector is not easily "knocked out," as the spring contact is held in place by adjusting screw. All metal parts nickel plated and polished. Shipping weight, 1 pound.

57N9262 ..... **$1.20**

Detector Stand.

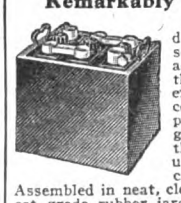
A good detector stand at a low price. It will give efficient service either as a regular or an auxiliary instrument. Base is hard rubber composition; binding posts nickel plated; cup element holder; vertical adjustment. Mineral not furnished with this detector, but we recommend silicon. Size over all, 2⅝x1½x2 inches. Shipping weight, 8 ounces.

57N9219—Detector Stand..... **65c**

Wireless Test Buzzer.

Detectors often lose their adjustment and need readjusting. By using a buzzer the adjustment of the detector is always known. The buzzer sets up tiny waves which pass through the detector, the same as incoming waves, and produce a sound in the receivers. If no sound is heard the detector point is not on a sensitive spot on the mineral and needs readjusting. The buzzer operates on one dry cell. A push button is used to close the circuit. The base and cover are made from sheet brass, nickel plated. Size, 2⅛ inches in diameter, 1 inch high. Shipping weight, 8 ounces.

57N9208—Wireless Test Buzzer **61c**



Meteor 1½-Volt A Battery.

A 1½-volt dry cell battery designed especially for use with the 1½-volt tubes now on the market. This battery has high amperage and excellent recuperative power. Laboratory reports show considerably longer service life than most dry cells now on the market, and we highly recommend it for any dry battery tube. Shipping weight, 2¾ pounds.

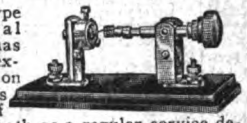
57N9668—Meteor 1½-Volt A Battery **52c**

Radio Storage Batteries at Remarkably Low Prices.

A storage battery developed for radio service under the exacting specifications of the United States Government during the recent war. Extra thick plates and the highest grade insulation are the basis of an unusually high ampere-hour capacity and long life. Assembled in neat, clean wood case. Highest grade rubber jars tested under 20,000 volts give absolute protection against leakage. Lead headed knurled binding posts make quick connections easy.

Shipped direct from depots in CHICAGO, ILL., PHILADELPHIA, PENNA., ATLANTA, GA., MINNEAPOLIS, MINN., or SAN FRANCISCO, CALIF.

57N9519½—Storage Battery, 6-volt, 40-ampere hour. Shpg. wt., 35 lbs. **$9.28**



57N9520½—Storage Battery, 6-volt, 60-ampere hour. Shpg. wt., 40 lbs **$10.90**

57N9521½—Storage Battery, 6-volt, 90-ampere hour. Shpg. wt., 50 lbs **$13.68**

57N9523½—Storage Battery, 6-volt, 150-ampere hour. Shipping wt., 65 pounds **$19.82**

Marine Mineral Detector.

This type of mineral detector has been used extensively on various styles of ship sets, both as a regular service detector and as a "stand-by." We recommend it to every amateur and experimenter. Detector shaft is mounted in a tube container. This tube container is mounted in a ball and socket joint which gives maximum adjustment of range. A spiral spring is used on detector shaft and is mounted inside the tube, which insures permanent position. Cat whisker contact wire is held by means of clutch and is easily removed for changing. Mineral is supported in brass cup by three screws. Black molded base, 6x 2½x3⅛ inch. All metal parts are brass, heavily nickel plated and polished. Tested piece of galena is furnished. Shipping weight, 2 pounds.

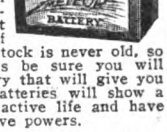
57N9297—Marine Mineral Detector **$1.80**

Radio Cartridge Rectifier.

This detector can be easily mounted on any set. Each cartridge has been thoroughly tested, and is constructed to last from four to six months if properly used. It can be used the same as any mineral detector, but has the advantage of requiring practically no adjustments, and with the same range of sensitiveness as any galena detector. This cartridge is particularly adapted for portable crystal sets, as it is completely enclosed. Caution should be taken against leaving the set connected during a lightning storm, as a heavy discharge may burn out the cartridge. Shipping weight, 8 ounces.

57N9260

Radio Cartridge Rectifier..... **$1.20**



Beginners' Wireless Practice Sets.

This set provides an excellent method of quickly learning the code. The key may also be used with a spark coil and the buzzer for testing detectors. Set consists of a wireless key and buzzer mounted on a polished wood base. Buzzer is nickel plated and reproduces the high pitched sound of the wireless station. Complete with one dry cell, 3 feet insulated wire, code chart and diagram of connections and instructions. Size of base, 7x4½ inches. Shipping weight, 4½ pounds.

57N9200 ..... **$2.35**

Meteor "B" Batteries.

These batteries are made under our supervision and we believe them to be the equal of any other "B" batteries on the market today. On account of our large sales, our stock is never old, so that you may always be sure you will receive a fresh battery that will give you good service. The batteries will show a uniform voltage and active life and have remarkable recuperative powers.

57N9661—22½-Volt Battery, U. S. Signal Corps type. Size, 3½x2½x2½ in. Shipping weight, 4 pounds..... **93c**

57N9662—22½-Volt Battery with 18-volt tap. U. S. Navy type. Recommended for use with Audiotron and Radiotron Tubes. Size, 6½x4x3 inches. Shipping weight, 9 pounds..... **$1.47**

$142.50

Receiving Radius 300 to 600 Miles

An ideal radio outfit for campers, tourists and persons situated in the rural districts. Radiola will be found especially useful to the farmer for the daily reception of market and ther reports and general radiophone broadcasting of musical programs. These messages are out by the U. S. Government and other stations on wave-lengths of 360 and 485 meters, are received like regular telephone conversations. It is not necessary for the operator to the telegraph codes. Thus, this instrument proves of great value to the great farming rs of the United States which are served by local radiophone broadcasting stations.

The Complete Outfit Consists of:

Portable Receiving Set, complete with Aeriotron Vacuum Tube WD-11; o Sensitive 3,000-Ohm Head Phones; 1 "A" Battery, 1 Volt; 1 "B" y, 22½ Volts; 1 Complete Aerial and Ground Outfit, 57N9435.

his set is particularly adapted to the rural districts, as the filament circuit rated by an ordinary dry cell.

his set is also recommended for hunters, scouts and campers, as it may ried by one man without overburdening him, even on a long hike. The te outfit with the necessary batteries for its operation, ulators and wire for the antenna, as well as the wire for the ground connection, may be placed in a haver-. The total weight is less than 15 pounds. Shipping t, 22 pounds.

N9315¼—Complete set $65.00

estinghouse Radiola Senior Amplifier.

mplete amplifying unit, designed for use with the a Senior Set. This unit converts the outfit into rful three-tube set, capable of receiving over great es. This unit also operates on dry batteries and is ly recommended for rural districts. The complete oduces enough volume so that any style loud speaker e used. The unit is sent complete with two dry cells ne "B" battery and all necessary directions for con-. Shipping weight, 24 pounds.

7N9325 ..... $68.00

The Radiola R. C.

A compact and efficient regenerative receiver with a detector and two stages of audio frequency amplification all in one cabinet. This set is suitable for wave lengths from 180 to 700 meters and has a plug and jack arrangement so that signals may be received with the detector tube alone or with one or two stages of amplification. This makes the set particularly adapted for use with a loud speaker. All metal parts are polished nickel plated and are mounted on a black insulating panel which is mounted in a highly polished and electrically shielded mahogany cabinet.

This set is an ideal one for rural use, as it is furnished with the new tubes, type WD12, which operate from dry cells, thus making the use of a storage battery unnecessary. The external wiring connections are very simple and are fully explained in the directions which are furnished.

This outfit as supplied includes everything necessary for the complete installation of the set, such as aerial and ground wire, three WD12 tubes, three dry cells, two batteries, and a pair of sensitive head phones with plug. Shipping weight, 60 pounds.

57N9319—Radiola R. C. Receiving Set, complete. $142.50

The Music Master.

The Music Master is a high grade loud speaker, ideal for home use. Simple in construction with practically nothing to get out of order. This speaker may be used with any set with one or two stages of amplification. The 14-inch bell of the horn is made of finely grained mahogany. This bell fits into a black enameled cast aluminum gooseneck and is held in place by a nickel plated ring of special alloy. The base which contains the reproducer is of art metal having a felt bottom to prevent the possibility of ing. The entire unit is so constructed that e vibration is practically eliminated. Attrac- appearance and requiring no batteries for . This speaker is an ornament in any home.

9777—The Music Master..... $29.00

Meteor Loud Speaker.

A real value in loud speaking devices, neat in appearance, with perfect tone quality and moderately priced. This loud speaker can be operated without the use of additional battery and is highly recommended for use on detector and two-stage sets where a good speaker is desired. The speaker is made of compressed wood pulp which produces excellent tone quality and eliminates metallic vibrations. The surface is especially treated to withstand climatic conditions, and the sound chamber is carefully sealed to insure full volume. The loud speaker is equipped with a standard Baldwin type "C" unit and 6-foot cord to attach the speaker to set. Shipping weight, 7 pounds.

57N9695—Loud Speaker..... $9.95

Phonograph Attachment.

This device when attached to the tone arm of your Victrola, Silvertone or Columbia phonograph, gives you a very effective loud speaker for radio. Everyone can enjoy the wireless reproduction without the use of individual head sets. The horn is used to amplify the radio reception, producing a magnificent full rich tone, in much the same manner as it increases the volume of sound from the sound box when a phonograph record is played. The Phonograph Attachment is interchangeable with the reproducer. Either device may be removed without the use of tools and the other inserted. Can be used with any receiving set having two stages of amplification. Shipping weight, 1 pound.

57N9778 ..... $7.50

Magnavox Loud Speaker.

A roomful of people can listen to the entire program with the Magnavox. With this loud speaker you can treat your guests and family to real home entertainment, concerts and dances. It reproduces radiophone speech or music to such a degree and clearness of tone that it has also become very popular for use in churches, clubs, hotels and even dance halls. Can be used with any receiving set having two stages of amplification—the better the set, the more magnavox can do for you. Requires a storage battery for satisfactory use and draws about one ampere. Consists of a 14-inch metal amplifying horn and a very sensitive loud reproducer which is mounted on a wood base. Finish is black. By all means get this Magnavox Loud Speaker if you want to get the most pleasure out of radio and the greatest satisfaction from your set. Shipping weight, 20 pounds.

57N9779—Magnavox Loud Speaker. $29.80

Frost Head Phones.

High grade and popular phones at a price within the reach of all. These phones can be relied upon to be sensitive, and tests show that they can be used to good advantage in loud speakers. The re- is of the double magnet type, and the iaphragm is carefully adjusted in relation magnets. The workmanship is thoroughly after each step in construction, so as to most sensitive results. The phones are with an Army-Navy style headband, with heavy webbing so as to give most Also a 6-foot connecting cord with terminals. Shipping weight, 1½ pounds.

9212—Frost Head Phones. 3,000 ohms, ir..... $5.34

Baldwin Head Phones.

Baldwin Mica Diaphragm Telephones are used extensively by the Bureau of Standards, U. S. Army and Navy and also by commercial radio companies. The mica diaphragm used makes the receiver more sensitive than any metal diaphragm type of telephone. The outstanding features in the construction and operation of the Baldwin receivers may be summed up briefly as follows: 1—The small armature is pivoted and designed to act as a fulcrum when connected to the diaphragm by a small link. There is no tension or springing of metal as in ordinary receivers. 2—Four pole pieces of single solenoid act upon both sides of a lightly balanced armature. 3.—The force is concentrated at the exact center of a sensitive mica diaphragm (identically the same as in all high grade phonograph reproducers). Fitted with a spring steel headband which is covered with woven cotton tubing. Has heavy mercerized cord. Shipping weight, 1½ pounds.

57N9531—Baldwin Improved Head Phones, Type C. Per pair..... $11.80

Brandes Head Phones.

These Matched-Tone Head Sets will give maximum service for many years. The parts are made of the most durable materials and every precaution is taken to prevent possible corrosion when exposed to damp air. All adjustments are made permanent, thus doing away with moving parts which always wear out. The phones are equipped with new design feather-weight headband, which permits proper adjustment of receivers. Also furnished with polarity indicating cord. The receivers are highly polished aluminum and hard rubber, the conducting cords black and the headband is nickel finish, with olive green khaki covering. The receivers are very efficient and neat in appearance. Shpg. wt., 1½ lbs.

57N9603—Brandes Superior Type Head Phones. Per pair..... $6.55

57N9604—Brandes Navy Type Head Phones. Per pair..... 9.80

Telephones and Accessories

Description of Magneto Telephones. What Kind to Order.

Bridging magneto telephones as here listed are the standard for party lines. If you need series phones for private line and city exchange work we will gladly quote prices, but we recommend bridging phones for this work also. Party lines can use only bridging phones.

All telephones on one line should be of the same ohms resistance. We guarantee all our telephones to be a standard make and high grade in every respect. Every part that goes into the telephone is new. We do not sell rebuilt phones.

Every telephone is equipped with solid back transmitter, bi-polar receiver, adjustable ringers with 2½-inch brass gongs, lightning arresters and generators with laminated magnets, each magnet consisting of three laminations, tempered and magnetized separately, producing a powerful generator. In other words, our six-bar generator has eighteen of these magnets.

These phones are shipped from factory near CHICAGO. Shipping weight, each, 43 pounds. If you do not want batteries, deduct 76 cents per telephone.

Compact Bridging Telephones With 6-Bar Generator, Including Two Dry Batteries per Phone.

Catalog No.	Type of Ringer	Each	Six for
57N8112½	1,000-ohm	$14.31	$84.76

We sell our ELGIN Bicycles under a bindi
antee which absolutely protects you from
every transaction.

Boys' and Girls' Models.

Our Boys' and Girls' Model ELGIN Bicycles have the same type of construction as our adults' model ELGIN Bicycles, but are furnished in a smaller size. These bicycles are made with a 16-inch combination frame, with 26-inch wheels. A dip in the top frame bar of the boys' or diamond frame model permits adjusting the seat post for comfortable riding on the part of any boy who can ride a 16 or 18-inch model bicycle, which will include leg measurements from crotch to heel of 18 to 26 inches. These bicycles are equipped with adjustable reversible handle bars fitted with the popular sewed leather grips. The tire equipment is our celebrated JUSTICE Auto-Bike Tires, 26-inch size, with black studded tread and white sides. (For description and illustration of these tires see page 949.) Both front and rear wheels are equipped with mud guards, the front guard being fitted with splasher, the rear guard with stand lock clip. Stand comes in dull nickel finish. Equipped with Juvenile Troxel Saddle with beehive cushion springs. Special rubber pedals, comfortable and durable, with adjustable pedal rubbers. Has a 1-inch pitch roller chain. Complete with tool bag with bicycle wrench, hand pump, tube of tire repair cement and oiler.

The girls' model is furnished with drop style frame instead of diamond and is equipped with skirt guard. All models are furnished in attractive cherry red, with black striping.

We can also furnish our Boys' and Girls' ELGIN Model Bicycles in khaki brown and cream color, with cream color frame head, khaki brown seat post mast, khaki brown top and lower frame bars and fork sides (khaki brown drop frame bars on the Girls' model), with contrasting color darts. Rims and mud guards enameled with cream color centers and khaki brown sides to match frame.

Prices of Our Boys' and Girls' Model ELGIN Bicycles.

Women's Model.

Our Women's Model ELGIN Bicycle is a high grade, well equipped model, attractively designed and finished. It is a worthy companion to our men's model ELGIN bicycles. The equipment has been carefully selected to include those features that make for comfort, durability and attractiveness.

Features of Our Women's Model ELGIN Bicycle.

FRAME—Reinforced 1-inch steel tubing, drop style instead of diamond. S
only.

Women's Model Troxel Saddle, comfortable and easy riding. Has bee
springs, finished in black. We furnish a 1-inch roller chain on this model. E
cludes substantial metal chain guard, laced skirt guard, mud guards, with spla
front guard and stand lock clip to rear guard, a regulation type dull nickel finish
rubber pedals, adjustable reversible handle bars with about 6-inch sewed lea
grips and tool bag with bicycle wrench, hand pump, tube of tire repair cement an
tire equipment is our splendid JUSTICE Auto-Bike Tires with black studded tre
side walls. (For description and illustration of these tires see page 949.)

FINISH—Our Women's Model ELGIN Bicycle is furnished in cherry re
striping. The many nickel plated metal parts make an impressive contrast
red finish of the frame, mud guards and rims.

We can also furnish our Women's Model ELGIN Bicycle in blue and white
nished with white frame head, blue seat post mast and blue drop frame bars an
with contrasting color darts. Rims and mud guards enameled with white cent
sides to match frame.

28N1351¼—Women's Model ELGIN Bicycle, equipped with
parture Coaster Brake. Furnished in cherry red and black strip
blue and white finish. **State finish wanted.** Shipping weight,
60 pounds.....

Colored Tread Anti-Skid Tires
at about One Half Usual Price

$2.85 A PAIR

Here is a splendid bargain in reliable high grade Bicycle Tires. By giving one of the best known manufacturers of standard bicycle tires a large standing order for bicycle tires, they are enabled to keep their factory running at full capacity constantly. These tires duplicate in material and workmanship the standard make bicycle tires this factory makes at much higher prices. They come in a variety of tread designs, many of which have been well known standard brands. They are colored tread anti-skid type tires, with white side walls, of puncture healing type and will give you absolutely the same service you regularly expect from tires for which you usually pay considerably more money. We will skip tires of the same tread design on all orders for a pair and will select the tread design according to our stock conditions. All tires are single tube cement-on style.

S. R. Spring Leaf Oilers.

Their use stops spring rust and squeaks. Give better spring action, reduce road shocks and spring breakage. Easily attached. Have oil reservoir at top and felt packing inside, through which oil is fed to spring leaves. Use two oilers for each semi-elliptic spring. Shipping weight, each, 1 pound.
28N6706—For any standard car spring, front or rear. Each..... **$**

Spring Lubricating Tool.
For opening spring leaves to insert lubricant. Avoid rusty, squeaky springs. Also used as a temporary repair clamp. Black finish. Shpg. wt., 1 lb.

28N8671 **$1.12**

NOTE—All springs shipped from factory in NORTHEASTERN ILLINOIS or EASTERN PENNSYLVANIA, whichever is nearer you, or from our store, according to stock conditions.

JUSTICE INNER TUBES

Guaranteed for Two Years

We Believe There Are No Better Inner Tubes Made Regardless of Name, Make or Price

We do not know of a better inner tube than our popular high grade JUSTICE Heavy Red or Gray Inner Tubes. Hundreds of thousands of these tubes are in use today and giving complete satisfaction. They are a splendid foundation for satisfactory tire service. Tough, heavy, high grade rubber materials are combined by excellent workmanship into inner tubes that will give exceptionally long wear. They can be used in casing after casing. One JUSTICE Inner Tube in one of your casings will pave the way for more of the same make.

JUSTICE Inner Tubes Are Guaranteed for Two Years Against Any Defects in Material or Workmanship!

JUSTICE Inner Tube Prices Save You One-Third or More.

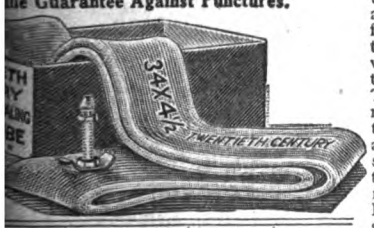
Extra Heavy De Luxe Red Inner Tubes



10 Per Cent Larger, 25 Per Cent Heavie Especially Adapted for Cord Tires.

JUSTICE Extra Heavy Red Inner Tubes offer the fin example of high quality inner tube construction that we ha ever seen. They are made by the makers of our famo JUSTICE Heavy Red Inner Tubes, who have justly earn the reputation of being leaders in the manufacture of hi class inner tubes. The splendid satisfaction JUSTIC Heavy Tubes have invariably given during the ten years have sold them marks them as tubes of exceptional quali

In JUSTICE Extra Heavy Red Inner Tubes we of a wonderful new super-tube, built of the very finest rubb materials obtainable and made 10 per cent larger and 25 per cent heavier gauge. This splendid tube will pro its worth in any size casing. Its unusual thickness mak it practically free from pinching. Its heavy gauge sa guards the driver to a large extent from puncture troubl It is especially well adapted for use in cord tires, its size a thickness adapting it perfectly for use in oversize cord ti without being stretched out of shape.

re Healing Inner Tubes

ile Guarantee Against Punctures.

Avoid punctures with their annoying features and get all the pleasure from your automobile trips that freedom from worry over possible tire trouble will bring you. Twentieth Century Inner Tubes are guaranteed for 5,000 miles against punctures. A special process gives these tubes puncture resisting features. Nails, tacks and other small objects that penetrate the tube can be pulled out from the tire without losing the air in the tube. Twentieth Century Tubes are made of high grade rubber materials and will give long, satisfactory wear. Try them under our liberal guarantee of freedom from puncture.

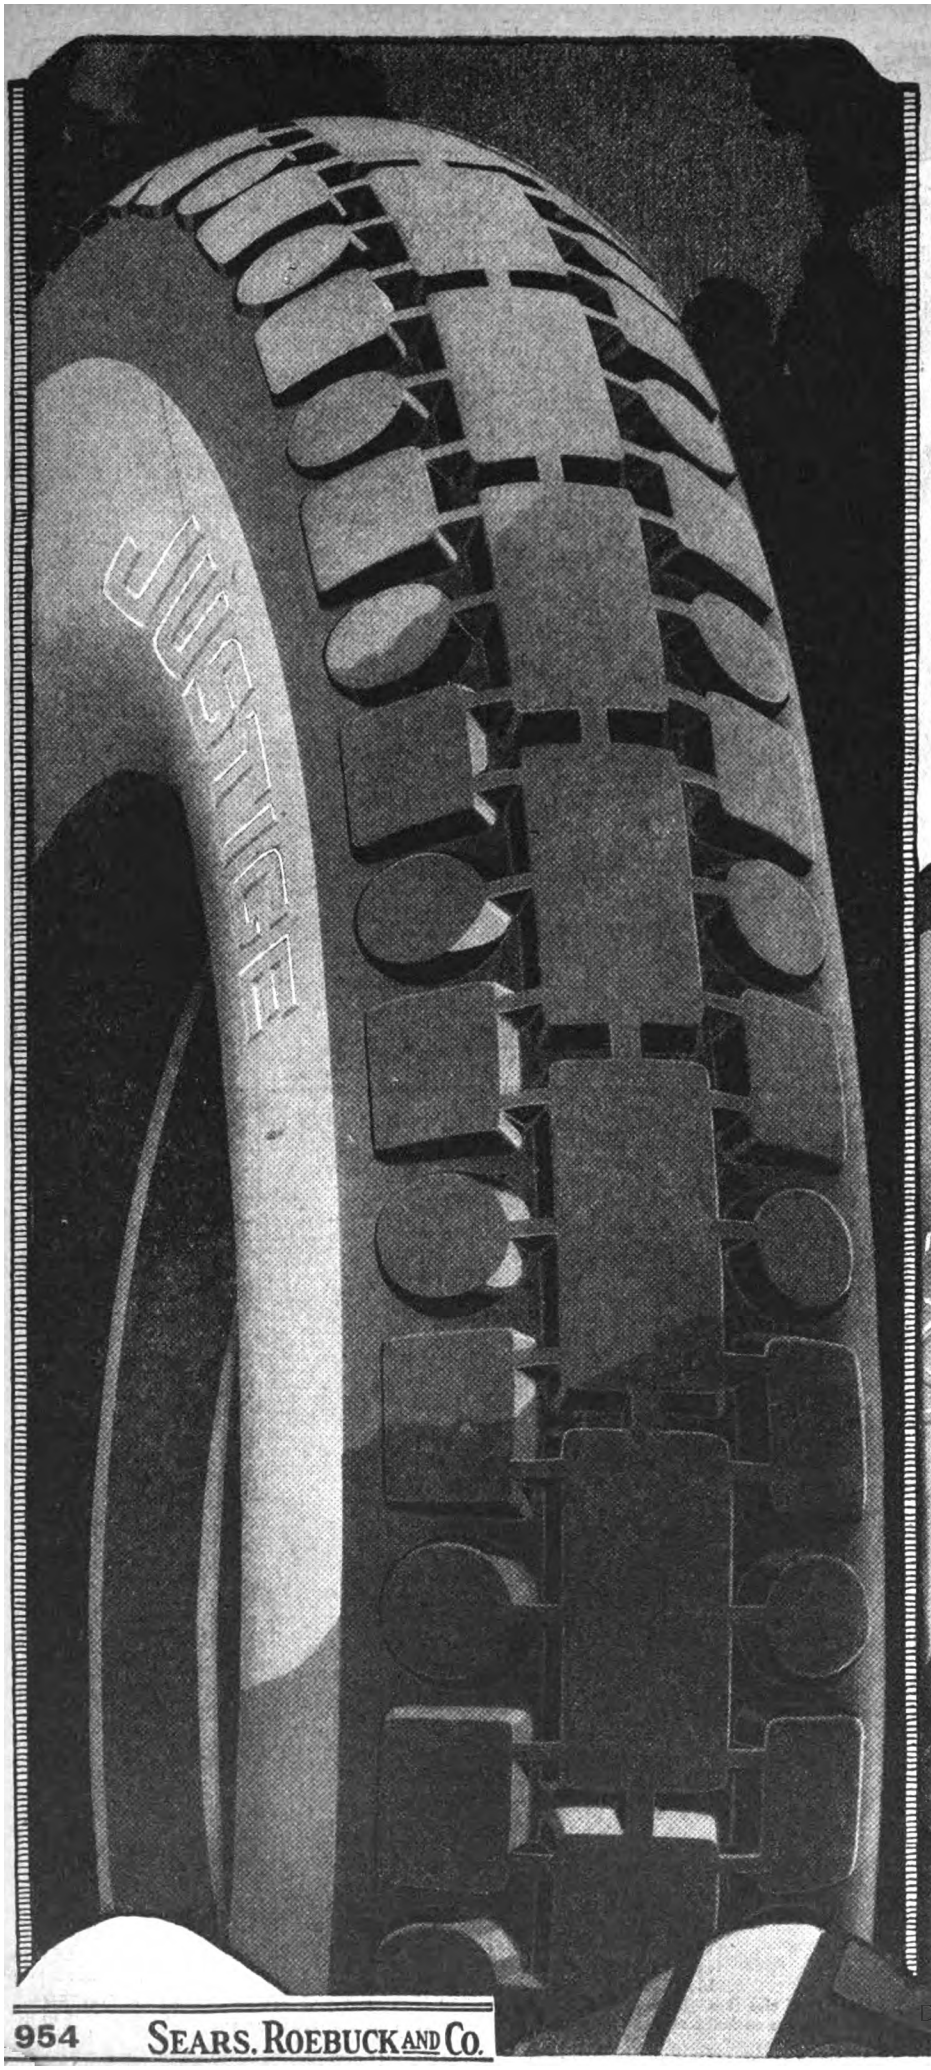
Puncture Proof RELINERS



An excellent, highly efficient Puncture Proof Reliner, made of extra heavy, tough, resilient rubber with two layers of overlapping brass discs or plates. These metal discs, separated by rubber, make your tire puncture proof; nails, tacks and other sharp objects penetrating to the plates being turned back. Reliner is built with long tapered ends and feather edge tapered sides, protecting tube from being pinched and fitting tire snugly. They conform perfectly to shape of casing when tube is inflated. **We guarantee Puncture Proof Reliners to be both puncture and blowout proof for the life of the tire.** Made in all popular tire sizes as listed at right.

ACCESSORIES FOR TIRE REPAIRS

Self Curing Tire Repair Kit.
Quick, Lasting, Inexpensive.

For making quick, lasting repairs of inner tube punctures or tears and cuts or holes in casings without vulcanizing. Repairs can be quickly made and the tube put into use at once. Repairing casing cuts or holes lengthens the life of the tire, preventing dirt and water from causing early ruin to tire. Outfit comprises can of Tire Gum containing sufficient material for repairing from thirty to fifty tube punctures or small casing holes, and can of Cement. Complete with directions for using. Shipping weight, 10 ounces. **35c**

28N9384.....

Rubber Cement.

15c

Five-Minute Vulcanizer.
For Inner Tubes.

Think of it! A neat, permanent vulcanized patch in 5 minutes.

A thoroughly vulcanized patch on your inner tube in five minutes! Heat is produced by igniting disc. Remove cloth. Apply patch to tube, clamp container, with disc in place, over patch and ignite heat unit. Outfit includes twelve patches and heat units. At our remarkably low price this splendid little outfit should be a part of every auto owner's equipment. Shipping weight, 1 pound.

28N10556—Complete outfit..... **95c**

28N10558—Box of Twelve Patches and Heat Units. Shipping weight, 8 ounces..... **55c**

Quick-Fix No-Cement Rubber Patching Outfit.
For Inner Tubes.

You can make any inner tube repair, either puncture or blowout tear, quickly and successfully, without either vulcanizing or using cement. No waiting for a vulcanized patch to cool or for a "cold" patch to "set." The repaired tube can be put into the casing AT ONCE and the repair will last indefinitely.

Outfit comprises patching material, tube of cleaning compound and tube buffer. Instructions furnished for making quick, satisfactory, permanent repairs. Comes in two sizes.

28N10481—Outfit with about 30 square inches of patching rubber. Shipping weight, 8 ounces..... **29c**

28N10561—Outfit with about 72 square inches of patching rubber. Shipping weight, 10 ounces..... **49c**

Cactus Rubber Patching Outfit.
For Inner Tubes.

An efficient low priced patching outfit for inner tubes. Outfit comprises patching material, rubber cement and tube buffer. Instructions furnished for making a simple, sure repair. Heat generated from friction of running vulcanizes patch onto tube. Made of high grade rubber, stretches with tube and will make any size repair from a puncture to a blowout.

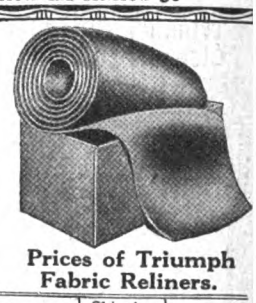
NER CASINGS.



Keep Your Old Tires in Service.

remove a tire when it begins to show signs of considerable wear—an inner will usually help you get worth while extra mileage service from the tire. By nner Casings you can avoid the average puncture due to small nails or tacks, ra thickness inside the casing helping to keep these objects away from the inner tube. Inner casings are built up of several layers of fabric and an outside layer of rubber. They are shaped to fit the tire. They are practically an endless reliner, but of heavier construction and with the sides extending well down past the beads to cover nearly the entire tube. Furnished in all popular tire sizes.

Prices of Inner Casings.

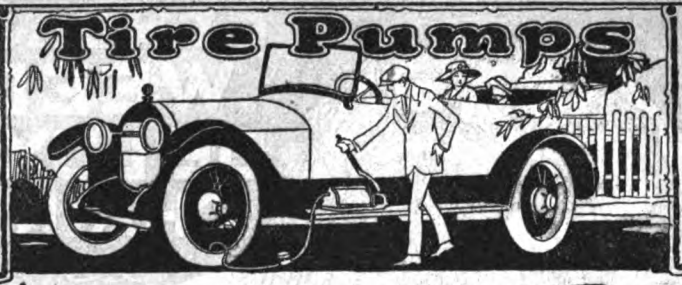
Prices of Triumph Fabric Reliners.

TRIUMPH RELINERS.

Make Your Tires Last Longer.



Don't Throw Away Partly Worn Tires. A Reliner will usually help you get considerably more mileage from them.

Many car owners put Triumph Reliners in almost new tires to help avoid punctures. Triumph Reliners are made of several plies of frictioned tire fabric. Wipe out inside of casing and moisten dark (cemented) side of reliner with gasoline saturated cloth, press reliner into place, a small section at a time.
